Hillsdale College Prexy Eyes Race!

Zollar Polling Fourth District, Watching Move By Roche

By JERRY KRIEGER
Farm, Features Editor
State Senator Charles Zollar, Benton Harbor, is looking principally at two things as he weighs a decision whether to get

into the Republican race for Fourth District congressman. And he said he expects to have his decision made in about two weeks. First, he has an opinion poll in

progress that will sample his chances against David A. Stockman, St. Joseph, a declared candidate, and State Rep. John S. Mowat, Jr. of Adrian, a possible candidate.

The second factor, and perhaps the bigger one of the two, is the possibility that George C. Roche III, president of Hillsdale college, may make a bid for the GOP nomination. Roche has a wide reputation for his long battle against governmental intrusion into all phases of life, and particularly in the educational field. "If Roche wants to run for the office, it could make a difference in what I decide to do," Zollar stated this morning.

At his home in Hillsdale this morning, the Hillsdale educator said that since Incumbent Congress man Edward Hutchinson, St. Joseph, announced he would not seek reelection he (Roche) has been approached by numerous people urging him to become a candidate.

"I had never considered the possibility of becoming a candidate before, as I have a full-time job at Hillsdale college. But I have had to take seriously the many good friends in the district, in Michigan and in the Congressional delegation in Washington who have urged that I run."

Roche said he recognized that his decision could have an effect on other possible contenders, including Zollar, and that he would therefore try to make up his mind within a matter of weeks.

Zollar, 62, and a member of the state senate since 1965, admitted that Roche would be a strong candidate.

The opinion poll Zollar has commissioned by a Detroit poll organization will consist of 1,400 telephone interviews with voters through the seven-county district. It will compare name recognition and acceptance, among other things, with those of Stockman and Mowat. Roche's name, presumably, had not popped up yet when the poll was planned.

Zollar said the poll results should be in late this week or early next week.

He added that he expects to make and announce his decision on running in about two weeks. Because of the effect of Roche's entry into the race, political ob-

Boston March Ends In Riot

BUSING FOES CLASH WITH POLICE

BOSTON (AP) — Antibusing demonstrators and police traded charges of brutality after a riot near South Boston High School that left dozens of persons injured and 13 arrested.

At the height of Sunday's melee, police said a crowd of about 400 antibusing marchers wielded bottles, bricks, clubs and tire irons in an attack on police which was coordinated by citizen band radios. The protesters countered that police tried

to break up their march for no reason and charged into them on horseback and motorcycles.

Police Commissioner Robert J. diGrazia called for a grand jury investigation. He charged that the confrontation, in which at least three police officers were hurt, was a conspiracy by hoodlums to injure police.

The fracas erupted during a "Fathers' March" against busing in South Boston, the site of major disruptions since U.S. District Court Judge W. Arthur Garrity Jr. ordered the city schools desegregated in September 1974.

A spokesman for the antibusing group ROAR, Restore Our Alienated Rights, responded with a statement also calling for a federal investigation.

"We demand that diGrazia be dismissed and the Tactical Patrol Force be disbanded," said Richard Laws. The TPF is a riot control squad.

"We further demand a thorough investigation by the U.S. attorney's office of the TPF for violating the constitutional right of freedom of peaceful assembly by the citizens of Boston."

City Council President Louise Day Hicks, a founder of Bos-

ton's antibusing organizations, said, "I can truthfully say if there had been no police in South Boston, there would not have been any of this. It was the first time the men had really banded together in protest of forced busing."

There have been several "Mothers' Marches."

Police said it was the first time tear gas was used to break up a demonstration here. They claimed that demonstrators threw tear gas first, and they said they have video tapes to prove that claim.

"At least 30 to 40 police were struck with missiles," police spokesman Norman Halliday said.

"It may take 500 or 1,000 police officers in South Boston, but this type of violence has got to stop," diGrazia said. "This group of hoods attacked the police with bottles, stones, bricks, clubs and tire irons."

The march was organized by a group called the South Boston Marshals. The confrontation erupted when the marchers tried to approach the high school and were met by police.

diGrazia said the attack was coordinated with citizen band radios and said he would seek

an investigation by the Federal Communications Commission. He also said he would seek immediate investigations by the Justice Department and a grand jury.

Police, contending the school was not on the authorized parade route, turned the crowd back.

"I see no reason they shouldn't have been allowed to go up to that school," Mrs. Hicks said.

Last fall, Garrity restricted unauthorized persons from getting close to the school.

Two Democratic state representatives, Raymond Flynn of South Boston and

Frank Coppinger of West Roxbury, were among the marchers. Flynn said two groups were to meet at the school.

"We had a parade permit, I don't know why they blocked us," Flynn said.

At the height of the fight, which lasted about two hours, crowds of demonstrators roamed the streets near the high school, swinging clubs and heaving rocks and bricks at police.

Police on horseback and motorcycles rushed the groups to break them up. A police

Medical Lab Fraud Cited

WASHINGTON (AP) — A small number of medical laboratories are kicking back millions of dollars in Medicaid funds to physicians in at least five states, investigators are telling a Senate panel.

The testimony came as the Senate committee on aging began hearings today on allegations of fraud and abuse among medical laboratories. The chairman of the committee, Sen. Frank E. Moss, D-Utah, said in an opening statement that a small number of labs control the bulk of Medicaid payments.

Moss said that in New York, 17 labs control 70 per cent of the

Medicaid business, while 12 labs in New Jersey control nearly 60 per cent of Medicaid payments there. In Illinois, 26 labs control over 90 per cent of the Medicaid business, he said.

The investigation also covered California and Pennsylvania.

Moss said a report by the panel's staff "concludes that, at least in the states which came under investigation, kickbacks are widespread among labs specializing in Medicaid business. In fact, it appears to be necessary to give a kickback in order to secure the business of physicians or clinics who

Killing The Creature To Protect Its Life

In contrast to the lax enforcement of efficiency where it counts is the other extreme in which a bureaucrat elects to carry out the letter of the law to its ultimate, even if that proves to be destructive.

Take the case of the Pottstown, Pa., family which found a one-winged owl, nursed it back to health and kept the bird in its home because it obviously couldn't care for itself. Along came a federal game agent who said harboring an owl was against the law (it is) and made the interesting comment that no one from the President on down could stop him from taking the bird and placing it in a wildlife depository.

The agent added that if the owl could not make it on its own, he would be put to death. As it turned out, someone with more common sense arranged a compromise and the owl was placed in a zoo.

When a law designed to protect a wild creature is used as a threat to destroy it, someone's interpretation is amiss.

One Part Of Budget That's Really Snowballing

While the crucial budget-building process is underway in Congress it is well to keep in mind the eventual end result of that process. It is far more than simply funding the established agencies and departments of government.

Part of that result is one item in the budget which for the fiscal year ending next June 30 is projected to cost \$36.7 billion. This budget category, now one

Washington's Example Pertinent For This Era

At Valley Forge during that terrible winter, a 20-year-old lieutenant from Virginia found in the dauntless spirit of his commander, George Washington, the example which fixed his own devotion to the cause of liberty.

He later confessed his debt to the hero in a biography less celebrated than are the legal opinions of the same author, Chief Justice John Marshall. In that statement of personal obligation, Marshall spoke both for the small nation of his time and for millions of Americans yet unborn.

Though others might have been spared, the revolution, deprived of the faith, force and genius of Washington, could scarcely have started and cer-

STORY ABOUT 'PIED PIPERS'

Editor,

Many years ago, according to legend, the town of Hamelin, Brunswick, Germany was infested with rats. The Mayor and the commission engaged a pest control service, Pied Piper, Inc., to take care of the job. The agreed upon price was a thousand Guilders. When the technician finished the job, and very efficiently, too, I might add, the Mayor and the commission tried to haggle about the bill. In fact, they wanted Pied Piper, Inc. to knock nine hundred fifty Guilders off the contract price. Pied Piper refused to accept the offer and retaliated by taking all of the town's children with him when he left for parts unknown.

Locally, the Mayor and commission engaged a pest control service for a pest prevention job. They paid the bill but now they want to quibble about it.

Perhaps the original Pied Piper should have started a recall petition as the local pest control expert has. Although it isn't a sure fire method, it is a possible way of getting rid of a group that bugs you. Excuse the pun.

THIRD INFANTRY WRITING HISTORY

Editor,

The Society of the Third Infantry Division is trying to contact thousands of former members of the famed outfit to let them know a non-profit reprinting of its World War II history is planned this year for the first time since 1947.

The division campaigned from Casablanca in 1942 to Berchtesgaden, Austria, in 1945, suffered 27,628 casualties, and produced 39 medal of honor winners, including Audie L. Murphy.

Further information may be obtained by writing the society at P.O. Box 7756 Rincon Annex, San Francisco CA 94120.

BLUE STARS URGE FAVORABLE VOTE

Editor,

On Tuesday, the 24th of February, the voters of Van Buren county have the opportunity to assist and upgrade the education of a very special, but often forgotten, group of children — those who are handicapped. In our public schools, this includes those children who are impaired physically, emotionally, and mentally. Also those with visual, hearing, speech, and language impairments, those who have learning disabilities.

Proposition I of the Special Educational millage election would provide for the hiring of adequate staff to service our country schools. This would include speech therapists, school psychologists, school social workers, and consultants for the hearing and mentally impaired. If we can provide the needed assistance and guidance to these children now, while

they are young, they have a greater chance of becoming strong, self-supporting adult citizens.

Proposition II would assist a different group of special education students — the trainable mentally impaired and the severely mentally impaired.

Have you ever wondered where the small yellow buses take these children?

They take them to a totally inadequate, ill-equipped and overcrowded one-room Arlington township building and to four equally overcrowded portables. We have these children tucked away so that we are unaware of their needs.

Can't we provide these special children with a school that we need not be ashamed of?

We who, fortunately, have not the problem of a mentally-retarded child, perhaps should gratefully make a special effort to assist our friends and families who are coping with problems that we little understand. We can at least give them a decent school. (Incidentally, the land is already purchased and sewage and electric, and light lines are installed.)

For more information and facts contact Bert Gowens at the Van Buren Intermediate School Office in Lawrence or Sherry Denning at 657-5935.

We strongly urge you to make a special effort to vote on Feb. 24.

Some \$75,000 worth of remodeling is planned at the St. Joseph Coast Guard station this summer. Chief Royce Fulcher announced today. Fulcher, station commander, said the work will involve the replacement of three docks, the addition of a new one, the addition of a two-car garage and work in the bathhouse and station kitchen.

— 25 Years Ago —

The Fair Plain Parent-Teacher association, holding its February meeting at the school last night, unanimously endorsed a campaign to inform district voters about issues involved in a forthcoming election on two proposals to raise \$300,000 for a new elementary school. The vote, coming on motion of LeRoy Kinney and Maynard Powers, argued well for passage of the new school proposals in the special election set for Tuesday, Feb. 27.

A plan to extend Territorial road down the ship canal, to connect with Eighth street extended, was submitted to the Benton Harbor city commission yesterday afternoon by Daniel T. Bash. The plan involves the filling in of the ship canal as far as Eighth street, which has been considered for sometime; the extension of Colfax avenue and Eighth street; and the digging of a new turning basin for the Benton Transit company's boats. Two buildings, the Hinkley block and the frame building just south on Water street, both owned by Milton Hinkley, are the only structures blocking the proposed extension. Both are old buildings.

Although the commissioners took no official action toward adopting the proposal, they were unanimous in their approval of the plan which they hailed as the greatest improvement project attempted

Loopholes Not Just For Rich

WASHINGTON — (NEA) — As is usual every four years, the bulk of the presidential candidates is following the advice of Calvin Coolidge: "You can get a lot of votes by telling people their problems are not their own fault." Addressing themselves to the problem of family budgets, most of the candidates are saying the fault is that of "tax loopholes," of rich people who have conspired during the decades to legally escape taxes, blah-blah, thereby shifting greater burdens, yak-yak, to the shoulders of the Average American.

Sounds good but ain't true.

In speeches, articles and books executed over the past few years, economist Roger Freeman has tried to lay to rest the largely mythical elements of the tax loophole conspiracy. The fact he has been absolutely unsuccessful shouldn't take away from the merits of his work. Tax loopholes, he says convincingly, benefit the non-rich far more than the rich, and for those who care about exploring the dusty figures of the Internal Revenue Service, you could look it up.

At the outset, Freeman explains, people should understand that "tax loopholes" is a phrase describing that portion of private income which for one reason or another is not taxed.

Undeniably, some of the untaxed money benefitted the destitute wealthy. The greedy fat cats who realize riches through capital gains, as every politician tells us, are taxed on profits at a rate half that of

what Mr. and Mrs. Weekly Paycheck have to fork over on their measly earnings.

Freeman doesn't quibble, but argues that tax loopholes represent welfare for everyone. He says \$155 billion of the 1972 untaxed income, the biggest tax loophole of all, was made up by way of the personal exemption deduction, the \$750 per family dependent subtraction which obviously benefits the unrich more than the rich if only because there are so many more of the former than there are of the latter.

As a final major example of his thesis, Freeman cites the \$93 billion of untaxed earnings that in 1972 was formed by income from social benefits: social security, unemployment compensation, veterans benefits, the overwhelming portion of it benefitting the unwealthy.

In all, Freeman concludes that about 90 per cent of federally untaxed earnings are held by Americans of moderate or skimpy incomes. He points out that of 16.7 million tax returns in 1972 that reported no taxable income, 92 per cent were in the \$5,000 or less AGI bracket.

All of this smacks of heresy, of course. Mental manipulations. Statistical acrobatics. Hell, every vote seeking politico knows that tax laws benefit only the rich. And how do they know? Because, as economist Freeman says, candidates are aware that four of five voting wage earners who file income tax returns earn less than \$15,000 a year.

Papal Visit Poses Questions

WASHINGTON (KFS) — Pope Paul VI may make his second papal visit to this country in August, bringing with him both religious inspiration and possible problems.

John Cardinal Krol, Archbishop of Philadelphia, has invited the Pontiff to participate in the 41st International Eucharistic Congress, which will be held in that city from August 1 through 8th. The Pope, informed sources say, has indicated serious interest in making the trip and tentative arrangements are being made.

The Pope's visit would be strictly a private church affair, but a State Department spokesman said he felt certain that President Ford would wish to have an audience with him if he comes.

The Republican presidential convention will be held in Kansas City on August 16, little more than a week after the Pope's proposed visit. And one of the most troubling issues of this presidential contest is the argument over abortion, in which the Catholic Church is playing an official, active role.

The abortion issue haunts the Democrats as well as the Republicans, but their candidate will be chosen in July, before the Pontiff's tentative arrival.

Former Gov. Ronald Reagan is a favorite of anti-abortion forces and the only GOP presidential candidate to favor a constitutional amendment to overthrow that decision.

President Ford has behaved in cowardly fashion on the issue, trying to speak from both sides of his mouth. He said he thought the states should be free to handle the issue, which merely passes the buck. Then he said he thought the Court decision "went too far," but a constitutional amendment making abortion illegal would also go "too far."

The Catholic Church is not the only religious group to hold the tenet that abortion is murder. But it has been both visible and vigorous in leading the fight to prohibit abortion and has injected itself into the political arena.

Cardinal Krol and three other cardinals testified before a Senate subcommittee on behalf of a constitutional amendment and insisted there should be no exception to the prohibition, not even to save the life of the mother. A few months ago, the National Conference of Catholic Bishops announced plans to mount an extraordinary organizational effort in national politics to elect public officials sympathetic to an anti-abortion amendment.

St. Joseph Student Tops In Forestry At Michigan State

Kenneth J. Vrana, son of Mrs. Delphine and the late Melvin Vrana, 1153 West Glenford road, south of St. Joseph, has been elected to receive the Karl Dressel honors award for outstanding work in park and recreation resources at Michigan State university.

The honors award is given in memory of the late Prof. Karl Dressel who was noted for his leadership and service to the park management and municipal forestry profession. He taught for 41 years at MSU as a professor in the municipal forestry program.

The presentation of the Karl Dressel honors award is made annually in midwinter at MSU. The award is given to the outstanding undergraduate student enrolled in park management and municipal forestry. The award consists of inscription of the recipient's name on a departmental award plaque and a framed certificate, in addition to \$100.

Vrana, a MSU senior, is majoring in parks and recreation administration and has compiled a 3.8 (out of a possible 4.0) grade point average. He is a member of Alpha Zeta, a natural resources honorary fra-

Fackler Is President Of BH Engineering

Richard B. Fackler has been appointed as president and general manager of Koehring company's Benton Harbor Engineering division.

The appointment was announced by John T. Lesko, corporate vice president-operations for Koehring's hydraulics and special products group.

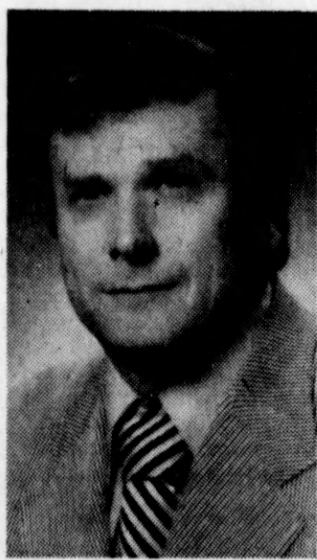

Fackler has been serving as general manager-operations of Benton Harbor Engineering and previously was works manager for Koehring's Hartmann and HUSCO divisions.

He has been with Koehring

since 1969 and previously was with the Vickers division of Sperry Rand and with Ford Motor company.

Fackler holds a bachelor's degree in industrial engineering from the University of Nebraska.

Koehring, headquartered in Milwaukee, Wis., is a multi-national machinery manufacturer serving the fluid power systems, construction, farm, woodlands, water well drilling and plastics processing machinery markets.

RICHARD FACKLER
Named President

Silas Legg, chairman of Benton township's Community Development Advisory Committee, has replied to an article in The Herald-Palladium Saturday in which committee member Frank Larson said he opposed attempts to "siphon off (federal) funds" for social service projects instead of hard-ware construction.

Larson referred to federal community development grants for which a public hearing will be held tomorrow immediately after the regular meeting of the township board of trustees that starts at 7:30 p.m.

Following is the complete text of Legg's statement:

The headline "BENTON FUNDING ADVISOR WARNS OF SIPHON EFFORT" in your Feb. 14, 1976 edition on page 3, certainly is thought provoking and inviting to thoroughly read

the complete article. This I hope was done by anyone interested in Benton township, for if they did, the last two paragraphs in your article point out clearly, that the CDAC has only an advisory function, and that the township board of trustees will ultimately decide how to spend the funds.

A casual perusal of your article might indicate, that

Snow Used On Blaze In Benton

Neighbors tossed snow on a garage door fire at the Kenneth Rau residence, 2450 Butler drive, to keep it from spreading until Benton township firemen arrived to put it out Saturday.

Firemen from Station No. 1 reported the garage, converted into a recreation room, sustained about \$200 damage to the folding garage door. Firemen reported contents of an ash tray had been dumped into a trash receptacle which ignited.

Neighbors Bud Davis and Jeff Newton spotted the fire about 6:35 p.m., called firemen and started tossing snow on the fire. The Rauses were gone at the time of the fire.

An hour earlier firemen from Station No. 2 put out four grass fires in a 10-acre area near the Auto Specialties plant at Riverside.

BH Firemen Extinguish Trash Blaze

Benton Harbor firemen extinguished a small trash fire behind a house being razed at 1220 Milton street at 9:20 p.m. Saturday evening. Firemen were summoned by Benton Harbor police. Neighbors told police the fire had been smoldering for two days.

perhaps many of the advisory committee members, who are affiliated with area social services programs, could be involved in the "SIPHONING EFFORT". This is unrealistic, as the final responsibility of allocating the \$1.22 million for 1976-77 is upon the township trustees.

Even the Benton township's planning commission's recommendation to the township board of trustees on 6-12-75, was not accepted, but overruled, and the contract with Parkins & Rogers Associates for \$30,000 was approved (see article in your 6-13-75 edition).

The initiator of the article on 2-14-76 did not highlight the excessive administration cost of \$150,000, neither did he disagree with the areas of Fairplain and North Shore having been chosen for rehabilitation, when other areas in the township were in more dire need of rehabilitation.

It is unfortunate that the initiator of this article was fortunate enough not to have worked in a social program, or have been the recipient of the services of any social program, and I feel he should get acquainted with all social

programs, so that he could make a determination on what programs could make an impact on Benton township.

May I remind you, that on 12-16-75 on page 20, you published a news-release from the CDAC, calling attention to a special meeting on 12-20-75, and inviting attendance and opinions of Benton township residents on how to spend the second year grant.

On 12-27-75 on page 3, you also published an invitation to all community agencies seeking federal funding, from Judd Spray, community development director for the township. With this in mind, it is puzzling to see the eleven social service agencies that submitted proposals for CD funding, assailed, when in fact they only responded to the published invitation of the CD director.

What is more puzzling, is the Benton township trustees voted \$25,000 out of the general fund, to redo the shoddy work performed under the Neighborhood Development Program, and for which one original contractors were to be held financially responsible. Certainly all township taxpayers will help pay for this "RIP-OFF OF THE TAX-

PAYERS", as Trustee Chester Jolley so aptly stated at the 11-14-75 township board meeting.

The CDAC for the past year has endeavored to be a conscientious community organization with the benefit of the whole township at heart, and will continue to function as such.

Sincerely,
Silas Legg

BH Recall Leader Tells Of Phone Death Threat

Maurice Bishop said he has received an anonymous telephone call that he would be killed unless the recall drive he recently launched against Benton Harbor Mayor Charles F. Joseph and four other city commissioners was stopped.

Bishop said he received the call Friday at his home and the caller was an unidentified male. He has reported the call to Benton Harbor Police Chief Andrew Rodez.

Last Thursday Bishop, a Benton Harbor businessman, launched a recall drive against

the mayor and four other city commissioners who voted not to renew the contract of Charles A. Morrison as city manager. Petitions are presently being circulated for the recall of the mayor and Commissioners Alfred Williams, Charles Shepherd, Winston Minott and Barbara Huckaby.

Bishop also said he received what he termed a "smear" letter last Friday in the mail. He declined to give details on the letter, but said it was also connected with the recall. He added that a number of people in the community had notified him

that they had also received similar "smear" letters about him (Bishop). Bishop said as of Sunday he had not seen any of the other letters.

"When this is all over with (the recall) all of us should be able to stand and look ourselves in the mirror. We feel (those involved in the recall) that what we're doing is right and we're going to pursue it. There is no need for dirty tactics," Bishop said.

Bishop is the owner of All Time Pest Control, 757 East Main street, Benton Harbor.

AREA SPEECH WINNERS: A banquet Saturday night at Benton Harbor Veterans of Foreign Wars post 1137 honored southwestern Michigan winners in annual VFW-sponsored "Voice of Democracy" speech contest. Top three are (from left) Paula Wesner, 16, of Stevensville, a Lakeshore high school junior, first;

Rachel J. Freier, 16, of St. Joseph, a Michigan Lutheran high school junior, second; and D. Leonard Minisee, 18, of Niles, a senior at Andrews Academy, third. All three received bonds. Banquet was sponsored by post 1137 and Post 206 of St. Joseph. (Staff photo)

February Ceremonies Solemnized For Couples

COLOMA — Miss Deborah Carol Hyland and Bob G. Johnson exchanged wedding vows Saturday, Feb. 14, at Coloma United Methodist church.

The Rev. Carl Hausermann performed the ceremony for the daughter of Mr. and Mrs. Gerald R. Hyland, 4710 Red Arrow highway, Coloma, and the son of Mr. and Mrs. Vernon Johnson, 2768 Carter road, Coloma.

The bride wore a chantilly lace gown designed with a hoop skirt and cathedral train. A lace Juliet cap held her fingertip veil and she carried white roses, red feathered carnations and red flocked baby's breath.

Sister of the bride, Miss Diane Hyland, was maid of honor. Bridesmaids were Miss Sheri Johnson, sister of the groom, and Miss Barbara Atwater.

Helps Others

New Mexico Official

By LARRY CALLOWAY
Associated Press Writer

SANTA FE, N.M. (AP) — Grace Olivarez's decision to leave the security of tenured law professor and her job as director of a social research institute to become state planning officer, at an \$8,000 cut in pay, brought back some painful memories of the day she dropped out of high school.

Her Spanish-speaking parents had separated and Grace accompanied her mother and the other children to Phoenix from the small mining town that had been their home. They were poor.

The high school was a rich, new campus that overwhelmed her the first day.

"I was 15½. I was tall, skinny, had a bad case of acne and buck teeth. I was fresh out of the hills. And I couldn't cope with it," she said.

So she went to work to help support her broken family, taking a few business courses along the way. But despite her own rise to prominence, Mrs. Olivarez still admonishes, "It doesn't pay to leave school. I don't care how you slice it."

In 1952, thrown out of work in a recession, she took a job with a Spanish-language radio station and became the first woman disc jockey in Phoenix.

Her occasional comments on social issues drew surprising response from the Mexican-American community. Complaints that were futile in ordinary channels began to fill her daily mail.

"That's when I became interested in services to the needy. I became a crusader. I guess you'd call it," she recalled.

In her 10 years of broadcasting she gathered the evidence to prove that discrimination existed in Phoenix, she said.

She testified before the United States Commission on Civil Rights in a Phoenix hearing in 1962.

It began her friendship with the Rev. Theodore M. Hesburgh, president of Notre Dame university and a commission member, but it also created pressures that led to her quitting the radio station.

Mrs. Olivarez worked for the next four years with a Phoenix foundation to help the poor. Her work, including organization of the first national conference on

GRACE OLIVAREZ

bilingual education, drew national attention.

By now the war on poverty and the fervor for minority representation and hiring quotas was storming the land.

As she freely acknowledges, "I'm a package deal — both a woman and a member of a minority. I'm going to milk it until the vogue is out — for the sake of the improvement of New Mexico."

Her resume includes being a member of a United States Labor Department task force on the unemployed, an adviser to the United States Civil Rights Commission, and consultant to both the United States Bureau of Census and Purdue university, the latter on municipal law.

She also was, among other things, a panel member of the White House Conference on Food, Nutrition and Health and vice president of the Mexican-American Legal Defense and Education Fund.

The old anxiety about being a high school dropout returned, she recalls. There was a new wave of youngsters with graduate degrees in social work and she felt she was working with people who looked down on her.

To Show Historical Films Tuesday

Two historical films will be shown for Family Film Night at Maud Preston Palenske Memorial library, St. Joseph, Tuesday, Feb. 17, at 7:30 p.m. "The Light Here Kindled" recreates the journey of the Pilgrims to the New World, and their struggle for survival after they arrived. The film was made at Plymouth Plantation, a full-scale, functioning replica of the Pilgrims' village as it was in

1627. "Williamsburg — The Story of a Patriot" is the historical story of life in Williamsburg, Va., from 1789 to 1776. The story is built around a typical planter-burgess of the time, and shows how the events during American Colonial times prior to the Revolution affected him. Extensive research makes events, costumes, buildings and activities authentic.

A collection of Civil War artifacts is in the display case at the library for the month of February.

A story hour for preschool through second grade children

will be held Saturday, Feb. 21, at 11 a.m. The hour will feature Racketty, the puppet.

New books at the library include "The Greatest: My Own

Story" by Muhammed Ali; "All the Strange Hours: The Excavation of a Life" by Loren Eiseley, and "Do Black Patent Leather Shoes Really Reflect Up?" by John R. Powers.

Exhibit Civil War Drawings

SOUTH BEND — One hundred drawings published as "Battles and Leaders of the Civil War" in "Century Magazine" in 1888 are on display at the South Bend Art Center through March 14.

As the wounds caused by the Civil War were beginning to heal in the 1880's, and the country was trying to put the conflict into focus, to understand and remember the war as it really was, the magazine commissioned professional artists, soldiers, correspondents and other eyewitnesses of the turbulent years from 1860 to 1865, to recreate in art what they had seen.

The resultant drawings were locked in a trunk until their rediscovery in 1972.

The drawings will be on display through the courtesy of the American Heritage company.

Also on display will be authentic campaign furniture, uniforms and artifacts which will recreate a camp where General Grant might have plotted his greatest military success.

Women Writers To Speak At MSU

EAST LANSING — Two prominent female journalists will present their perspectives on the urban community in a panel discussion Wednesday, Feb. 18, at 7 p.m. in Wonders Kiva at Michigan State university.

Charlayne Hunter of the New York Times and Susan Jacoby, a free-lance writer and research associate in the Center for Policy research, Inc., will present their views in a panel moderated by Walter Adams, MSU professor.

Hunter has been a reporter on the metropolitan staff of the Times since June 1969, writing articles primarily about the black community. She took a 15-month leave of absence to co-direct the Michele Clark Fellowship Program for Minority Journalists at Columbia university.

In 1970 she and another reporter received an award given by the Times' publisher for a story on a 12-year-old who died of a drug overdose.

She attended Wayne State university for a year and a half and then enrolled at the University of Georgia, one of two black students first admitted to the university. Nine years later, she reflected on her experience at that university in an article in the New York Times magazine.

Prior to joining the Times, Hunter was a news reporter with WRC-TV in Washington, and also was a Talk of the Town reporter and contributor of short stories for New Yorker magazine.

Jacoby, who now lives in New York, received her bachelor of arts degree cum laude from MSU in 1965. As a free-lance writer, she specializes in topics ranging from the impact of the feminist movement on blue collar families to the influx of new immigrants to the United States.

From 1965-69 she was a reporter with the Washington Post where she specialized in national education writing. She focused on the relationship between education, housing and racial patterns in urban neighborhoods.

In 1969 she went on a leave of absence to Moscow where she wrote her first book, a series of profiles of 10 Russians. In addition, she has written two other books, "Inside Soviet Schools" and the soon-to-be published "The New Americans: Immigration in the 1970s." She also has written numerous magazine articles.

The panel discussion and a coffee hour from 2 to 5 p.m. in the Green Room of the Union are open to the public.

Program sponsors are the College of Urban Development and the School of Journalism.

'Your Problems' By Ann Landers

She Didn't Know That!

Dear Readers: The wet noodle comes out of temporary retirement. I goofed.

Recently I told a friend, "If your husband is a wife, decent, supportive, comes straight home every night after work and doesn't go anywhere without you, he is not fooling around. Stop worrying. He's all yours."

I was one of those squares who thought lunch hours were for eating lunch. But I was mistaken and hundreds of women let me know it.

Here are some samples of what the week's mail has been like. From Green Bay, Wis.: Dear Ann Landers: Where have you been all your life? Your naive knocks me out. Any married man who wants to fool around can do it and never miss the 5:02 train.

One day last October I ran out of gas two blocks from my husband's office. I decided to walk over and call the nearest service station. It was 1:15 p.m.

When I arrived, the receptionist appeared to be very nervous. Finally I went to my husband's office, knocked on his door (which was locked) and announced myself. He shouted in a panicky voice, "Sorry — I can't open the door now. I'm busy." I decided to wait.

Twenty minutes later, he walked out, red-faced and perspiring. He tried to steer me out of the building but by then I had it all figured out. I brushed past him, went straight to the private washroom off his office and there was his young secretary, crouched in the corner, wig askew, makeup a mess and ready to faint from embarrassment.

I soon learned the shenanigans had been going on for two years. So here's a bucket of crow, Miss Landers. Be my guest. — Dumb Wife

From Scarsdale: Dear Ann: My husband was home every night — 6:40 sharp. But every Saturday afternoon he played

poker with the boys at a local hotel. They rented a room in order not to "inconvenience" their wives. My husband dropped out of the club in 1972 but I didn't know about it until 1974 when one of the wives told me how much the fellows missed him. He continued to go to that hotel, same as always. You see, Miss Landers, the little rascal continued to play, but not poker. — The Joker Was Wild

From Washington, D.C.: Dear Ann: My husband never worked late and never went anywhere without me. I thought I knew where he was every minute. He used to jog every morning. I decided to follow him when he left the house to jog during the worst blizzard of the year. He jogged right over to the home of my best friend, a widow who lived six blocks away. That's where he was getting all that wonderful exercise. — Don't

ANN LANDERS

Tell ME About Husbands

From Seattle: Dear Ann: How dumb can you get? Don't you know that a man who wants to cheat will find a way? And he

can do it very easily within his normal working schedule. My ex-husband was in the advertising business. He used to tell me that most of his work was done during lunch — with clients. I believed him until the day I changed beauty shops and spotted his car in front of an out-of-the-way motel. I cancelled my hair appointment and waited by his car for an hour. At precisely 2:20 he emerged — with a 20-year-old girl who used to sit with our kids. When are you going to learn what the world is really like? — Eyes Opened

Dear Eyes: I just did. Thanks.

Oswald: "No matter what system you play there are going

to be occasions when you just don't have a proper bid."

Jim: "Even when you have an obvious bid, it doesn't mean that you will get the best result from your action."

Oswald: "South has 14 high-card points, made up of aces and kings. His hand clearly calls for an opening bid, but he is too weak for one notrump and has no biddable suit. He opens one diamonds. North bids rather unscientifically to six diamonds."

Jim: "The contract wraps up. South draws trumps with three leads, cashes dummy's king and queen of hearts, enters his hand with the ace of spades, discards one of dummy's clubs on the ace of hearts and winds up with twelve easy tricks."

Oswald: "I have to admit that I constructed the North, East and West hands. A club lead beats six diamonds if North plays the hand and six notrump is beaten by perfect defense so South's doubtful diamond opening is a real winner."

Dr. Lester Coleman

What is meant by a "frozen biopsy"?

Miss M.W., R.I.

Dear Miss W.:

All tissue removed during surgery is sent to the laboratory for microscopic examination. This is a firm rule in all hospitals and in all doctors' offices.

Only in this way can cells be recognized. This tissue is stained with special dyes and examined under the microscope.

A report of this "biopsy," or tissue examination, is usually complete in three days.

Sometimes during an operation, surgeons may remove a portion of tissue or tumor and need an immediate examination to determine the further extent of their surgery.

This tissue is frozen and examined at once. The report of this "frozen section biopsy" is particularly valuable in operations on the breast.

Are glycerin suppositories for constipation dangerous if used for a long time?

Mr. H.G., Fla.

Dear Mr. G.:

The long-term use of suppositories, enemas and laxatives should be avoided. There are better means of retraining the bowel.

Well-regulated diets and plenty of water each day (unless the doctor advises against it) can break the cathartic habit.

Glycerin suppositories are probably the least treacherous of all the methods to relieve constipation. But even these relatively innocuous substances can keep the bowel from doing its natural work and can establish a dependency on the suppositories.

Are some antibiotics stronger than others?

Miss T.H., Iowa.

Dear Miss H.:

One antibiotic is not stronger than another. It is the amount that makes the difference.

The frequency with which an antibiotic or any other drug is taken will, of course, increase its potency.

Antibiotics are specifically chosen to combat a particular germ, or bacteria. Sometimes

an antibiotic is arbitrarily chosen. At other times, the antibiotic is chosen after a culture indicates that it will be effective in destroying a particular germ.

Places First In Contest

AU Art Instructor

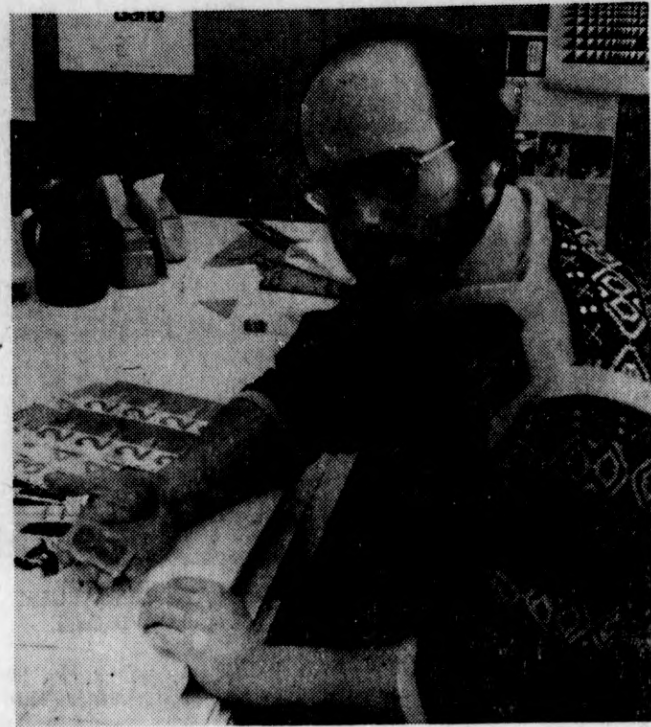

BERRIEN SPRINGS — Peter Erhard, assistant professor of art at Andrews university, has been awarded first place and a silver medal in an annual contest by the Art Directors club of Denver, Colo.

He received the honor for a corporate identity program and the graphic standards manual he designed.

Gold and silver medals were awarded 10 artists and designers from 1,500 entries in six categories, films, illustrations, corporate design, booklets, posters and advertisements.

"The goal of a coordinated communication system is to present consistent corporate identity to the public audience and to potential customers," Erhard says.

The program and logo designed were by Erhard and others on his design team when he was a graphic and project director with Glenn Monigle and Associates of Denver, Colo.

Learner's Permit For Marriage

The U.S. News and World report said recently that by 1990, 63 out of every 100 marriages will dissolve in divorce.

In examining the probable causes of divorce, someone pointed out that it is harder to get a driver's license than a marriage license and perhaps that's when they should lay a test on you, to see if you're fit to operate a marriage.

As far as I can see, only a little rewording is needed to turn a driver's manual into a marriage manual.

SO YOU WANT TO OPERATE A SPOUSE

"The examination is nothing to fear. If you know the rules and can handle a husband/wife, you will pass. Applicants must be over 18 years of age or a parent or guardian must sign the application. A LEARNER'S PERMIT IS MANDATORY.

Answer the questions below:

A bride is complaining she is sick and tired of separating her husband's shorts from his trousers every time she does the laundry. She vows the next time she has to peel them apart she is going to starch the shorts causing him great pain. Should the husband (a) ignore the warning light (b) yield (c) make a U-turn and separate the garments (d) plug up her muffler with a dishtowel?

A misunderstood married woman has collared a husband at a party. This married wife who threatens to go home without him if he does not leave immediately. Does he (a) leave his spouse unattended and hope someone steals her (b) follow too closely behind the married woman and take his chance on a

sudden stop (c) illegally park and prepare himself for Ped-X-ing?

A wife has packed the same cookies in her husband's lunch every day for the past six months. He has brought them home unopened every day for the past six months. He has told her as tactfully as he knows how to "stuff the (a) cancel her collision insurance, (b) insist on his legal right-of-way, (c) use the Implied Consent law and check out old vanilla breath for a violation?

How would you (as a spouse) handle the following warning signals: MEN WORKING (overtime), SOFT SHOULDER (someone else's), SCHOOL (and other financial disasters), DOWNGRADE (one another), PAVEMENT ENDS (G.I. Bill runs out), DIP (In the stock market)?

I'm not going to tell you how my husband and I scored on the test, but there is every indication he'd be happier with a Ford pickup, and I could dig a little Italian number.

Vandals Damage 20 Parked Cars

Benton Harbor and St. Joseph police reported that 20 parked cars were damaged by vandals over the weekend.

Benton Harbor police between 12:22 a.m. and noon Sunday, received reports that BB pellets had been fired through windows of 13 parked cars, mostly on the south side.

St. Joseph police early Saturday were notified antennas were broken on six vehicles while sparkplug wires were pulled from the engine of a seventh.

Benton Harbor Lt. Leon Hardy said Sunday the vandalism appears to be by someone riding around in a car with a BB gun. Hardy said the latest spree is similar to one a few months ago. No arrests were made. "It's hard to catch them," Hardy said, noting that a block can be driven through in a hurry and car owners usually don't discover the damage until

some time later.

Benton Harbor police reported the vehicles were parked in the 700 block of Columbus avenue, 1100 block of Bishop, 1000 block of Jennings, 300 block of Cross, 1200 block of Broadway, 1200 block of Monroe, 700 and 900 blocks of Superior, 200 block of Kirby and 600 block of Highland.

Owners were identified as Freddie Hunter, 1846 Council drive, Benton township; Ruddle Lindsay, 838 LaSalle; Elijah Tunner, 1073 Jennings; Loraine Hayden, 350 Cross; Mrs. Willie Hurse, 1275 Broadway; Jerry Tuggie, 1780 Highland; Matthew Smith, 784 Ogden; Judy Smith, 769 Superior; Clarence Lauderdale, 359 Cedar; Donna Cooke, 793 Superior; Millie Lee, 784 gden; Rufus Young, 266 Kirby; and Chris Yates, 684 Highland.

Vehicles vandalized in St. Joseph were parked in the 800 block of Main street, the 800 block of Park, 700 block of Church, 800 block of Court, and 700 block of Market.

Two of the vehicles were reported owned by Sandock carpets, St. Joseph. Other owners were, Michael Rowe: 1763 Broadmoor, Fairplain; Benton Harbor, Clinton Nash, Jr., 412 Broadway, Benton Harbor; George Grannel, 4387 Lincoln, St. Joseph; Fred Norton, 1896 Smyers, Fairplain; and Valerie Jenkins, 2949 Pagoda, Stevensville. Wires were pulled from the engine of the Jenkins auto, while antennas were broken on the others.

In another vandalism report early Sunday, St. Joseph police said silver paint was thrown on a window at St. Joseph high school.

Three juvenile boys who escaped from the Berrien county juvenile detention center, Berrien Center, were apprehended within about 3½ hours Sunday, Berrien sheriff's

deputies reported.

The three were discovered missing about 2:30 p.m. Two were taken into custody by Berrien Springs-Oronoko township police in Berrien springs about 3:30 p.m. The third youth was apprehended about 5 p.m. by Capt. Ronald Immoos of the sheriff's department after a short foot chase.

Immoos said he was in his private car when he spotted the youth in Baroda.

The two 16-year-olds and a 15-year-old were from Galien, Michigan City, Ind., and Pokagon, deputies said.

Benton township police said a three-year-old township girl was reported the victim of a rape attempt over the weekend.

Police said the incident was reported after the child was taken to Mercy hospital, Benton Harbor, complaining of pain. She was released after treatment for apparently minor injuries, police said. Police said two juvenile boys were questioned, but no one was taken into custody pending further investigation.

John Nelson, 855 Vineyard street, told Benton harbor police Sunday a 12-gauge shotgun and portable television, valued at \$380, were stolen from his home.

Benton township police said a portable television, valued at \$135, was reported stolen over the weekend from a room at the Claremont Nursing home, 1385 East Empire avenue.

State troopers of the Benton Harbor post arrested Cecil Allen Neel, 31, 3187 Townline road, Sodus, Sunday on a charge of violation of the controlled substance act, possession of marijuana. Troopers said a car was stopped on Napier avenue, west of the bridge over the St. Joseph river, St. Joseph, about 2:55 a.m. A small amount of

suspected marijuana was confiscated, troopers said, and Neel was booked at the Berrien county jail.

Prison Riot Cost May Be \$1 Million

CONCORD, Mass. (AP) — A big cleanup began at Concord State Prison today after inmate rioting that caused an estimated \$1 million in damages, virtually destroying a dormitory and heavily damaging a gymnasium and library.

Corrections Commissioner Frank A. Hall said 60 to 80 inmates were involved in the four-hour disturbance Sunday which brought 100 state police and 50 off-duty correctional officers to the maximum security prison.

"There has been extensive damage, considerable damage, at least \$1 million in damage," Hall said. "There are certain people involved in getting it started, about 15 or 20, and we know who they are."

The inmates surrendered peacefully after police and guards surrounded the dormitory.

During the rioting, inmates set several small fires in the prison buildings and flooded both with emergency fire hoses. Windows were broken, and bedding, clothing and personal possessions were scattered throughout the flooded hallways.

Desks and file cabinets in the guard control rooms were toppled and their contents scattered and torn.

Bookshelves in the prison library were overturned and thousands of books lay soaked in the several inches of water that covered the floors.

In the gym, a movie screen was ripped from the stage and several rows of bleachers toppled from a platform.

Hall said the incident apparently occurred when guards arrived to escort two inmates who allegedly were "under the influence" from the dorm area.

The first man was escorted without incident. But when officers returned for the second inmate, other prisoners started shouting and harassing the guards, Hall said.

"Before we knew it ... there was a general fracas involving several officers and 50 to 60 inmates," he said.

"We were lucky to escape with our lives," said one guard.

Hall said some prisoners shouted about "unreasonable force" they thought was used in carrying off the allegedly drunken inmate.

Using a bullhorn, Supt. Nicholas Genakis gave inmates five minutes to surrender unharmed before state police would force them out.

One or two inmates who tried to barricade themselves inside the dorm building were removed by officers but all others surrendered without incident, Hall said.

Three guards suffered minor injuries early in the day.

Hall called the incident "a major disturbance," the worst the system had suffered "in some time."

Objects To Hiring Of Youngblood

MANISTIQUE, Mich. (AP) — The city of Manistique has hired former state Sen. Charles Youngblood as an urban renewal project administrator over objections relating to his 1973 bribe conspiracy conviction.

Youngblood, whose conviction was overturned on appeal, was appointed by the city council on a 3-2 vote last week. His salary will be between \$10,000 and \$12,000 annually, officials said.

The former Democratic law-

maker from Detroit will oversee an annual \$226,000 community block development grant the city is to receive from the Department of Housing and Urban Development for the next four years.

Councilman Doug Rose opposed Youngblood's appointment because of the former legislator's conviction in a bribe conspiracy case two years ago.

The conviction led to Youngblood's resignation from the Senate but later was overturned by the Michigan Court of Appeals.

Youngblood's conviction by a Wayne County Circuit Court jury was for conspiring to bribe the chairman of the state Liquor Control Commission in return for granting liquor licenses to three Detroit-area supermarkets.

Youngblood now lives in Gulliver about 15 miles from Manistique. He has been the executive director of the Manistique-Schoolcraft County Area Chamber of Commerce for more than a year.

Rose's objections to Youngblood's appointment were included in the official minutes:

"Although Mr. Youngblood's conviction was overturned... by the appeals court I believe there is still a shadow of doubt of his innocence as given in the opinion by the appeals court in the ruling. And because of that shadow, I don't believe that Mr. Youngblood can serve in this position effectively."

And because of that shadow, I don't believe that Mr. Youngblood can serve in this position effectively."

Youngblood said he was "surprised" by Rose's statement.

"I really don't know if I'm angry," said Youngblood. "And I'm wondering what my reaction will be if he (Rose) continues to ride me in my new job. My first reaction was to not take the job."

The other councilman opposing Youngblood's appointment was Don MacPhail, who said, "I just felt others were more qualified."

Seven persons applied for the post, but three withdrew.

Kissinger Will Try To Upgrade U.S. Image In Latin America

WASHINGTON (AP) — Secretary of State Henry A. Kissinger is beginning an off-postponed Latin American tour, hoping to reassure cynical southern allies of their importance to the United States.

His first stop comes in Venezuela today, with Peru, Brazil, Colombia, Costa Rica and Guatemala to follow before he returns home Feb. 24.

"Kissinger needs to establish a more credible posture in Latin America. We don't pay enough attention to their concerns," said one American specialist.

While attempting to sidestep such divisive issues as Cuba and the Panama Canal, Kissinger will try to highlight friendly overtures. For instance, he will report in Caracas on his efforts to remove a

congressionally mandated exclusion of Venezuela from trade preferences.

Venezuela and Ecuador were ordered excluded because of their membership in the Organization of Petroleum Exporting Countries, which cut off oil exports to the United States in 1973.

Since neither Venezuela nor Ecuador participated in the boycott, the exclusion is resented in Latin America.

Discussions of economics and trade, including the question of nationalization of American property, should help create a more trusting relationship, officials hope.

Although the sensitive issues of Cuba and Panama will come up, American officials say Kissinger will do no lecturing, only explaining.

U.S. acceptance of the Organization of American States' decision last year to allow each member to deal with Cuba individually effectively removes a long boycott of the Castro regime.

However, Kissinger will explain that any foreseeable improvement in relations between Washington and Havana has been destroyed by Cuba's intervention in Angola.

And Kissinger will tell the Latin Americans that he expects negotiations on a new treaty on the Panama Canal to produce an accord pleasing to all parties.

The secretary is expected to pressure Latin American leaders to reform the OAS, lift some of the restrictions on it and give it more clout.

R-V Industry Picking Up Steam Again

DETROIT (AP) — The recreational vehicle industry, which skidded into a disastrous sales rut during the fuel-shortage scare of 1974, is picking up momentum again.

Industry officials predict strong sales increases through the remainder of the decade.

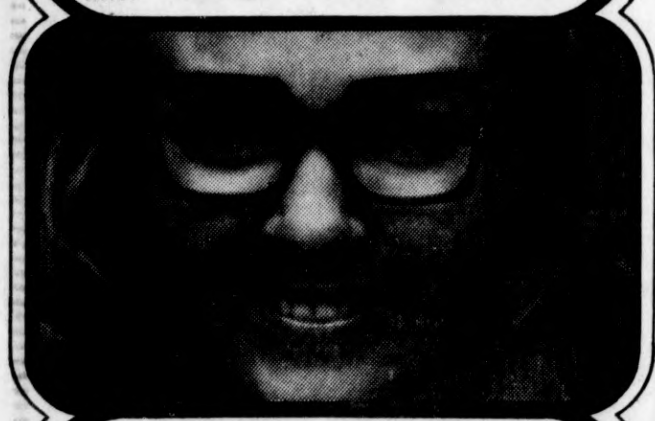

The industry, which markets products ranging from a spartan \$500 truck camper to a plush \$50,000 fully-equipped motor home, had been booming since 1970 and enjoyed record sales of \$25,000 units at a dollar value of \$3.5 billion in 1973.

Afternoon Mail

GRAND RAPIDS, Mich. (AP) — Detroit will be the only Michigan city with afternoon mail deliveries starting Feb. 23. Grand Rapids, which has afternoon deliveries now to 528 downtown business firms, will be dropping the service then.

Land Use Bill Backed By Kelley

DETROIT (AP) — Only a comprehensive state law requiring all local units of government to draw up land use plans can halt massive land abuse in Michigan, Atty. Gen. Frank Kelley said Saturday.

"Half the land in this state is under no zoning whatsoever," Kelley told more than 100 persons attending a week-long symposium on environmental law.

He said municipalities often seek to build their tax bases by beckoning to types of industry that pollute the environment heavily.

"We have the ridiculous spectacle of every little hamlet in the state bidding for taxes," said Kelley. "To put up lights for the football stadium, they'll allow a slaughterhouse to come in."

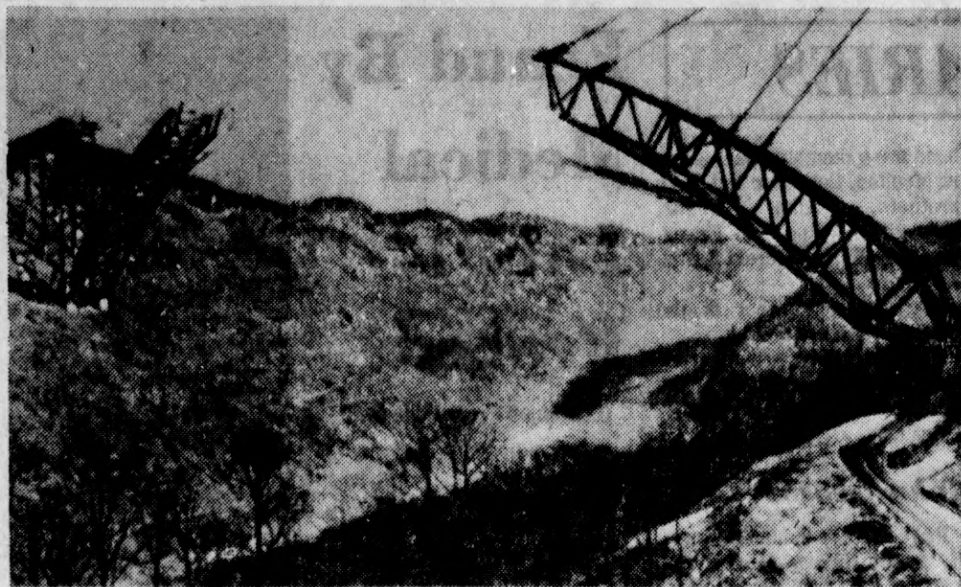

The attorney general said some of Michigan's most prized agricultural land is being spoiled.

"We are building condominiums, apartment houses and office buildings on land that should be used for growing food," he said.

He called for passage of HB4234, a bill which he said "will bring under one umbrella all the land use problems in the state."

Criticized by Kelley were of the bill's chief foes, Sen. Joseph Mack, D-Ironwood, and Rep. Dominic Jacobetti, D-Negaunee.

The attorney general urged the audience to write letters to Mack and Jacobetti supporting the bill.

Ford Administration Foe Of Bigger Postal Subsidy

By JEFFREY MILLS
Associated Press Writer
WASHINGTON (AP) — The Ford administration is opposing moves to help out the financially troubled Postal Service by giving it more of the taxpayers' money.

James T. Lynn, Ford's budget director, is expected to outline the administration's objections to increasing the postal subsidy at a hearing today of the Senate Post Office Committee.

Committee Chairman Gale W. McGee, D-Wyo., has proposed doubling the Postal Service's \$1.5-billion annual subsidy for three years.

Lynn's position is another indication of increasing tension between the White House and the Postal Service.

President Ford recently said of postal managers, "I just don't accept that they are doing as well as they should be doing. We have to prod them, just like we are prodding New York City, to improve their efficiency, their productivity."

The Old Post Office Department for nearly 200 years was one of the most political agencies of government. Presidents named postmasters general, and postal policy traditionally was part of administration policy.

However, since the independent Postal Service was formed in 1971, the postmaster general has not been a presidential appointee and the agency's policies sometimes have differed from those of the administration.

Ford wants to hold down government spending and has cut the budget request for the Postal Service.

This comes at a time when the postal Service desperately needs additional funds. It expects a deficit of about \$1.5 billion in the fiscal year ending June 30.

March 1 Key License Plate Date For Commercial Vehicles, Trailers

LANSING — March 1 is a key target date for owners of Michigan vehicles who have not yet obtained their 1976 Bicentennial license plates.

As a reminder, Secretary of State Richard H. Austin said March 1 represents the final day for sales of commercial and trailer license plates. Coincidentally, it is also the final day for ordering passenger and motorcycle plates by mail. Deadline for passenger and motorcycle plates is March 31.

All commercial and trailer plates must be obtained at license plate branch offices since the deadline for ordering these plates by mail is over, Austin said.

"We have reports that many of the larger commercial fleets still have not obtained their plates and this could create a crowded condition at our branch offices during the last few days of February and March 1," he said. "All commercial and trailer plates must be on those vehicles by March 2. Actually, the deadline was extended one day since the final day of February falls on a Sunday."

Overall, total plate sales were running ahead of last year's sales, although most of the strong showing was a result of very early buying by persons who wanted to obtain the popular Bicentennial plates.

"We seem to have hit a general slump in total sales," said Austin, "even though we show nearly a half-million transactions ahead of 1975, when sticker tabs were issued."

Compared to 1973, the last year Michigan issued plates, the Bicentennial plates are running about 200,000 ahead.

For obtaining passenger or trailer license plates by mail, vehicle owners must provide the following:

Zollar Polling Fourth District

(Continued From Page One)

servers felt that Zollar would have reliable word on Roche's intentions by the time Zollar comes up with his answer.

Zollar made a bid for the Republican nomination for Congress four years ago against Hutchinson, and was defeated. He is almost universally known through the district and state as former chairman of the state senate appropriations committee when the GOP had a majority in the senate. It is probably the second most important governmental post in the state, next only to the office of governor.

While the field of candidates for the Republican nomination is of initial importance to Zollar's considerations, he suggested that a strong candidate

on the Democratic side could make it a closer race in November than it normally is. The Fourth district long has been safe Republican territory.

Zollar said he has received a number of offers of financial support from persons who want him to run, all completely unsolicited.

Roche has won a wide reputation for his long and unwavering battle to keep the federal government's hands out of the operation and educational processes at Hillsdale college. He recently has gone to the courts in an effort to turn back the Department of Health, Education and Welfare's contention it should have a say in Hillsdale affairs because some Hillsdale students have federal loans or grants.

Cheerleader Takes Title In Three Oaks

(Picture on Page 1)

By STEVE McQUOWN Staff Writer

THREE OAKS — Theresa MacGregor, a petite, green-eyed blonde, was crowned Miss Three Oaks for 1976 Saturday night at River Valley high school.

The 18-year-old River Valley high school senior who stands 5 foot 4 was chosen from a field of 18 contestants before an estimated 650 spectators.

Miss MacGregor is the daughter of Mr. and Mrs. Edgar MacGregor, route 1, Three Oaks. She plans to enroll at Michigan State university after she graduates and eventually teach special education.

She wore a full-length gown of yellow chiffon with a stand-up collar and bishop sleeves. The bodice and collar were embroidered with crystals and pearls.

A cheerleader for the past four years, Miss MacGregor has also been active in student government and with the prom committee.

She has been on the school's honor roll for every semester since she was in the ninth grade.

Miss MacGregor will represent Three Oaks in the annual Miss Blossomtime pageant March 29 at Lakeshore high school.

Chosen as first runner-up was Kathy Kozlenko, 18, who was also voted Miss Congeniality by her fellow contestants, Miss Kozlenko, a senior at River

Valley high school, is the daughter of Henry Kozlenko, LaPorte, Ind., and the late Louise Kozlenko. She lives with her aunt and uncle, Mr. and Mrs. Robert C. Strietter, of route 1, Three Oaks.

The second runner-up was Alberta Webb, Miss Webb, 17, also a senior at River Valley, is the daughter of Mr. and Mrs. Albert Webb Jr., route 1, Three Oaks.

The chairman of this year's contest was Mrs. Dennis (Kathy) Zeiger of Three Oaks.

Acting as masters of ceremonies were brothers James and Robert Fick of Three Oaks. Between presentations, Howard Jackson of Three Oaks sang "The Battle Hymn of the Republic." Organ music was provided by Mrs. Roy Hamilton of Lakeside and piano music was provided by Mrs. James Francis of Three Oaks.

Serving as judges were Mrs. Audrey Conley, director of the convention-visitors bureau for the South Bend-Mishawaka Chamber of Commerce; Chuck Linster, program director for radio station WNDU, South Bend; and Bruce Harlan, head of photography at Notre Dame university, South Bend.

Other contestants were Kathy McLain, Diana Williams, Amy Jelneck, Edith Jungblut, Eileen Carpenter, Doris Hauch, Melinda Russell, Janet Ponegalek, Connie Walters, Pam Koze, Gwen Berry, Kelly Gordon, Pam Hooper, Cathy Golladay and Cindy Candiano.

Dowagiac Queen Also Miss Congeniality

Fraud By Medical Labs Is Probed

(Continued From Page One)

specialize in the treatment of welfare patients."

Under the Medicaid program, the state and federal governments are paying out a total of about \$180.5 million in the current fiscal year to laboratories for analyses of blood and urine and other specimens taken from the aged, poor, blind and disabled.

In addition, Medicare payments for persons 65 years and older account for an additional \$32.5 million.

The panel's staff said that of the total payout of \$213 million, at least \$45 million is "either fraudulent or unnecessary."

One account of the opportunity for kickbacks came from Douglas A. Longhini, an investigator for the Better Government Association of Chicago. In his prepared testimony, Longhini said the BGA, the Chicago Tribune and CBS' "60 Minutes" rented a \$400-a-month storefront office on Chicago's northeast side last December.

Longhini said a sign placed in the window advertised it as a medical clinic. In addition, he said, he contacted representatives of 15 Chicago-based laboratories and told them he represented two Illinois doctors who were opening the clinic.

"Of the 13 laboratories I spoke to, 11 labs offered the doctors a kickback or rebate on the dollar amount of laboratory business referred by the medical clinic to the lab," Longhini said.

Additional interviews found a total of 13 independent labs giving kickbacks to doctors and clinics which accounted for 65 per cent of Illinois' Medicaid payments to clinical labs in 1975, he said.

He said that although the percentage of kickback varied, each of the labs would offer to rent space in the clinic for a technician to draw blood, Longhini said.

The doctor would then be paid based on an agreed percentage, some of which went as high as 50 per cent, he said.

Longhini said the stress on volume can "invite the medical clinics and doctors to milk one sector of the community as much as possible and ignore other people in need of competent medical services."

He said Riaz Kahn, a representative of West Lawn Medical Laboratory, urged such a business tack. Longhini quoted Kahn as saying that the secret of success was promotion and asked if there were any black neighborhoods near the clinic. Longhini said he informed him there was a small black neighborhood near the clinic.

"Well, that is where you should promote, the money is where the blacks are. There isn't any money in these old people," Longhini quoted Kahn as saying.

Meanwhile, the Illinois Department of Public Aid announced in Chicago that four clinical laboratories and five doctors have been suspended from the Medicaid program. Those suspended were not identified.

A department spokesman said the suspensions were based on evidence which "substantiated fraudulent billing practices and illegal kickbacks from laboratories to doctors in return for their business."

The report concludes that it is apparent that the law passed by Congress in 1972 prohibiting kickbacks and mandating a \$10,000 fine and a year in jail upon conviction is not being enforced.

HEAR REPORT

TOKYO (AP) — The Saigon government held a conference of Roman Catholic and Buddhist leaders, lawyers and others to tell them about the unsuccessful rebellion in a Saigon Catholic church last week, the North Vietnamese news agency reported today.

FIRE DESTROYS HOME: Nine members of David Altman family of New Buffalo township were left homeless last night after fire badly damaged their home near Grand Beach village. New Buffalo township firemen said blaze may have been started in attic by over-heated chimney from wood burning stove. Family members are staying with neighbors and citizens band radio operators in New Buffalo area have started fund drive to help family. Fire and water damage amounted to nearly \$8,000 damage, firemen said.

FIREWOMAN: Mrs. Marge Wozniak of Michiana Shores, Ind., fire department, checks equipment at scene of fire at David Altman home in New Buffalo township, last night. Mrs. Wozniak is one of four women on Indiana community's fire department that aided New Buffalo township firemen in fire at Altman home on US-12, near Grand Beach village. New Buffalo city and Springfield township (Ind.) fire departments also fought fire. Lawrence Family Gets Second Queen

(Picture on page 1)

By CLIFF STEVENS Columna Correspondent

LAWRENCE — Mary Muday, a Lawrence high school senior, became Miss Lawrence of 1976 here Saturday night to follow in her sister's footsteps.

Miss Muday, 17, was picked from among 13 contestants for this year's honor before an estimated 300 people.

Her sister, Paula, was Miss Lawrence in 1973.

The new Miss Lawrence is 5 foot 8, has brown hair and green eyes. She plans on attending Eastern Michigan university after graduation from high school and hopes to become a lawyer.

She is the daughter of Mr. and Mrs. Andrew S. Muday, route 2, Lawrence.

Miss Muday is a part-time student at Kalamazoo Valley Community college, and a member of the National Honor society.

The new queen wore a full length yellow gown with white lace sleeves.

Miss Muday will represent her community in the Miss Blossomtime pageant, March 29, at the Lakeshore high school auditorium.

First runner-up honors in Saturday's contest went to Marjorie Hueser, 17, daughter of Mr. and Mrs. Robert Hueser, route 1, Lawrence. She is also a

senior at Lawrence high school.

Second runner-up was Ginger Barnes, 17, daughter of Mr. and Mrs. Richard H. Barnes, route 2, Lawrence. She is also a senior at Lawrence high school. Her sister, Linda, was first runner-up in the Miss Lawrence contest in 1972.

Donna Brown, 18, another senior at Lawrence high school, was selected by her fellow contestants as Miss Congeniality. She is the daughter of Mr. and Mrs. Charles Brown, 237 Exchange, Lawrence.

Masters of ceremonies were Mr. and Mrs. Dan Farmer, organizer for the contest was Mrs. Miriam Downey.

Serving as judges were Jim Ripple of Stevensville, employed by Pinkerton's of St. Joseph; Mrs. Sam (Sheila) Bayde, St. Joseph, co-owner of Adent's Bridal Shop, St. Joseph; and Mrs. William C. Bartels of Stevensville, florist designer and former free-lance home economist.

Theme for the contest was "Gone With The Wind."

Other contestants were Geri Glista, Sally Madaras, Debbie Johnson, Sandy Showerman, Camille Offord, Debbie Reits, Georgia Lebeda, Debbie Phillips, and Jeri Moses.

GOBLES — Kimberly Smith, 18, a Gobles high senior, was crowned Miss Gobles Saturday night before an audience of about 300 in the school's gymnasium.

It was the second crown for Miss Smith, who was also the Gobles Junior Miss of 1974. The 5 foot 5, green-eyed blonde said she plans to attend Taylor, Ind. university next fall but has no specific course of study in mind.

She is the daughter of Mr. and Mrs. Milton Smith of route 1, Gobles.

The new Miss Gobles wore a light blue dress with a flowered overlay which was colonial-style, in keeping with the contest theme.

First runner-up honors went to Deborah Peterson, 17, also a Gobles senior and the daughter of Mr. and Mrs. Thomas Peterson of route 2, East Van Buren street, Gobles.

Laura Kube, 17, the daughter of Mr. and Mrs. William Kube of route 1, Gobles, was second runner-up. She is also a Gobles senior.

Diane Smith, 18, who is not related to Kimberly Smith, was voted Miss Congeniality by her fellow contestants. She is a Gobles senior and the daughter of Mr. and Mrs. Donald Smith of route 1, Gobles.

The new Miss Gobles now goes on to represent her community in the Miss Blossomtime pageant March 29 at Lakeshore high school, Stevensville.

Master of ceremonies for the evening was Karl Guenther, farm editor of WKZO radio, Kalamazoo. In keeping with the contest's theme of "Portraits of Yesterday", Guenther, the ushers, and contestants were all attired in colonial costumes.

Judges for the contest included Miss Barbara Price, blood coordinator for the Berrien county Red Cross and a runner-up in the 1970 Miss Blossom contest; Paul Gregory, co-owner of Gregory Bros., Inc, Battle Creek; and Sgt. Kenneth Taylor of the Paw Paw state police post.

Entertainment was provided by Mrs. Vivian Druckenbrodt on the piano and members of the Kalamazoo Ballet Company who performed several Highland dances.

Other contestants included Maria Gilbert, Brenda Harvey and Julie Doll.

St. Joe Police Arrest 2, Seize Alleged Loot

By JIM DeLAND
Assistant City Editor

St. Joseph police Sunday arrested two young men from south Berrien county in connection with the burglary of some \$2,000 in cash and merchandise from Damaske's grocery store, 800 Lions Park drive.

Booked at the county jail on charges of breaking and entering were Raymond Wesley Terpening, 19, of route 1, Box 533A, Avery road, Three Oaks; and Terry Dean Eastman, 17, of P.O. Box 138, Avery road, Sawyer.

St. Joseph Det. Lt. William Mihalik said the two were arrested at the home of a girl friend in the neighborhood of the grocery store following a canvass of nearby homes after the burglary, which was reported shortly after 8 a.m. Sunday.

Mihalik said alleged loot of \$1,800 in cash and checks, 27 cartons of cigarettes, a quantity of candy and chewing gum were seized by police in the arrests.

Mihalik said the goods were found at a home north of St. Joseph and police were to confer with the Berrien prosecutor's office to determine if any charges would be filed against the occupant of the home.

Mihalik said his investigation indicated the glass door of the grocery store was broken out about 11 p.m. Saturday, but that the actual burglary did not take place until about 2 a.m. Sunday.

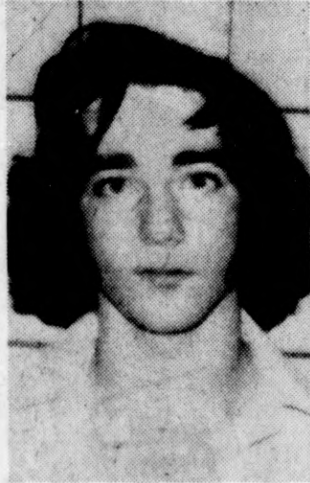

He said the suspects apparently spent the intervening hours at the nearby girl friend's house, but that neither she nor another man present at the time of the arrest were implicated.

He also said the alleged burglars apparently were not aware of the unusually large amount of cash on hand in the grocery store, owned by brothers Edwin and Albin Damaske.

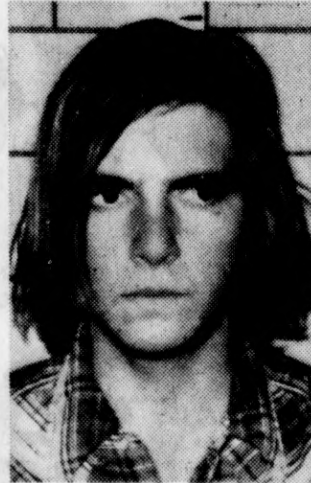

Mihalik said both the men arrested have previous police records.

He said Eastman was petitioned to juvenile court in 1973 on a charge of larceny in a

building and was convicted last December of petty larceny. Terpening, he said, was placed on deferred prosecution in connection with a larceny in 1974 and earlier this month paid a \$25 fine for trespassing in a tavern in Three Oaks.

Suspect In Benton Burglary Is Wounded

By RALPH LUTZ
Staff Writer

A Benton township police officer early Sunday fired a shotgun blast that wounded a burglary suspect who allegedly ran from a closed tavern and refused to stop when ordered.

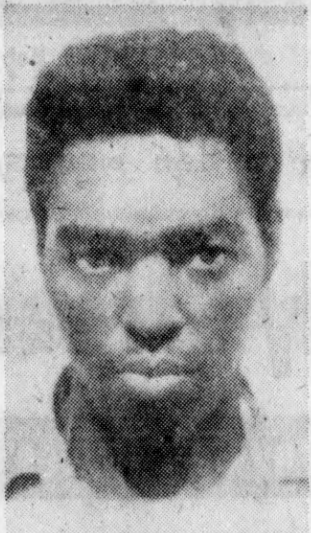

Township Capt. Paul Farris said Patrolman Roger Spencer fired one blast from his 12 gauge shotgun, while investigating a burglar alarm at the Sunset tavern, 1485 Red Arrow highway.

Farris identified the wounded man as Marvin M. Black (also known as Singleton), 32, of 426 Washington street, Benton Harbor. Black was listed in "fair" condition this morning at Mercy hospital, Benton Harbor. He was struck by eight pellets about the left arm and shoulder, the police report said.

Black has been sentenced to prison three times for previous burglaries of stores. Farris said Black is under arrest at the hospital and will be booked on a charge of breaking and entering.

The police department report listed alleged loot as rolled and loose coins, totaling \$34.67. The jukebox was pried but not entered, the report said.

The department reported that the Berrien county prosecutor's

MARVIN BLACK

office would be supplied with information regarding the shooting.

The shooting was the second in two months involving township police. Patrolman Kim Fowler, early Dec. 14 shot and killed an alleged rooftop burglar at Fairplain plaza. Two other men were arrested in connection with the alleged burglary attempt at Muir's drugs.

The prosecutor after an investigation announced the fatal shooting to be justifiable homicide. The weapon used was a shotgun.

Patrolmen Spencer and Scott Long on Sunday were dispatched to the Sunset tavern when an alarm from the establishment sounded at police headquarters at 2:08 a.m. Tavern owners Eleanor Eichler and Pauline Scheuchner closed for business shortly after midnight, it was reported.

Joining the investigation were Farris, Township Det. Roger Peters and Benton Harbor Patrolman Greg Platts.

Farris said his investigation shows that Spencer and Long found a broken window with its protective bar and screen pulled off. Spencer went to the back door, while Long stood outside the front door.

Spencer reported seeing a head suddenly pop out the back door and said he ordered the man to come out. Spencer said a man ran out and continued running, after being ordered to stop. Spencer said he fired one shot but the man kept running. He was found slumped against a wall around the corner from the back door, Spencer reported.

Spencer joined the Benton township police department in October, 1971, after serving on the Benton Harbor and Coloma township police departments.

Black's police record began in 1958 when he was 14 years old and arrested on a charge of breaking into Gardner's sporting goods store, Benton Harbor. In 1959, he was waived into circuit court and received a 3½-year prison term for another burglary at Gardner's.

He also was sentenced to prison in 1962 and 1971 for burglaries at Benton Harbor stores.

SHOOTING SCENE: Sunset tavern, 1485 Red Arrow highway, Benton township, early Sunday morning was scene of a shooting of a burglary suspect by a Benton township police officer. Wounded by shotgun blast was Marv M. Black, (also known as Singleton), 32, of 426 Washington street, Benton Harbor. Blast was reported fired by Patrolman Roger Spencer, who was investigating alarm at tavern. Tavern was closed at time. (Staff photo)

B.H. School Vote Deadline Tuesday

Tomorrow is the last day for voter registration to qualify for the March 16 special election on two millage proposals in the Benton Harbor school district.

On the ballot will be renewal of 7.5 mills in operating taxes for one year, and a proposal for a 1-mill school building tax to

run five years.

The Benton Harbor city clerk's office will be open to register city residents until 8 p.m. Tuesday.

The Benton township clerk's office will be open from 8 a.m. to 5 p.m. for registration.

St. Joseph township Clerk Bill Payne Smith said voter registrations will be processed from 9 a.m. to 5 p.m. Tuesday, at the township office, 146 West Napier avenue. Smith said the office also was to be open today from 9 a.m. to 5 p.m.

Other township clerks said

they will process registrations on Tuesday until 5 p.m. at their homes. The clerks said they prefer that residents call for an appointment, but will process registrations, if people show up without an appointment. The clerks are:

Sodus township: Carol B. Cox, 2956 Townline road. Phone, 925-8457.

Bainbridge township: Beverly Koroch, 6100 East Empire avenue. Phone, 944-1276.

Pipestone township: Herbert Hasse, 4610 Park road, Eau Claire. Phone, 944-1079.

Faces Election Bribe Charges

CANBERRA, Australia (AP) — Former cabinet minister Victor Garland will be brought to trial on a charge of election bribery, Atty. Gen. Robert Ellicott announced today.

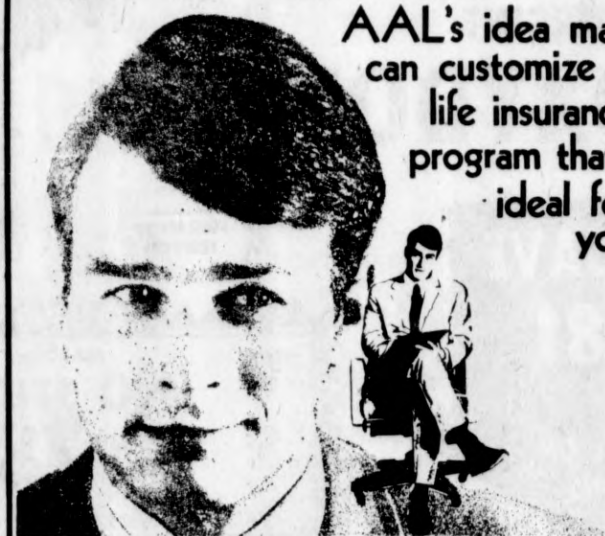

Garland resigned as minister of post and telecommunications on Feb. 6 after Michael Cavanough, a Canberra journalist and candidate in the Dec. 13 general election, claimed that Garland and another member of Prime Minister Malcolm Fraser's Liberal party offered him \$650 to support the Liberal senatorial candidate for the capital territory.

Denies Aid To Lockheed

TOKYO (AP) — Millionaire Kenji Osano denied under oath today that he helped Lockheed sell planes in Japan and said he was considering suing the U.S. aircraft company's former president for defamation. Osano, a close friend of former Prime Minister Kakuei Tanaka, was the first witness at the parliamentary budget committee's probe into former Lockheed president A.C. Kotchian's report that his company paid \$12.3 million to boost its sales in Japan between 1958 and 1973. Kotchian told a U.S. Senate subcommittee that Osano was helpful in Lockheed's drive for Japanese sales. Osano testified that he had met Kotchian several times, but he denied that he assisted him in pushing aircraft sales or even discussed such sales with him.

Genevieve Bujold May Be Next Mrs. Bob Shaw

Q: Has Robert Shaw found a girl since the death of his wife, Mary Ure? I just loved him as "Quint" in "Jaws." — C.L., Okla. City, Okla.

A: The mighty British actor, next to be seen as the Sheriff of Nottingham in "Robin and Marian," would like to put the handcuffs on beautiful Genevieve Bujold.

QUESTION YOU NEVER ASKED: What actor? What actor just had his heart broken over losing — no, not the girl, but the plum role of his career? Jack Cassidy, who for years has wanted to dump his "Mr. Broadway" musical image, had his heart set on acting "George" to Colleen Dewhurst's "Martha" in the revival of "Who's Afraid of Virginia Woolf?" The role fell to Ben Gazzara because director-author Edward Albee just couldn't see Jack in the professor's role.

Q: What's this I hear that millionaire actor Charles Bronson has a brother who is a skid row alcoholic? — E.V., Bay City, Mich.

A: We have a report that Bronson was approached by an alcoholic derelict while filming on Los Angeles' sleazy Main street and that it did indeed turn out to be the actor's older brother, Roy, 64. Bronson embraced his brother and explained that he hadn't seen him in two years and that Roy

More Worried About A War

BURLINGTON, Vt. (AP) — Retired U.S. Sen. George Aiken says his faith in nuclear energy has not been shaken by recent safety questions about the Vermont Yankee nuclear power plant.

Aiken said Sunday he is more concerned about the possibilities of a nuclear war than about a nuclear plant accident.

Women Killed

BELFAST, Northern Ireland (AP) — Four armed men shot and killed three women and gravely wounded the son of one of the women in a farmhouse on the northern outskirts of Belfast, police reported. Two other women were treated for shock.

Conservatives Shun 3rd Party, Boost Reagan

By JANET STAIHAR
Associated Press Writer
WASHINGTON (AP) — Conservatives who a short while ago were toying with the idea of a third party now are concentrating on winning the Republican nomination for Ronald Reagan.

The former California governor handily won a presidential preference straw poll Sunday at the Conservative Political Action Conference here where conservatives from around the nation met.

Reagan got 268 votes in the balloting, President Ford only got two votes, while 51 votes went to Democratic Alabama Gov. George C. Wallace. Libertarian Party candidate Roger MacBride of Virginia came up with 23.

Only persons officially registered for the three-day conference were eligible to cast a ballot.

Sentiment at the conference sponsored by the American Conservative Union (ACU) and Young Americans for Freedom (YAF) was that Ford is a fine human being but not of conservative presidential timber.

Rep. John M. Ashbrook, R-Ohio, who unsuccessfully challenged Richard M. Nixon in the 1972 primaries, said Ford is trying to be a moderate, middle-of-the-roader, like many of his predecessors in the White House.

"It's been a presidential problem," he said. "In Ohio, the only thing we ever found in the middle of the road is yellow stripes and dead skunks."

Buoyed by Reagan's challenge to Ford in the GOP primaries, there was little talk among the conservatives at the meeting of trying to launch a third-party movement for the Californian. At their conference last year, the main topic was whether to lay the groundwork for another party as an alternative to the Ford candidacy.

But John Sears, Reagan's campaign manager, told a reporter before the straw poll that his boss hasn't changed his mind about not accepting a third party nomination.

Meanwhile, there were these political developments:

—Officials of Ford's campaign committee claim his election prospects are improving. They say this is mainly because earlier plans for the Feb. 24 New Hampshire primary and the March 9 Florida primary now are beginning to come to maturity. Ford spent the weekend campaigning in Florida.

—Reagan, also campaigning in Florida, drummed on his campaign theme of government mismanagement and "social tinkering."

—Sen. Henry M. Jackson, D-Wash., predicted he would win the Massachusetts and New York Democratic presidential primaries. But he conceded the Florida primary to Wallace.

—Time magazine reported that a nationwide poll shows Americans, by a margin of 55 to 31, would prefer to see a Democrat elected president. But the poll also found that Ford was rated as the most acceptable candidate by 58 per cent of the 1,002 persons surveyed.

—William Loeb, publisher of the Manchester Union Leader, said Sunday on NBC's "Meet the Press" that New Hampshire's primary remains a "horse race."

Ask Your Dentist

By ALFRED E. SEYLER, D.D.S.

Q. What kind of toothpaste is best for my family to use?

A. Toothpastes which contain fluoride have been proven to be most beneficial, although any toothpaste, if used regularly and frequently, will be of some value.

The use of a fluoride toothpaste will not guarantee your family won't have cavities; but if used in a good home dental care routine the average person will be less likely to have cavities. And that applies even to those who have had the advantage of fluorine in their water supply since birth.

Remember — although tooth brushing is a good habit, it is just as important for your family to use dental floss properly, toothpicks when necessary and to have a good diet low in sugar and starches!

Q. My dentist insists on filling every cavity he finds in my teeth, no matter how small it is. Is that really necessary?

A. I suspect the best answer to your question would be to assure you that cavities do not get smaller — they usually get bigger! So that old saying about "a stitch in time saves nine" may be very true when applied to dental care.

However, with today's methods of retarding decay, such as fluoride toothpastes and the application of fluoride solutions to teeth, a dentist may feel it is safe to keep a small, beginning cavity under observation for a period of time.

If a patient goes regularly and frequently to a dentist, has X-rays taken when necessary and fluoride solutions applied, it is unlikely that any cavity is going to be permitted to reach a dangerous size.

Q. Some of my child's teeth appear to be coming in crooked. She is only seven, but I'm very worried about them. Have you any explanation?

A. There are many reasons for permanent teeth to come in crooked, such as thumbsucking, too-early loss of baby teeth, etc. No matter what the cause is, I think you should ask your dentist if an orthodontic consultation should be had now.

Some irregularities of teeth occur in almost all children, especially in the lower jaw, at about the age of six, seven and eight years. In many instances these irregularities disappear as the child's jaw grows and provides room for the teeth.

Q. I am 38 years old and have worn an upper plate for 8 years. I recently lost my lower back teeth and have only 8 lower front teeth left. Should I have a lower partial plate made or just go ahead and have the lower front teeth extracted and wear full upper and lower dentures?

A. Of course, it would be necessary to see X-rays of your remaining teeth and to study models of your upper and lower jaws in order to make any recommendation. But if your dentist feels that your remaining natural teeth and supporting bone and tissue is sound and healthy, by all means save your teeth. A new upper denture and a lower partial denture would probably be indicated in your case.

CAMPAIGNER: Susan Ford, in a portrait made during an Associated Press interview on the ski trails of Mt. Cranmore, in New Hampshire, said she enjoys campaigning for her father. She added she would like to see her father as President four more years but only in the job doesn't get tougher. She says she has noticed her father age in the Presidency. (AP Wirephoto)

WHEN'S THIS BUSS STOP?: Sadie Nine and Paul Trevillion successfully defend their world kissing record in Seaford, England, Sunday. Last challengers were disqualified for "cuddling" after 35 minutes of the contest. 300 couples, including senior citizens, showed up to challenge Paul and Sadie's record of 25,000 kisses in 2 hours, set last year. Tough Stance On Smoking Means Some Go To Jail

By CHERYL L. DEBES
Associated Press Writer
James Moore lit a cigarette, took a long drag and stepped aboard a subway train. Moments later, he was under arrest.

The next day, after spending a night in jail, he appeared in Branch 95 of Circuit Court of Cook County, commonly known as Smokers' Court.

Some 800 persons were arrested last year for lighting up on Chicago Transit Authority trains and buses, a petty offense punishable by fines of \$50 to \$300. Those like Moore who couldn't post \$25 bond spent a night behind bars.

Similarly, tobacco smokers

across the nation are encountering new restraints and stiffer penalties for indiscriminately indulging their habit.

An Associated Press survey shows that since mid-1973 nearly half the states in the country have enacted laws restricting smoking in public places. Although enforcement is normally lax, penalties range from token fines to 60 days in jail.

Federal regulations limit smoking on airlines and interstate buses and trains, while pending lawsuits seek to outlaw the nicotine habit at New Orleans' Superdome and Detroit's Pontiac Stadium.

Scores of restaurants provide separate seating for nons-

smokers. Students at several colleges and universities have voted to ban the weed in classrooms. Some employers forbid smoking on the job.

Behind the curbs are a growing number of nonsmokers who say they are entitled to breathe smoke-free air.

"For years, smokers have been able to smoke wherever they wanted," says Kare DeCavalante, smoking and health consultant for the American Lung Association. "Now, we're trying to switch that around."

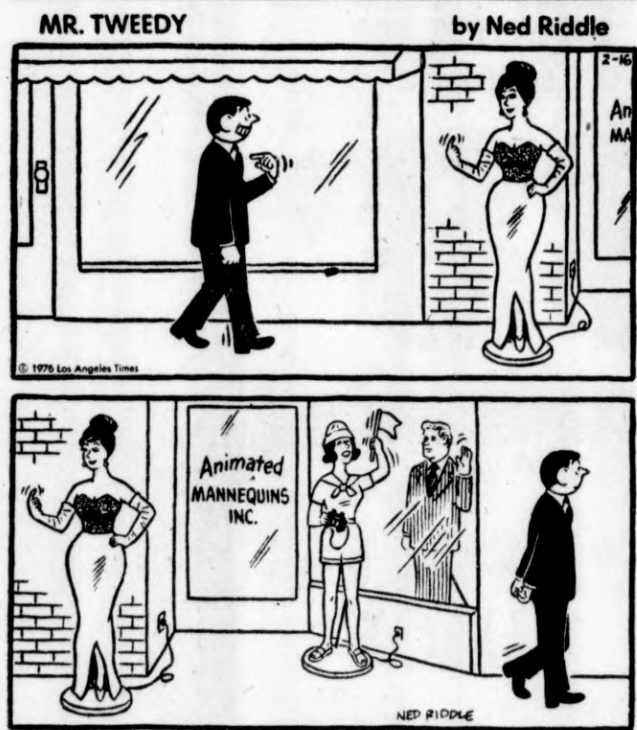

While Chicago's crackdown is unusually tough, the smoking arrests dramatize the change.

Miss DeCavalante traces active participation in a nonsmokers' rights movement to "the 1972 surgeon general's report. It included the first hard, scientific facts on the effects of secondhand smoke."

"When Joe Citizen got wind of it, he said, 'Hey, that's me.' People who had always been bothered by smoke found out they weren't alone."

Evidence that simply breathing tobacco smoke may be physically harmful — "involuntary smoking" as it was called by one government report — led many nonsmokers to re-evaluate the habit they previously considered merely annoying.

Today, a proliferation of groups with such likely names as ASH — Action on Smoking and Health; GASP — Group Against Smokers' Pollution; and ANSR — Association for Nonsmokers' Rights — actively encourage nonsmokers to assert their right to breathe smokeless air.

Patty Jury Will View Apartments

SAN FRANCISCO (AP) — Patricia Hearst and the jurors who will decide her fate plan to see today the two apartment closets where she says she was held in dark captivity for weeks after her kidnapping.

Miss Hearst testified the Symbionese Liberation Army kept her blindfolded and tied, coerced her into taping a plea to her parents to cooperate with her captors and physically abused her. She began telling the jurors on Friday her story of why she took part in an SLA bank robbery for which she is on trial.

Details of today's excursion were kept confidential "for security reasons," said her chief defense attorney, F. Lee Bailey. Federal marshals were to take the jurors to suburban Daly City and escort them into the apartment where Miss Hearst was taken the night she was dragged screaming from her Berkeley apartment.

They were to see a tiny closet, not more than two feet wide, which Miss Hearst, in a moment of near-hysteria, thought would be her coffin, according to her testimony.

They also were to be bused to a San Francisco ghetto where the 21-year-old defendant alleges she later was held hostage in a slightly larger closet.

THINGS TO KNOW ABOUT TAXES

Take Full Credit For Dependents

By SAMUEL E. VITALE
Although taxpayers realize they may claim a \$750 exemption for each dependent, not everyone is sure who qualifies as a dependent.

How about a 20-year-old away at college? Or the elderly parent who does not live with you but

and wife. And if either of them is over 65 or technically "blind", there are extra exemptions for each of those conditions (although they do not qualify for the \$30 tax credit).

The over-65 and blindness exemptions can be taken only by the persons affected; if such in-

dividuals are the dependents, of another taxpayer, that taxpayer does not get the added break.

Your child under 19 is a dependent if you provide half his support. This continues to be true after he passes 19 if he is a full-time student.

Generally, there are five tests that determine whether a person is your dependent. To qualify, he must meet all five:

You provide more than half his support, he makes less than \$750 gross income, he lives with you for the entire year or is a close relative, he is a citizen or resident of the United States, Canada, Mexico or Panama, he does not file a joint return with another taxpayer except for the purpose of claiming a refund of taxes withheld.

What about a child born late in the year? The baby born during the year is a dependent. The same is true of a dependent who dies; generally, if the person qualified as a dependent during any part of the year, the taxpayers gets the full exemption. This is not true, though, in the case of a man whose wife dies and he remarries before

the end of the year; he can claim only the new wife. Also, a man who is divorced or legally separated as of the end of the year loses the exemption for the divorced or estranged wife.

In the case of elderly parents supported jointly by two or more of their children, none of whom provides more than half the support, the exemptions can

be taken by one of the young people who contributed at least 10 percent if the others sign a statement that they are not claiming the exemption this year.

The exemption for the child of a divorced couple generally goes to the parent having custody for the greater part of the year. However, the other parent

qualifies if he contributed at least \$600 toward the child's support and the divorce decrees specifies that he get the exemption or if he contributed at least \$1,200 and the other parent cannot establish that she provided more.

In the final article in this series, those very welcome tax credits will be discussed.

EDITOR'S NOTE: Here's the fourth in a series of articles on 1975 income tax preparation. The author is president of the Michigan Association of Certified Public Accountants.

whom you help support? Or the family member who died last year?

The right answers to such questions are important than ever, thanks to the 1975 Tax Reduction Act. This year, each of your dependents is worth not only the deduction but an extra credit of \$30 — that is \$30 you can subtract from your tax bill, or claim as a refund if your taxes were fully covered by withholding.

To begin at the beginning, your first dependent is yourself, and that is true even if you are also the dependent of another taxpayer, as in the case of a young person with a part-time job whose parents provide more than half his support.

On a joint return there are at least two dependents, husband

and wife. And if either of them is over 65 or technically "blind", there are extra exemptions for each of those conditions (although they do not qualify for the \$30 tax credit).

The over-65 and blindness exemptions can be taken only by the persons affected; if such in-

Research Links Pill, Tumors

CHICAGO (AP) — A Kentucky medical research group reports that oral contraceptives may cause tumors of the liver.

Doctors from the University of Louisville School of Medicine wrote in the Feb. 16 issue of the Journal of the American Medical Association that 13 young women developed liver tumors after taking birth control pills. Nine of the tumors were benign, four malignant.

The patients were young, nonalcoholic, generally healthy and free of liver disease, said surgeon E. Truman Mays, M.D.

The exact role of contraceptive pills in liver tumors is unproved, he said, "but a possible link between these pills and hepatic (liver) tumor seems increasingly likely."

However, a study done by the Population Council released over the weekend found that the mortality risk among women who use the pill and other major birth control measures is generally lower than the risk of death from pregnancy itself.

As an exception, the study noted that the risk of death from oral contraceptives is higher than that from pregnancy for women over 40.

KANSAS: The Catalyst For A Growing Nation

By FORREST HINTZ
WICHITA, Kan. (NEA) — Kansas was the catalyst in America's melting pot.

To travelers on the Santa Fe and Butterfield Trails, it was

place fit only for the "savage redskins" who claimed it as their own.

There were the endless herds of buffalo, so many that an order issued at Ft. Riley directed: "Members of this command will, when shooting at buffaloes on the parade ground, be careful not to fire in the direction of the commanding officer's quarters."

It was a hard land that needed men and women equally hard to tame it. And even those who couldn't make it developed a biting sense of humor. One of them left a sign on an abandoned dugout: "75 miles to wood, 40 feet to water, 6 inches to hell. God bless our home."

But still they came, each adding to the mixture.

There were the dour New Englanders at Lawrence. Sent out by the Emigrant Aid Societies, they were as unyielding as the rocky hills they came from, piously calling their muskets "Beecher Bibles." But there

were also the fun-loving Czechs at Wilson and Caldwell. English "remittance men" rode to the hounds at Runnymede, and replaced the buffalo with Angus and Hereford cattle at Victoria. A handful of

French planted mulberry trees at Silksville and tried — without success — to raise silkworms. The German immigrants found no wood, so they cut stone for their fence posts. And the Swedes who settled Lindsborg contributed their love of education, art and music to the new land.

As the railroads spun their web across the state, binding East to West, the trail herds and gunslingers came to meet them. And it was agreed that "There's no law west of Ellsworth — and no God west of Hays." That became the grist for thousands of western movies.

Some towns were less than imposing. An editor wrote: "The most memorable thing about Abilene is a prairie dog town in the middle of the main street." But when Abolitionist John Brown lit one of the fuses of the Civil War, these diverse elements forgot their differences to band together and save the Union.

Later came the Mennonites from Russia who settled at Gnadenau and planted the Red Turkey wheat that made the state part of the nation's breadbasket.

At Neodesha, a Pennsylvanian drilled "Norman No. 1," the first oil well west of the Mississippi River, and soon the vast Hugoton field at Ulysses was pumping gas to a growing nation.

The Italians made their contribution, mining the coal at

Pittsburg and the lead and zinc at Galena.

Only Kansas could produce a Carry Nation who, in spite of the hatchet legend, battled Demon Rum with a lead pipe strapped inside an umbrella. And with superb irony, her monument in Wichita was knocked over by a beer truck. Her legacy was a saying — "Kansans will vote dry as long as they can stagger to the polls."

It was a solid Republican state, yet its only four-term governor was a Democrat.

Eventually, Kansas looked to the skies. Boeing-Wichita built the bombers that blasted the Axis in World War II and modified the B-52s used in Vietnam. Cessna, Beech and names known all over the

world, built the bulk of the private aircraft now in use.

Near Dodge City, one still can stand in the century-old ruts of the Santa Fe Trail that tied a nation together and see the contrail of a Kansas-built jet that ties whole continents

together. Because America was a melting pot and because the many cultures could blend and draw strength from each other, it became the envy of the world. And Kansas was an important catalyst.

Sahara Fighting Reported

RABAT, Morocco (AP) — New fighting between Algeria and Morocco is reported in the Spanish Sahara two weeks before Spain officially ends its rule over the northwest African territory. The Moroccan government said Sunday that regular Algerian troops using heavy Soviet-made equipment recaptured the Amghala oasis from Moroccan forces on Saturday. King Hassan II said there were "dozens" of Moroccan casualties in the attack on the desert outpost 175 miles southwest of the Algerian border. Hassan sent a telegram to Algeria's President Houari Boumedienne warning against further Algerian military action in the territory.

FLOOD 'INSURANCE': Twice in past three years Norman Hinz residence has been one of several homes in a low lying area east of South Haven to be flooded by spring rains. This year Hinz is taking no chances as he has constructed six foot tall sand dike around his home and barn in anticipation of waters which overflow nearby creek that is tributary of Black river. Home is located near Phoenix road in area known locally as Trowbridge flats of Geneva township. Thaw this past week reduced flood threat somewhat. (Tom Renner Photo)

Pentagon Rejects Film Request

MANILA, The Philippines (AP) — The U.S. Defense Department refused to provide military equipment and manpower for an \$11-million film about the Vietnam war being produced by Francis Ford Coppola, a coproducer of the film said today.

"I have a feeling the Pentagon wants to forget Vietnam," said Gray Frederickson. But he added, "The Pentagon is not trying to obstruct us or prevent the picture from being filmed. They want to be neutral."

He said Coppola, who directed "The Godfather" and "Godfather II," left Manila early today for Washington to ask Defense Department officials again for cooperation in filming "Apocalypse Now."

"Coppola would like to have the Pentagon's cooperation and he is willing to discuss changes in the script," said Frederickson. "This is not an anti-American film. It is not even an anti-war film."

He said the script is based on Joseph Conrad's novel "The Heart of Darkness," with the location switched from the African Congo to the Mekong River in Vietnam in 1968.

"We really don't need Pentagon help," Frederickson said. "We can get along without it. We would like to use some of the men at the U.S. bases here and we could use one of those big Chinook helicopters."

He said the Philippine government has agreed to provide from five to 15 smaller Huey helicopters for which it will be paid.

Show Of Pageantry Closes Winter Games

Americans Finish With 10 Medals

INNSBRUCK (AP) — The 12th Winter Olympic Games passed into history with a show of pageantry in the shadow of the Tyrolean Alps.

"I must now declare the 12th Olympic Winter Games closed," said International Olympic Committee President Lord Killanin of Ireland, ringing down the curtain on this 12-day international celebration of ice and snow and athletic endeavor.

The large Olympic flag which hung over the Ice Stadium was lowered as the international cast of athletes, gathered informally around the hall, looked on Sunday night. It will be raised again in four years at Lake Placid, N.Y.

The only event held on the

final day of these Games was the 90-meter ski jump which was won, fittingly, by the host Austrians. The rest of the day was devoted to the closing ceremonies, a figure skating exhibition, the evacuation of athletes and the aftermath of the Saturday night barroom brawl involving some U.S. hockey players.

The brawl cast a shadow over the otherwise successful performance of the U.S. squad here: The United States won 10 medals — including golds by figure skater Dorothy Hamill and speed skaters Sheila Young and Peter Mueller — to finish third in the over-all standings.

That was just two short of the all-time best of 12 won by the

American team in 1932 at Lake Placid, an impressive showing for a country that has only one Olympic-size speed skating rink, only one bobsled run and virtually no financial support from the government.

The Soviet Union, with its precision hockey team, powerful speed skaters and virtually tireless cross country skiers, piled up 13 gold medals and 27 total in the 37 events. East Germany was second with seven golds and 19 total.

Unlike the bloody Summer Olympics in Munich four years ago or the confusion that has marked preparations for the Games this summer in Montreal, these Olympics went off smoothly, quietly and with

relatively few disputes. That may explain why the brawl involving some U.S. hockey players attracted so much attention. Whatever the reason, it was the subject of discussion throughout Innsbruck Sunday.

Following their crushing 4-1 loss to West Germany, a defeat which cost the U.S. a bronze medal, a dozen or so American hockey players went out on the town Saturday night to drown their sorrows in beer.

There are several versions of how the altercation began. Pat Sullivan, U.S. Olympic counsel, said one of the Americans went into the cellar of a local tavern looking for his parents.

"I don't know what happened," said Sullivan. "The hockey player said 'Someone pushed me and I pushed him back.'"

Words were exchanged. A tray of beer was spilled. "A restaurant bouncer got into the controversy and the American boy was on the floor," said Sullivan. "His friends went to help him."

Several glasses and lamps were broken and a glass door was shattered during the melee, which reportedly involved about 20 Austrian tavern patrons and took 10 Innsbruck policemen to break up. Some of the Americans suffered cuts and bruises, none of them serious.

Two players, identified as Gary Ross of Rouseau, Minn., and Robert Miller of Billerica, Mass., were detained, fined \$18 for disturbing the peace and released. They will be allowed to leave Austria but charges of resisting arrest and causing property damage may be filed later in the week. This will be a formality, however, as both will be out of the jurisdiction of Austrian authorities.

The tavern owner said U.S. officials have agreed to pay the damages, which amounted to about \$1,000, and he will not press charges.

"First time they'd had a beer in weeks," said one American official. "They had a right to let down their hair."

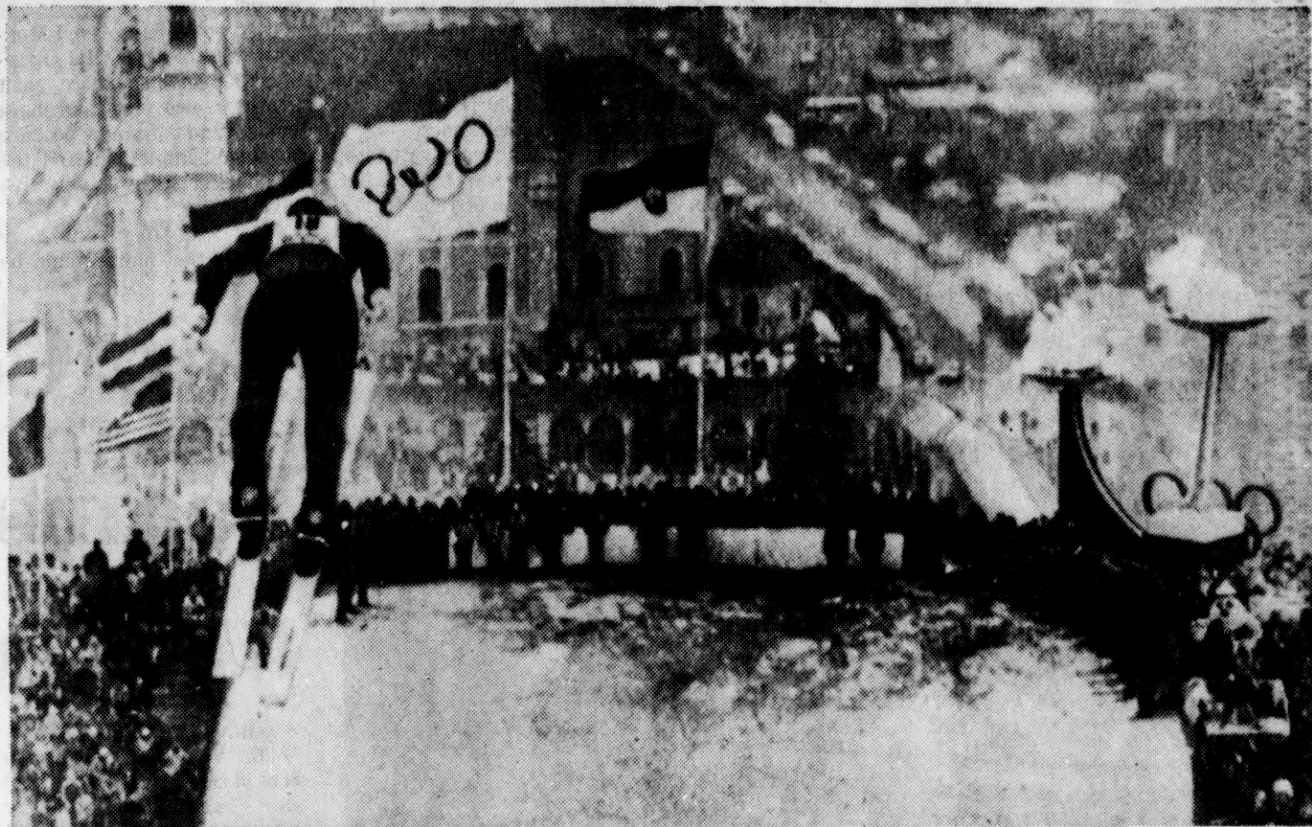

Karl Schnabel and Toni Innauer gave the home team a last hurrah Sunday by finishing 1-2 in the 90-meter jump, which began on a mountain where Napoleon's army once fought.

Schnabel had jumps of 320 and 318 feet for 234.8 points. Innauer, the 17-year-old sensation, had the best leap of the day, 337 feet, but went only 299 on his second try for 232.9 points. Henry Glass of East Germany was third.

Jim Denney of Duluth, Minn., topped the Americans with jumps of 292 and 279 feet for 191.1 points.

In all, some 1,040 athletes from 37 nations competed here during the 12-day run. They were watched by some 1.5 million visitors in person and by many more millions on television.

As Killanin said when the twin Olympic flames were snuffed out Sunday night, "We meet again in Lake Placid."

Pearson Daytona's Crashing Winner

DAYTONA BEACH, Fla. — (AP) — Richard Petty and David Pearson, running 1-2 and charging around the final turn toward the finish line, each smashed into a wall Sunday at the \$350,000 Daytona 500 auto race.

Then Pearson won stock car racing's most prestigious race driving his crippled car through the infield, back onto the track and past the checkered flag while Petty sat in his immobilized Dodge, spinning his wheels, a scant 50 to 100 feet from the finish line.

With help from his crew, Petty finally got going to finish second.

It was an unbelievable finish to the richest stock car race ever held, and it brought Pearson his first Daytona 500 title and his 88th NASCAR Grand National career victory.

Neither Petty nor Pearson was injured in the crashes, and neither was upset about what happened. Petty accepted the blame for the crashes and congratulated Pearson.

"I apologized to David for hitting him in the first place," Petty said. "I told him I hated for it to happen. If there's anything to be mad at, I'm mad at myself."

"No, I'm not mad," said Pearson, basking in the glory of winning the one major race which had eluded him. "Richard didn't mean to do that. He was trying to win the race, just like I was."

The difference was that

Pearson was able to get his Mercury going first.

"I radioed Glen Wood and asked him if Richard had crossed the finish line yet. He said no, so I took off," said the jubilant Pearson, who won more than \$40,000 for his victory.

Pearson and Petty, rivals for a decade and the two men who have controlled this sport for years, ran bumper-to-bumper for the lead in the final 30 laps.

Petty led going into the final lap but Pearson, using the draft created by these 180-mile-per-hour machines, shot his car into the lead on the backstretch. Then, coming around the fourth and final turn, Petty nudged his Dodge below Pearson to regain the lead heading into the final stretch run.

But as he tried to move completely in front of Pearson, Petty said, the front end of his car "came loose." The car turned sideways, and Pearson's did the same thing.

Pearson smashed into the retaining wall on the outside of the course and spun into the infield. Petty spun down the stretch, straightening his car out several times. But he also finally hit the same outside wall and went into the infield.

Pearson managed to get his car going again, drove it onto the lower apron of the track and crossed the finish line.

Benny Parsons' courageous bid for a second straight upset

victory evaporated when the engine on his Chevrolet started to go sour while he held the lead late in the race. He finished a distant third, followed by Lennie Pond and rookie Neil Bonnett.

The one major crash in the race sent pint-sized driver John Ray of Eastaboga, Ala., to the hospital with serious chest injuries.

The classic fight to the finish so often staged between the two all-time superstars of Southern stock car racing was set up by a caution flag at lap 175 of the 200-lap race.

Before that, the 41-year-old Petty would have had to make one more fuel stop.

Pearson, who spun out while leading last year's race on lap 198, kept right on Petty's tail after the caution period ended. Then came the two rapid lead changes, and then the cars tapped each other, setting off the wild spins and crashes.

Petty finally shut off his car and climbed out. His cousin, Dale Inman, helped him back to the garage area. He said he was not injured.

Pearson's average speed in winning the 18th annual running of this classic was 152.181 miles per hour.

The Petty-Pearson tangle was far less serious than the one involving Ramo Stott, Skip Manning and Ray. Ray spun after Stott's machine locked up in front of him, and Manning then pounded into the driver's side of Ray's car.

SMASHING FINISH: Richard Petty spins along the final stretch of the Daytona Speedway Sunday, his car in shambles, after hitting David Pearson's car. Petty was leading at the time of the mishap, but Pearson managed to get his battered car across the finish line first. (AP Wirephoto)

Furrow's 38 Not Enough

Michigan Drubs MSU

EAST LANSING, Mich. (AP) — It takes more than 38 points by the Big Ten's top scorer, Terry Furrow, to stop Michigan. Michigan defeated Michigan State, 81-64, on Saturday, despite Furrow's hot hand.

"I think Furrow is a great offensive player," said Michigan Coach Johnny Orr. "He's about as tough an offensive player as we've seen all year. He does a great job of putting the ball in the basket."

But Orr added, "He has to score 50 for you to win against a good team, and that didn't happen today."

Furrow hit 13 of 27 floor shots and 12 of 13 from the foul line for the game, and moved within four points of MSU's season scoring record of 667, set in 1970 by Ralph Simpson.

But the Spartans weren't able to handle the quickness of Michigan's Ricky Green, Phil Hubbard and Alan Hardy.

Guard Green scored 24 points, while Hubbard at center scored 16, and freshman forward Hardy had 15 coming off the bench.

"Michigan is a very good team," said MSU Coach Gus Ganakas. "Since our last game, they've really come on. In the second half, they just controlled the flow of the game."

"They wore us down, too," Ganakas said. "It took every bit of energy we could muster to stay with them at the end. They're in real good shape. They're a good basketball team and beat us soundly."

MSU went to a 25-20 lead midway through the first half,

thanks to 15 early points by Furrow.

Michigan trailed, 31-26, with 4:26 remaining in the opening half, but the 14th-ranked Wolverines outscored MSU 15-6 to take command at the half, 41-37.

Michigan went ahead, 50-41,

in the first six minutes of the second half and the lead grew to 11, then to 16, before the final 17-point margin.

The victory raised Michigan's conference record to 10-3 and 16-5 overall, while the Spartans fell to 7-6 in the Big Ten and 11-11 on the season.

FURLOW TRAPPED: Michigan State's Terry Furrow (25) is surrounded by Michigan's Dave Baxter (25) and Wayne Britt (32). Furrow was the high scorer in the Big Ten game Saturday at East Lansing with 38 points, but the Wolverines won 81-64. (AP Wirephoto)

Stolz Says Fire Weyers?

EAST LANSING, Mich. (AP) — Michigan State football Coach Denny Stolz has recommended the school fire one of two assistant coaches involved in a recruiting scandal, the Detroit Free Press says.

The MSU Board of Trustees is expected to determine Friday the fate of assistant coaches Howard Weyers and Charlie Butler, the two coaches set down by the National Collegiate Athletic Association for recruiting violations.

The NCAA placed MSU on three year's probation following an investigation of rules infractions by the school.

Stolz has recommended that Butler be retained, but that Weyers, barred from recruiting for the next three years, be severed from the staff, a source told the Free Press.

Stolz refused to comment on his recommendations to the trustees. "To be consistent with my stand in the past," he said, "all I can tell you is my relationship with my players and staff is confidential. I won't talk about it at all."

The Free Press said that Stolz feels Weyers' value to the MSU football program has been

seriously damaged by the NCAA's recruiting ban.

Butler has been barred from off-campus recruiting for one year.

But Weyers says recruiting is only a part of his job and contends he could still be valuable to the school in coaching, teaching and counseling players.

"If I'm not retained, there's no way they can say it was for any reason other than this investigation," he said. Weyers and his attorney have said repeatedly they will consider legal action if the assistant coach loses his job as a result of the NCAA action.

Acting athletic director Jack Shingleton refused to comment

on his recommendations to the board, but the Free Press said he had suggested the same fate for both Weyers and Butler.

Dr. Clifton Wharton, the school's president, said last Sunday that he would recommend the board renew the contracts of the remaining six assistants, while delaying a decision on Weyers and Butler.

About the only thing that appears to be in clear focus in the Western Collegiate Hockey Association is Michigan Tech's lofty status.

Despite a weekend split at Notre Dame, Tech remains in a six-point spread over runnerup Michigan State for the league championship and one of the two key home berths in the conference playoffs.

Olympics Becoming A Monster For Hosting Nations

INNSBRUCK (AP) — Montreal is trusted to see the 1976 Summer Olympics through, despite its construction problems. Moscow will put them through the state planning machine in 1980.

After that, what? "Something will have to be done, otherwise nobody will be able to afford to host the games at all," said Lord Killanin, president of the International Olympic Committee.

"We have obvious problems. The next few years are going to be vital for planning the Olympics of the future."

The XII Winter Games ending at Innsbruck today are no great worry. This old established ski resort has run them compactly and smoothly. Lake Placid,

N.Y., hopes to stage them on a budget of \$57 million in 1980.

But the Summer Olympics have grown into a monster in danger of dying under its own weight. They are costing Montreal more than \$1 billion. The question is whether to cut them in size or spread them around.

The busiest of the IOC's working committees at the moment is the Program Commission, headed by Dr. Arpad Csanadi of Hungary. It is striving to fit the present Olympic sports into a manageable program, and at the same time deal with other sports outside the Olympics which want to be included.

Csanadi's committee has two meetings planned between now and the Montreal Games in mid-July. Its recommendations

are expected to be ready to present to the international sports federations at a meeting with the IOC Executive Board at Barcelona, Spain, next October.

When the full IOC meets at Prague in June, 1977, a whole day will be given to the shape of Olympics to come. That is when revolutionary changes may be decided — before sites are chosen for the 1984 Games.

Killanin, who succeeded the late Avery Brundage in 1972, has proved a reformer though a cautious one. He has led the IOC in accepting more liberal rules governing the eligibility of athletes for the Games.

"I have concentrated on eligibility during the first half half of my eight-year term," Killanin said. "In my second four years I intend to concen-

trate on the Olympic program. The whole future of the Games depends on it."

It has been a tradition of the Olympics that one city host the games. One idea under discussion is to spread the Games around.

"There might be difficulties in some instances," Killanin said. "But I see no objection to spreading the Games around in a country the size of Canada, for example."

That would have saved Montreal a lot of worry. Its Olympics budget has more than tripled in two years, its main stadium and swimming pool are not near completion. And the opening ceremony is only five months away.

Some IOC members have suggested the Games might be

hosted jointly by neighboring countries. Belgium, The Netherlands and Luxembourg were mentioned as one idea.

At one time, Copenhagen was reported considering a bid to stage the Games in partnership with Malmö, Sweden, which lies across a narrow stretch of water. The idea did not progress because a plan for a bridge linking the two cities was shelved.

Periodically, somebody suggests a permanent site for the Games, financed on an international scale. Olympia in Greece, where the ancient games were started 2,500 years ago, was a favorite talking point.

"I haven't heard anybody suggest that lately," Killanin said. "But if the present trend of things continues, I can

foresee the Games being concentrated on two or three permanent centers in about 20 years' time."

Possibilities of chopping down the Olympic program are almost endless. IOC members play with various permutations for reducing the events, restricting the number of participants, or cutting out team sports and concentrating on individual competition.

"It would be an easy solution to throw out a few sports," Killanin said, "but the sports concerned wouldn't like it much. After all, if sports have been well conducted and a successful part of the Olympic games, what moral grounds have we for casting them out?"

Formerly the host country was at liberty to place anywhere

from 15 to 21 sports in the Olympics. Now all 21 are automatically in every Olympic Games. That is one reason for the mounting difficulties of staging them.

"It is not only the cost to the host country," Killanin said, "it is a matter of planning the Games and running them efficiently."

"When we choose sites for the Games of the future, we shall have to study the infrastructure of sports organization in candidate countries. There are not many countries in the world that have the necessary experience of running all the 21 Olympic sports."

"Certainly we shall have to look carefully at cities with existing facilities, rather than those which propose to build

stadiums on a grand scale. The athletes' village must never be a burden but must become part of the city's permanent housing plan."

The latest thought circulating among the IOC is that the Olympics might be stayed over for weeks instead of two, with the program staggered and athletes in different sports moving in and out of the village. "That would ease the accommodation problem, but there would be difficulties," Killanin said. "Administrative costs, for example."

At the moment, only one city, Tehran, has indicated its willingness to try to tame the monster and stage the 1984 Games. But it is two years yet before bids have to be submitted.

Snead San Diego Winner By One Stroke Over Bies

SAN DIEGO — (AP) — J.C. Snead, who watched a once-commanding five-shot lead dwindle and all but disappear, birdied the final hole Sunday and held off onrushing Don Bies by a stroke to win the Andy Williams-San Diego Open golf tournament.

Snead, now the winner of this title for the second straight year, bent up almost double, then heaved a huge sigh of relief after he coaxed in the four-foot putt that clinched it on the 18th hole of the 7,047-yard South course at the Torrey Pines Country Club.

Snead, carrying a trashcan driver and a wilted four-leaf clover, could do no better than match par 72 for the final round and finished with a 272 total, 16 under par.

The veteran Bies, who scored his first tour triumph last fall, started the day six shots back of Snead and made up all but one

stroke with a five-under-par 67 and a 273 total.

Australian veteran Bruce Crampton lipped out an eagle putt on the final hole, shot a 68 and was tied at 275, three strokes back, with 46-year-old Don January and Mike Morley. January had a 70, Morley 69 in the bright, sunny weather. Buddy Allin was alone at 276 after a closing 68.

Lee Trevino never really got in the chase. He closed with a 72 and a 281 total.

Veteran Miller Barber fell just short of his goal of achieving \$1 million in career winnings. He shot a last-round 72 and tied for 15th at 279 and won \$2,610 — just \$889 short of becoming the 10th man in golf history to reach the \$1 million mark.

"I figured, with a five-shot lead, if I just played a lick at all, they wouldn't be able to catch me," Snead said. "But I almost let it get away."

"That's the longest 24 hours I ever spent in my life."

Bies closed to within a single shot with his long putt, perhaps 40 feet, on the 14th.

He had a chance to catch Snead on the next hole, but

missed from about eight feet. Snead also parred. And they stayed one stroke apart down the stretch, reeling off par after par in growing pressure.

The 18th, a 501-yard par five guarded by a little pond, was — as usual in this tournament — the decisive hole.

Bies drove into the right rough but — with the players allowed to lift, clean and place the ball — was able to provide himself with a good lie and went for the green with a wood. He put it on the back fringe. Snead was just to the left of the green in two.

Bies was away and putting for an eagle. He backed off once, then missed. Snead, who got his driver out of a trashcan at a course in New York, chipped down to about four feet.

He rolled it in — and had to have it to win. Bies made his, and they finished one shot apart.

Top College Cage Teams Almost Upset IU, Marquette Both Squeak By

From ASSOCIATED PRESS

A St. Valentine's Day massacre in college basketball? Not quite, but the upset-hungry underdogs didn't miss by all that much.

Consider these Saturday results:

—No. 1 Indiana had to play keep-away in the final nine minutes, with reserve guard Jim Crews doing most of the ballhandling, to eke out a 58-48 decision over pesky Illinois.

—No. 2 Marquette saw a 12-point lead cut to two in the late going before Lloyd Walton helped the Warriors pull out a 68-61 triumph over 18th-ranked Virginia Tech.

—No. 3 North Carolina needed four overtimes to outlast Tulane 113-106.

—No. 4 Maryland squandered nearly all of an 18-point second-half lead but came away with a 98-89 victory over Clemson, thanks to some clutch foul shooting near the end.

—No. 5 Rutgers, sparked by weak-kneed guard Ed Jordan, barely remained unbeaten by topping Manhattan 92-81 in overtime.

—And No. 6 UCLA beat Pacific-8 rival Washington, ranked No. 9, by two points for the second time this season, this time by a 78-76 count.

The big losers in Saturday's action were No. 8 Tennessee and No. 15 Western Michigan. The Vols were beaten by Southeastern Conference foe Florida 72-69, and Western Michigan was knocked from the unbeaten ranks by Toledo 88-80.

That left Indiana and Rutgers, both 21-0, as the only unbeaten major college teams in the nation.

Elsewhere among The Associated Press Top Ten, No. 7 Nevada-Las Vegas outscored No. 19 Centenary 122-92 and No. 10 Notre Dame defeated West Virginia 97-77.

"Illinois worked well in their zone," said Indiana Coach Bobby Knight. "They did a good job of covering, and we made a lot of mistakes."

All of which found the Hoosiers leading 50-44 with nine minutes to go, when Knight ordered his club into a stall. Crews got the job done, hitting a basket and four free throws as Illinois got just four points the rest of the way. Center Kent Benson of Indiana led all scorers with 17 points.

Marquette's lead over Virginia Tech was down to two points, 57-55, with 3:45 to play when guard Lloyd Walton went to work. He sank a free throw and set up two layups, then added five more points in the final minute as the Warriors raised their record to 19-1 with their 15th consecutive victory.

Dave Thorpe led all scorers with 30 points for Virginia Tech; 19-4, with losses to North Carolina, Indiana, Duke and Marquette — all on the road.

Mitch Kupchak scored 35 points, Walter Davis 26 and Phil Ford 32 as North Carolina outscored Tulane. Tulane grabbed a quick three-point lead in the fourth overtime of the marathon, but Ford hit four free throws to give the Tar Heels the lead for good.

All five Maryland starters scored in double figures, with John Lucas' 24 points leading the way. Six of the Terrapins' last eight points were from the foul line, after Clemson had closed to within three.

Jordan, Rutgers' playmaker, sat on the bench with strained

knee tendons as his team built an 18-point lead and then squandered it against Manhattan. But he went into the game in the final minute of regulation, then took command of the flow in overtime and the Scarlet Knights pulled away. Phil Sellers and Mike Dabney scored 26 points apiece for Rutgers.

Richard Washington scored 24 points and Marques Johnson 21 for UCLA. Washington held the Bruins without a field goal in the final five minutes and nearly tied the game, but Clarence Ramsey's layup following a steal came just after the final buzzer.

Eddie Owens scored 24 points to help Nevada-Las Vegas raise its record to 24-1. Center Robert Parrish had 22 points for Centenary.

Len Sanders' layup with 10 seconds to go clinched Florida's upset of Tennessee, which dropped into a tie for first place in the SEC with Alabama. The Vols, trailing 70-69, muffed a chance to go ahead with 16 seconds to play when Bernard King was called for an offensive foul. Gene Shy led Florida with 22 points. King had 25 for Tennessee.

Freshman Bruce Flowers scored 27 points and Adrian Dantley reached the 2,000-point

plateau by scoring 26 for Notre Dame. Dantley also grabbed 21 rebounds.

Toledo shot a sizzling 72 per cent from the field in the second half and 65 per cent overall to hand Western Michigan its first defeat after 19 victories. Dave Speicher led a balanced Toledo attack with 20 points.

Also knocked from the unbeaten ranks was the nation's top-ranked college division team, Alcorn State, which dropped a 90-87 decision to Jackson State.

Among the major college Second Ten, No. 11 Alabama got 29 points from Leon Douglas and rallied from a 10-point second-half deficit to beat Louisiana State 78-74; Phil Spence's offensive rebound and layup at the buzzer gave No. 12 North Carolina State an 87-85 victory over Wake Forest; sophomore centers Bob Miller and Pat Cummings scored 10 points each to lead No. 13 Cincinnati past St. Louis 60-45.

Also, Kim Henderson's 20 points helped No. 14 Missouri beat Iowa State 85-64; No. 16 Michigan defeated Michigan State 81-64 despite 38 points by the losers' Terry Furlow, and Weasel Johnson's 24 points led No. 19 North Texas State past Southwestern Louisiana 107-80.

Knicks Get Back Into Atlantic Race

Walt Frazier said "the nail was in the coffin," Spencer Haywood described it as having "our backs against the wall."

Either way, it was clear what they meant: if the New York Knicks did not win both ends of a home-and-home weekend series with the Philadelphia 76ers, they might just as well forget about the National Basketball Association playoffs.

But with Haywood scoring 29 points in each game, the Knicks climbed back into the Atlantic Division race with a 101-97 overtime victory at Madison Square Garden Saturday, then

an 88-82 decision at the Spectrum Sunday.

The last-place Knicks were still 5½ games back of Philadelphia and Buffalo, but at least they were alive.

"We're now back in it," said Haywood, who outplayed Philadelphia's George McGinnis in the weekend set. "It now depends on whether we can sustain it, and I think we can."

Elsewhere in the NBA Sunday, it was Washington 101, Los Angeles 88; Atlanta 112, Buffalo 104; Milwaukee 113, Houston 105; Portland 109, Boston 105, and Seattle 109, Detroit 107.

The Knicks played three

periods of sloppy ball against the 76ers Saturday, but pulled it out with a strong fourth quarter and then took control in overtime.

On Sunday they scored the last eight points of the second quarter for a 43-33 halftime lead. The 76ers closed to within two points midway through the third period, but New York kept its poise and steadily drew away.

Earl Monroe added 17 points for the Knicks Sunday, and Doug Collins topped Philadelphia with 27.

Washington pulled away to an

19-point halftime spread by outscoring Los Angeles 34-16 in the second period. Phil Chenier was the Bullets' high scorer with a season-high 30 points, 16 of them in the first 13 minutes.

Supersub John Drew scored 33 points, including a dozen in the fourth quarter, to pace the Hawks. Bob McAdoo had 45 points for the Braves, 22 in the fourth quarter.

Brian Winters scored 30 points, Bob Dandridge 29 and Elmore Smith a season-high 28 for Milwaukee, which took command by shooting a sizzling .702 from the field in the first half.

Lloyd Neal, playing with a mask to protect his fractured cheek bone, scored 15 points to help Portland break a four-game losing streak. Geoff Petrie had 22 points for Portland, while Boston's Jo Jo White led all scorers with 26 points.

Slick Watts sank a 28-foot jumper at the buzzer to cap a Seattle comeback which saw the Sonics erase a six-point deficit in the final 34 seconds. Herm Gilliam led Seattle with 22 points. Al Eberhard scored 30 for Detroit.

Capitals Rally Stuns Red Wings

LANDOVER, Md. (AP) — Jean Lemieux and Jerry Meehan scored two goals each as the Washington Capitals defeated the Detroit Red Wings 8-5 for their sixth victory of the season Sunday night.

In the third period Washington scored a team-record five goals.

The Caps scored their first two goals of the period, by Lemieux and Nelson Pyatt, in a team-record span of just eight seconds.

Washington tied the score once again in the second period

with a tap-in goal by Meehan. The Red Wings finally finished on top at the end of the second period as Dan Maloney scored at 16:02.

Washington scored two more goals before the Red Wings could answer for their last goal by J.P. LeBlanc at 15:03.

Meehan scored the eighth and final goal for his team into an open net as the Red Wings pulled their goalie for an extra attacker.

Bowling Green Cage Coach Haley Resigns

BOWLING GREEN, Ohio (AP) — Bowling Green State University head basketball coach Pat Haley said frustrations of the past couple of seasons helped influence his decision to resign from the post.

Haley submitted his resignation to Athletic Director Dick Young after Saturday night's 67-60 Mid-American Conference victory over Ohio University.

Haley told a Sunday news conference the frustrations—including some key injuries

and two close races for the league championship—led him to believe that his resignation "would be best for Pat Haley and best for Bowling Green."

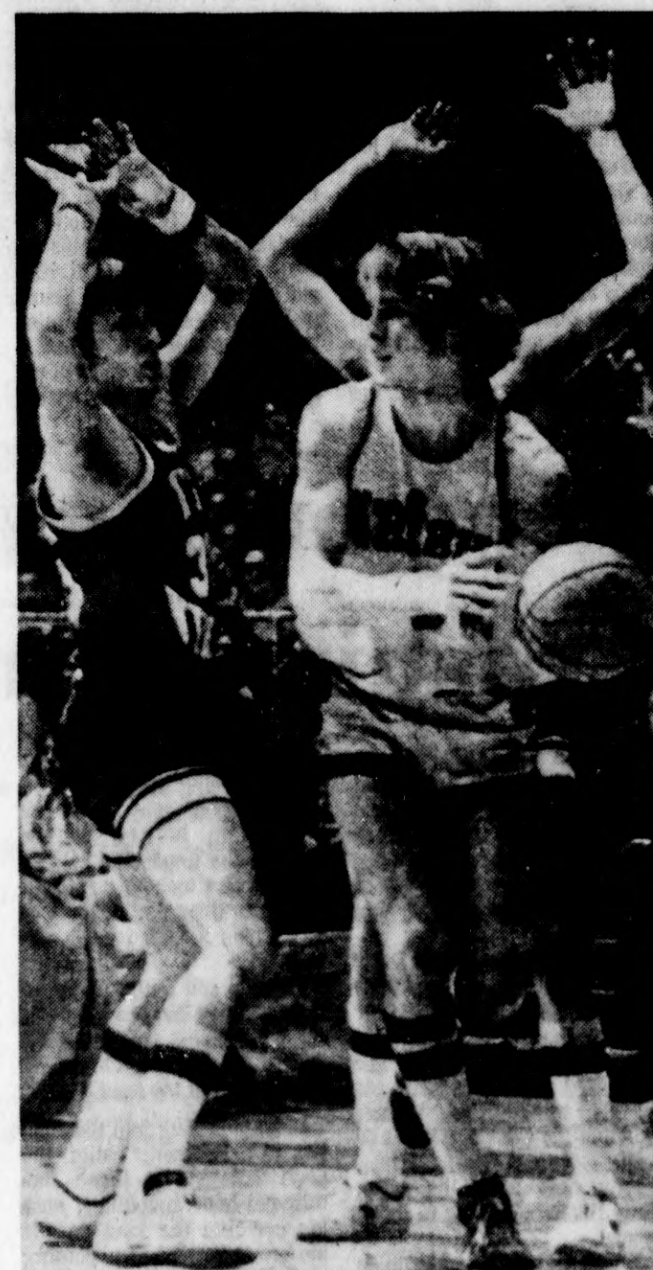

The resignation is effective at the end of the season, but Haley said he would remain to help with recruiting. He said he hoped to continue coaching, but had no plans after this season.

Haley, a 1963 graduate of Bowling Green, began his career at the school as an assistant in 1970. He was named head coach before the 1971-72

basketball season. His record over four and one-half years has been 59-66, with a 29-30 mark in the MAC.

The team's best season was last year, when it was 18-10 over all and 9-5 for a second place tie in the conference. The team finished third in the National Commissioners Invitational Tournament last year.

The Falcons are 9-12 this season and stand 5-6 for sixth place in the conference, with six games to go, one tonight against Loyola-Chicago and five in the conference.

Bobcats Share 'B' District Mat Title Rangers Surprising 'C' Winners

Not too many people figured Cassopolis to do much in the district wrestling tournament after the Rangers finished a distant third to Class B schools Brandywine and Lakeshore in the Blossomland conference meet.

But Saturday night,

heavyweight Rodger Brumbaugh pinned Don Bailey of Eau Claire in the first match of the evening to give Cass the team title by two points over Berrien Springs in the Class C district held at Constantine.

In the Class B district at Comstock, Brandywine placed

nine grapplers in next Saturday's regional tournament as the Bobcats tied Vicksburg for the team crown. Lakeshore had a school-record seven qualify and was third.

Dave Bock was the only St. Joseph wrestler to get out of the tough Class A district at Ottawa

Hills as the Bears finished 14th with 22 points. Niles couldn't do much better as the Vikings only had Terry Wood qualify and ended up in 15th place with 19 points. Benton Harbor failed to qualify a wrestler.

Covert qualified seven grapplers for the Class D in-

dividual championships, but as a team couldn't get by Holton in the regional held at Allendale.

The Shamrocks looked to be in good shape to take the team title with 10 wrestlers in the final round of competition. But only Mark Maysick, Rick Ruhl, Dave Boal, Larry Glenn and Mike Simko won their matches and Berrien Springs had to settle for second.

Both Eau Claire and Buchanan qualified five wrestlers apiece, Edwardsburg four, Decatur three and Lake Michigan Catholic, Paw Paw and Watervliet each one for the regional at Galesburg-Augusta.

Fennville had Noel Rodriguez at 119-pounds qualify at the Class C district at Hamilton.

The nine grapplers Brandywine had qualify for the regional at South Haven were Steve Kersch, Paul Getz, Kelly Low, Murray Wilson, Mike Bailey, Mitch Jeffrey, Mike McCombs, Scott Adams and Matt Reidenbach.

Lakeshore's qualifiers included Doug Smith, Terry Runge, Scott Hosnedl, Tom Rennhack, Mike Miston, Jamie Lingle and Mark Krager. Joe Offet had the dubious honor of being the only number one seed in the district to not make it to the regionals.

He was beaten in his first match by Scott Kelley of Vicksburg 9-6. Dowagiac had five men make it, South Haven four and River Valley one.

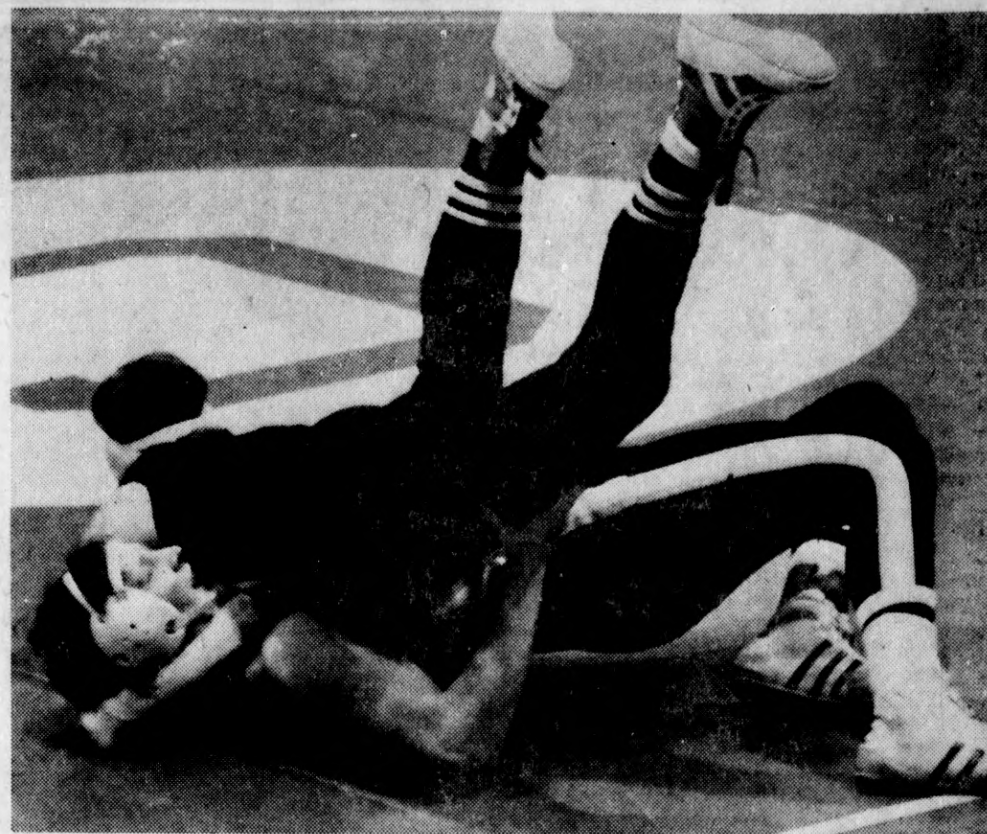

Bock of St. Joe beat Vince Labozetta of Creston 10-4 then topped Randy Bekins of Grand Haven 5-4 in the 145-pound class. In two previous matches, Bekins had beaten Bock twice in overtime. The Bears had four wrestlers that were knocked out in the final round. They were Jim Burkett, Dick Goodman, Bruce Ward and Brian Rose.

Although the Tigers didn't qualify any for the regional at Lansing Sexton, Norman Doyle did make it to the final round before being beaten.

Niles' Terry Wood got by Marco Zanetti of Battle Creek Lakeview 2-1 then beat Jack Nicholson of Grandville by the same score to qualify. The Vikings had Kevin Asmus, John Flood and Jim Frucci make it to the last round until they were beaten.

Mona Shores won the team title in the district with 63 points while Grandville was second with 55 and Lakeview was third with 54 points.

The seven wrestlers that Covert qualified for the state meet were Mario Howard, Kevin Erwin, Ken Erwin, Bozzy Jones, John Collins, Lonze Taylor and J.W. Perry. Allendale and Holton tied in their match for the team championship and it had to go to the fourth tie-breaker step before Allendale emerged the winner.

ANOTHER PIN FOR HOPKINS: Jerry Hopkins of Eau Claire rocks up on Steve Fisher of Decatur in first period action at the Class C district wrestling tournament held Saturday in Constantine. Decatur Wins Controversial Decision Over Watervliet

WATERVLIET — Decatur held on for a narrow 56-55 win over Watervliet here Saturday night.

But Panther coach Ken Marzka believes his team won despite an official's ruling which gave the Raiders the victory.

Trailblazing by the final margin, Watervliet got the ball out of bounds at midcourt. The ball went in to Ken Marzka Jr. who missed a 15-footer. Chuck Brock grabbed the rebound and scored and then the confusion began. Official Larry Klett ruled the basket came after time had run out, so the bucket didn't count and Decatur had the victory.

"We won, we think," Marzka said. "Our video tape indicates that, but we still lost on the scoreboard. The buzzer didn't ring until the ball was in the basket. But the official said the buzzer didn't work right so they didn't count it. We timed it on video tape and it came out the other way."

The win ruined a fourth-quarter comeback which saw the Panthers hold Decatur scoreless for almost the final three minutes. The Raiders held a 56-53 margin with just under three minutes left but failed to score again.

After a basket by Ken Marzka Jr. trimmed the deficit to one, Watervliet promptly turned the ball over five straight times down the floor, including a traveling violation against center Jim Weaver with 17 seconds left.

But the Panthers went into a fullcourt press, and with 12 seconds left Brock stole the ball to set up the hectic final seconds.

Weaver pumped in 23 points and Marzka 16 to pace Watervliet. Guard Kurt Wiese scored a game-high 25 for Decatur.

"We just couldn't stop Wiese," Marzka lamented. "He was nine of 15 from the floor and almost all of them came from outside."

Turnovers also hurt Watervliet, which fell to 7-10. The Panthers turned the ball over 29 times to 21 for Decatur.

The Raiders, who have won 10

straight to up their record to 15-2, hit just 21 of 53 from the floor for 40 per cent. Watervliet meshed 26 of 57 for 46 per cent.

The Panthers lost the game at the free throw line, where Decatur hit 14 of 17 to three of eight for Watervliet.

Decatur also won the junior varsity game 74-58.

Hobbled LMC Women Clobbered By Jackson

Conference champion Jackson humbled the hobbled Lake Michigan College girls 87-47 in Saturday night basketball action at the LMC gym.

LMC got 20 points from Deb Schmid, 11 from Linda Boyd and 10 from Janet Kimley while finishing the regular season second in the league at 4-2 and 12-5 overall. Jackson ended up 6-0 in the conference.

"We had no control of either board," declared LMC coach Liz Miller. "We just didn't have the height to get the boards at

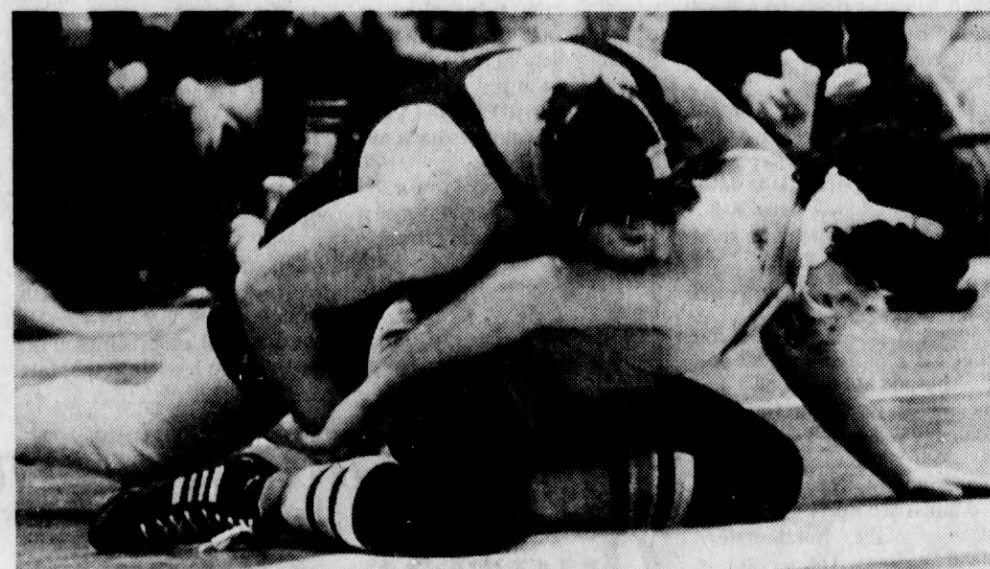

all."

LMC played without injured Karen Simko and Chris Knuth.

LMC now starts tourney action at 8:30 p.m. Thursday at Jackson against Kalamazoo Valley.

Indians Topple Jackson

Usually when an opponent scores 95 points, a coach is not pleased with his team's defense.

But Lake Michigan College coach Art Crump was more than happy with his team's defensive effort in a 102-95 win over Jackson Community College Saturday night at the LMC Gym.

"It may not seem like it but it was our defense which did the job," Crump said. "We went to a three-quarter court press and used a trap defense in the second half and that was the difference."

Jackson had scored 120 points in the earlier meeting between the two teams. But after pouring in 54 points for a first-half tie, Jackson was able to tally just 41 more points in the second half.

LMC grabbed a 74-62 lead midway through the second half and never trailed after that.

Kerry Lee pumped in a career-high 30 points to lead the Indians. Ed Albert and John Taylor each added 18 points, while James Childs had 14 and Jim Bridgman 13.

"It was the best overall balance we've had all year," Crump said. "Really, it's the first time in a long time that we've had everybody healthy. Lee has been hampered by a sprained ankle and Bridgman with fallen arches."

LMC, which upped its league record to 4-8 and overall slate to 8-15, swished 46 of 76 from the floor for 61 per cent.

Bridgman Big Men Arrive In Win Over Saugatuck

SAUGATUCK — Bridgman's big men have arrived.

Juniors Bob Linke and Howie Mutz poured in career-high totals of 34 and 26 points, respectively, here Saturday night to lead the Bees to an 83-64 win over Saugatuck.

The win was the third straight for the Bees, who are 9-2 since Christmas and 12-5 overall. Saugatuck fell to 7-9.

"Our big men are taking the

ball inside more," Bees coach Doug Hendricks said. "We've just become dedicated to the inside game more than we were before. We're just starting to defy someone to stop us from taking it in there."

The 6-3 Linke, who tossed in 22 points in the first half, and 6-4 Mutz also combined for 46 points Friday in a win over Buffalo. The towering duo com-

bined for 28 rebounds to help the Bees to a 51-35 board edge. Mutz came away with 15 caroms.

Bridgman meshed 34 of 59 from the floor for 58 per cent, while Saugatuck hit just 29 of 65 for 45 per cent.

The Bridgman junior varsity upped its record to a brilliant 15-2 with a 70-54 win over Saugatuck. Bill Moreland popped in 26 points.

Whirlpool No. 7 won the team portion of the Blossomland Bowling Association Handicap Bowling Tournament Sunday by rolling a 3394 at Gersonde's Lanes.

Whirlpool ended up beating Ken's Footdown by 75 pins in the two-weekend tourney. Ritter's Critters was third with a 3305 and Oldenburg and Sons finished fourth with a 3212 total.

High game went to Whirlpool's Roger Hearn, who rolled a 255.

Columbus Means Business, Kalamazoo Tops Port Huron

From ASSOCIATED PRESS
The Columbus Owls meant business Sunday night when they took on the Toledo Goal-diggers.

The Owls posted a no-nonsense seven goal victory over the Goal-diggers, 10-3, in International Hockey League action.

Three Columbus skaters scored twice.

Columbus' Ed Kenty scored the Owls first two goals, one in each of the first two periods.

Brian Glenright scored in the first and third period, and Jerry DeMarco struck for two in the second period less than three minutes apart.

Michel Lurcendeau had a pair of scores for the Goal-diggers.

In other IHL action, Saginaw tied Muskegon 3-3, Kalamazoo whipped Port Huron 6-3, and Flint beat Dayton 4-1.

Muskegon and Saginaw ended each period in a tie. John Gravel, Marcel Comeau and Paul Evans were responsible for the Saginaw goals, while Carlo Ugolini, Bob Tombari and Dave Bonter scored for Muskegon.

Saginaw, in first place in the North Division, is 31-19-8.

TIME OUT!

Muskegon, in fourth place, is 24-21-10.

Kalamazoo led all the way, starting with a second period goal by Len Ircandina. Terry Ryan, Bret Callighen, Bob Watson, Mike Wanchuk and Ken Mann also scored for Kalamazoo in the second period.

Bill Watt and Steve Steone scored for Port Huron in the second and Len Chalmers added the final Port Huron goal in the third.

Kalamazoo is now 20-29-7 and Port Huron is 26-21-10.

Frank DeMarco set off a three goal spurt in six minutes with his second period goal for Flint, Murray Hanson and Mike St. Cyr also scored during the six minute outburst.

Brian Stapleton scored for Dayton.

Flint is now 25-21-11 and Dayton is 33-19-6.

Bills Hire

Jerry Wampfler

BUFFALO (AP) — The Buffalo Bills of the National Football League have hired Jerry Wampfler as defensive line coach and Richie McCabe, who once played for the original Buffalo Bills of the American Football League, as defensive backfield coach.

Wampfler, 42, the defensive line coach for the Philadelphia Eagles for the past three years, replaces Stan Jones who left the Bills to join the Denver Broncos in the same capacity.

McCabe succeeds Bill Atkins, who resigned recently to accept a post with the San Francisco 49ers. For the past five seasons, McCabe has been a member of the Cleveland Browns' staff. He was defensive coordinator and secondary coach for the past two seasons.

One vacancy, the receiver coach, remains on the Bills' staff.

Purdue Ready For Indiana

Scheffler Sparks Win Over Ohio State

"The stage is set. We're ready. Monday night here we come."

That was the cry of Purdue Coach Fred Schaus in anticipation of taking on top-ranked and undefeated Indiana Monday night in a game which the host Boilermakers must win to keep alive hopes of finishing second in the Big Ten basketball race and gaining an NCAA playoff berth.

Purdue posted its fourth straight triumph by smashing Ohio State 98-73 Saturday while Indiana had to struggle to down defensively tough Illinois 58-48.

Michigan blasted rival Michigan State 81-64, Iowa defeated 96-82 and Northwestern upset Minnesota 75-69.

Indiana, 12-0, has all but clinched a fourth straight Big Ten title and Michigan, 10-3, has the inside track on finishing second. Purdue at 8-4 and Iowa at 6-5 still have hopes of the runner-up spot.

While Indiana is at Purdue Monday night, Northwestern plays at Iowa, Ohio State at Illinois and Wisconsin at Minnesota.

Purdue, led by Eugene Parker's career-high 25 points and the rebounding of Tom Scheffler, completely dominated Ohio State. The Buckeyes were without star center Craig Taylor who was out with a back injury and scoring ace Larry Bolden saw limited duty because of the flu.

"We can't play much better defensively than we did in the first period of the game," said Schaus. "Tom Scheffler in 26 minutes played the best he ever has at Purdue. When Tom plays with that type of enthusiasm, we play better and that's no coincidence."

Resume Training

The Benton Harbor Boxing Academy has resumed training at 140 East Main in Benton Harbor. Training sessions are being held from Monday through Saturday, starting at 6 p.m.

Indiana was extended to the hill before recording its 51st straight regular season triumph and 31st in a row in the Big Ten. Not until Jim Crews hit four straight free throws in the closing minutes did the Hoosiers clinch it.

Kent Benson led the attack with 17 points, nine of which came on free throws. Benson managed only four field goals, the last coming with two seconds to play. With but three minutes remaining, Indiana had a shaky 52-48 lead.

"I thought Illinois worked hard in its zone and did a good job covering," said Hoosier Coach Bobby Knight. "We made a lot of defensive mistakes in the first half."

Once again it was a matter of Indiana not playing as well at

home as on the road.

"There seems to be a pattern to it except for a few exceptions," said Knight. "It seems that playing at home, we have a tendency to relax and not be as sharp and as aggressive as we have been on the road."

Coach Lou Henson, who has done a magnificent job in his first year at Illinois, said "We should have won it but we couldn't get our free throws. If we had we would have won."

Illinois had 22 field goals to Indiana's 20 but the Hoosiers had 18 free throws to four for the Illini.

Scott Thompson scored 28 points to lead Iowa past Wisconsin which absorbed its 11th straight defeat. Iowa took a 49-41 halftime lead and Thompson hit four straight baskets at the start

of the second half to seal the decision.

Senior Tim Teasley scored a career-high 26 points to help Northwestern break a four-game losing streak. Northwestern grabbed the lead early in the second half but Minnesota tied it at 52-all. Baskets by Teasley and freshman Pete Boesen put the Wildcats ahead to stay.

Ray Williams led Minnesota with 27 points.

Titans Blanked In First Quarter, Lose To Beavers

Dave Gray said. "They weren't able to penetrate."

Eau Claire, which upped its record to 11-7, got 13 points from Terry Adams and Jerry McAfee and 10 from Nathan Lanier. Mark Briney tossed in 11 and John Brink 10 for the Titans, who fell to 7-11.

The Beavers hit on 25 of 65 from the floor for 38 per cent, while Lutheran found the range

on 16 of 41 for 39 per cent. Eau Claire held a 37-32 board edge with Lanier pulling down 10 caroms.

The Beavers also possessed the better floor game with just 10 turnovers to 17 for the Titans.

Eau Claire also won the junior varsity game 61-46. Chuck Hunter tossed in 15 points for the winners and Brett Morris had 19 for Lutheran.

76ers Win Pair Of YMCA Games

Tom Beliske scored 49 points to lead the 76ers to a pair of wins in the Benton Harbor YMCA Basketball League last week. The 76ers beat the Hawks 34-20 and then topped the Bulls 47-26.

Kevin Steinke dumped in 10 points in the Bulls 24-18 win over the Bucks. Dennis Kiewel's 10-point effort helped the Hawks trip the Bucks 24-20.

In the Coloma YMCA league, the Comets toppled the Lakers 30-13 and the Bombers 18-16. The Bulls nipped the Lakers 14-10 in overtime and then lost to the Bombers 48-10. Craig Hauck's 32 points led the Bomber charge.

In girls play, Anita Skidmore pumped in 24 points as the Bluejays got by the Panthers 26-14.

Bob Banask scored 14 points as the Blazers ripped the Bulls 26-8 in the Watervliet YMCA league. In other league play, the Wolverines beat the Pistons 14-4 and the Blazers 12-8. The Pistons nipped the Bulls 8-6.

KEEP AWAY: Western Michigan's Jim Kurzan avoids the defense of Toledo's Stan Joplin by passing the ball to Bronco teammate Jimmie Harvey (30) in Saturday night's Mid-American game at Toledo. Toledo's Ted Williams (44) crouches in his defensive position while Paul Griffin (24) of the Broncos looks on. The Rockets won 88-80 while handing WMU its first loss in 20 games this season. Carson Nets 29 In SMC's 89-80 Win Over Muskegon

MUSKEGON — Buchanan's Bill Carson equaled his career high with 29 points and Jim Powers added 22 Saturday night to lead Southwestern Michigan College to its 18th straight win, an 89-80 victory over Muskegon Community College here.

The win upped the Western Collegiate conference champs league record to 13-0 and overall spate to 20-2. Muskegon fell to 9-4 and 18-6, respectively.

For the seventh time this year, SMC was outscored from the field but won the game at the foul line. The Roadrunners swished 27 of 34 from the foul stripe to a meager two of three for the hosts.

"Our kids are just playing super defense," SMC coach Jim Tansey said. "We've been

under 15 fouls the last eight or nine ballgames and this has really helped us. We zone press from base line to base line. A lot of teams will drop into a conventional man-to-man defense after crossing the midcourt line. By staying with the zone press, our kids know where to go when they hit each line and consequently we're not reaching in."

Carson pumped in nine baskets and added 11 free throws for his total, while Powers swished seven from the field and chipped in eight charities. Bill Benko tallied 16 and Robin Plughaupt 14 for the Roadrunners.

Alvin Charles led Muskegon with 20, while Mike Smith had 16, Ed Buursma 12 and Al

Richards and Leon Manning 10 apiece.

SMC swished 31 of 57 from the floor for 54 per cent, while Muskegon found the range on 39 of 75 for 52 per cent.

Muskegon held a slim 34-32 rebounding edge with Wayne Bateast pulling down 10 and Carson nine for SMC.

Pigeon Pounds Lawton

WHITE PIGEON — Al Biland poured in 31 points and pulled down 14 rebounds Saturday night to lead White Pigeon to an 84-42 win over Lawton here.

The win upped the Chiefs' record to 13-4, while Lawton fell to 6-11.

No one was able to break into double figures for Lawton, who was led by senior Kevin Burke's nine points.

Lawton coach Bruce Bendix missed most of the second half. Bendix was tossed out of the game after picking up three technicals in the third quarter.

Fifty seven fouls were called in the game. White Pigeon went to the free throw line 44 times, hitting 30 while Lawton netted just 10 of 28.

White Pigeon hit on 27 of 56 from the floor for 48 per cent, while the Blue Devils found the range on only 16 of 47 for 34 per cent.

White Pigeon held a 51-38 rebounding edge and turned the ball over just 24 times to 31 for Lawton.

Rockets' 65% Shooting Ends 20-Game Streak Toledo Hands Broncos First Loss

COLUMBUS, Ohio (AP) — "I think we could be the best team in the league by the end of the season if this is any indication," said Toledo basketball Coach Bob Nichols.

The wily Rockets' mentor was referring to his team's almost incredible performance Saturday night in wiping out Western Michigan's dreams of an undefeated campaign, 88-80.

Left in the wake of Toledo's 65 per cent shooting was the Broncos' 20-game winning streak, an all-time Mid-American record, and the sole conference lead. It was Western's first loss in 20 contests this winter.

"We do not like to lose. We do not appreciate that at all," said WMU Coach Eldon Miller. "But that's the way it supposed to be, that's the way we should feel. Maybe we'll find a couple areas where we can work a little harder and prevent that the next time."

"A lot of people are saying 'Well, now the pressure of the winning streak is off,' but I don't feel that a loss ever helps you more than a win. You can learn in any game — whether you win or lose. I don't think that losing a game is good. It's good to win."

So now it's Miami and Western Michigan tied for the MAC lead at 10-1. And Toledo, at 8-3, is just two games back with five conference games to play.

A showdown is set between the two top teams at Oxford, Ohio on March 3.

"We feel that the conference race is not going to be over until March 6, the day of the last game," Miller said. "A lot of people have made so much of the fact that we were unbeaten to this point ... that we had it won, but we didn't feel that way and we still don't."

"We (Western and Miami) both have league games before

that time and I think it is very important that everyone understand that there are many very fine teams in our conference."

Miami moved along side the Broncos by escaping Northern Illinois 79-73 behind Chuck Goodyear's 27 points. Matt Hicks, the conference's No. 1 scorer, had 25 for the Huskies.

Ball State surprised host Kent State 75-61 and the Flashes' fiery coach, Rex Hughes Jr., ordered a special practice 20 minutes after the game's end.

Kent State shot 50 per cent in the first half, only 26 per cent in the second half. "I'd like to think our defense was the cause

of their shooting," said Jim Holstein, the Ball State mentor.

In other MAC action, Ron Hammye's career high of 26 points propelled Bowling Green past Ohio University 67-60 and Leonard Drake hit seven straight shots and scored 25 points in Central Michigan's 74-59 rout of Eastern Michigan.

Nichols called Toledo's offensive performance the best of the season, saying, "It had to be to score 88 points against a great defensive team like theirs. I still say Western Michigan is one of the best teams to come out of the Mid-American in a long time. Tell me who has done what they have."

Miller said he was not surprised by Toledo's performance.

"I thought Toledo played us better the first time around than any other club in the league. We had trouble against their press because we missed assignments," he said.

In one stretch in the first half, the Rockets converted three straight Bronco turnovers into six points for a permanent 30-23 lead.

Dave Speicher, who led the Rockets with 20 points, nine rebounds and nine assists, said, "We lost a tough game at Miami the other night. Tonight was sort of a pride thing."

Then the 6-foot-7 center added, "We were relaxed. We didn't have the pressure that Western had to have on them."

After scoring 27 points, Bronco star Jeff Tyson saw a silver lining in the defeat. "The loss may do us more good than a victory would have," he said.

'Clean' Bo Attracts Recruits

ANN ARBOR, Mich. (AP) — "Oh, hello John. What's going on," said Bo Schembechler, answering a telephone call that interrupted the Michigan football coach during a recent interview in his office.

"Oh, don't worry about that, John," he said, after listening about 20 seconds. "We'll graduate you. You just do what you have to do and we'll get you through. Don't worry about it."

He was talking to junior John Ceddia, a reserve quarterback who has played very little in his varsity career.

"He just had a shoulder operation and is going to have to drop some classes while he's recuperating," Schembechler said. "He was worried that dropping the classes wouldn't let him graduate, but since it is a football injury, I told him not to worry, that we'd just extend his grant."

Perhaps that little conversation best illustrates the recruit-

ing philosophy of Schembechler and his staff: "Take care of the ones you have before you worry about the ones you don't."

"The three things that attract players to Michigan," Schembechler said, "are academics, our winning tradition, and the excellent facilities we have here. Those are what get a recruit interested. The crucial point comes when the prospect visits the campus — does he like the players and coaches he meets?"

Recruiting has a bad name now, especially in the wake of the National Collegiate Athletic Association sanctions against Michigan State for alleged violations.

But, despite the belief by some critics that every school is guilty of at least minor recruiting violations, Schembechler insists Michigan is clean of such wrongdoings.

"I talk to everyone who is going to do any recruiting for me

to make sure there are no slipups," Schembechler said. "They all know what we can say to a recruit and how often we can say it."

"We can phone all we want to, and if we accidentally bump into a prospect, we're allowed to say hello — the NCAA calls it the 'Rule of Civility' — but we can't mention Michigan."

"Coaches at Michigan are picked first on their ability to coach and teach," said Schembechler, whose teams have a 66-9-3 record in his seven years with the Wolverines.

"I turned down a lot of coaching offers coming out of Miami (Ohio) before I accepted the Michigan job," Schembechler said, "and I turned them down because I wanted to coach at a school where I did not have to compromise my position with the athletes."

"I never told Rick Leach (freshman starting quarter-

back) he would start as a freshman here. Some coaches will tell all thirty recruits that they will probably start. I don't work things that way."

Jackson Long-Distance Runner Faces Punishing Odds

By JOHN O'CONNELL
JACKSON, Mich. (AP) — How do you spell courage? How do you spell determination? Spell them Mike Woolsey.

The former Lumen Christi High school distance runner, now a member of Jackson Community College's cross-country and track teams, is a great example of both qualities.

Mike has been battling physical obstacles since August 1973 when a bicycle he was riding was involved in a collision with a car that almost claimed his life.

Mike suffered severe head and leg injuries, both jaws were broken and his left eye was damaged.

Doctors at the University of Michigan Medical Center told him that he would never be able to run again—but the plucky Christi senior surprised them.

By November, Mike again was running for the Titan cross-country team, and he finished fourth in the state Class B meet.

The following spring, Mike added another one mile championship to the Woolsey family collection by capturing the Jaycee Classic race. His dad was an outstanding miler for Jackson High and was state Class A champion and record

holder for the event in 1940.

Mike enrolled at Jackson Community College in the fall of 1974 with high hopes of becoming one of the top performers for coach Bob Oring's Jets.

But misfortune again struck Mike, who never has complained or asked for sympathy in his battles with hard luck.

He developed hypoglycemia (low blood sugar in layman's language) which sapped his energy and would have made a less determined young man call it quits.

Mike was put on a strict sugar-free diet but was allowed to eat a peanut butter candy bar before each meet to give him needed energy.

He now has the hypoglycemia problem under control—but hasn't the energy needed to compete in the longer races.

Mike will run the half mile and perhaps the 1,000-yard run

this winter.

Since last September, Mike has been battling another problem, but it didn't stop him from competing in cross-country and it won't sideline him for indoor track.

He now has troubles with both knees. The bones of his

legs are grinding away part of his kneecaps.

One of his kneecaps has completely deteriorated, and the other has started to break up.

"My knees hurt, but I can bear it," says Mike. "It would hurt a lot worse if I couldn't

run."

His coach at Jackson CC, Jerry Reis, describes Mike as a "real likeable person" who works hard and never complains.

"I have told Mike if his knees start bothering him during practice runs to drop out,

but so far he hasn't.

"Mike has one of the finest attitudes of any person I have ever met, a good sense of humor and is an inspirational leader."

"I would like to have a dozen more just like him."

JOHN P. ROCHE A Word Edgewise

There are two ways of looking at the massive Soviet build-up of nuclear and conventional arms both in Eastern Europe and Central Asia. The first is that the Politburo collects tank divisions (49), motorized divisions (110) and airborne troops (7) the way I collect postage stamps.

This notion is not without a certain naive charm — indeed, a significant number of senators and representatives seem to be under its spell.

However, if you look at this incredible array of hardware with any historical perspective, you suspect it has been accumulated with a definite purpose. Leaving aside the nuclear strategic stockpile for the moment, what, for example, is the value of seven divisions of paratroops? The obvious answer — which almost got a practical

demonstration during the 1973 Yom Kippur War — is that they provide a fast intervention force anywhere in Europe or the Middle East.

Then look at the conventional deployment in central and eastern Europe (as stated in the International Institute of Strategic Studies latest authoritative analysis of the "Military Balance: 1975-76"). Leaving out the Soviet forces in the eastern area of that nation, there are 31 divisions (14 tankers) sitting around in East Germany, Poland, Hungary and Czechoslovakia. Why? A remedy for unemployment? If you add the forces in the European section of the U.S.S.R., there are an additional 63 divisions (22 tankers). The U.S. has a grand total of roughly 16 divisions, numerically perhaps the

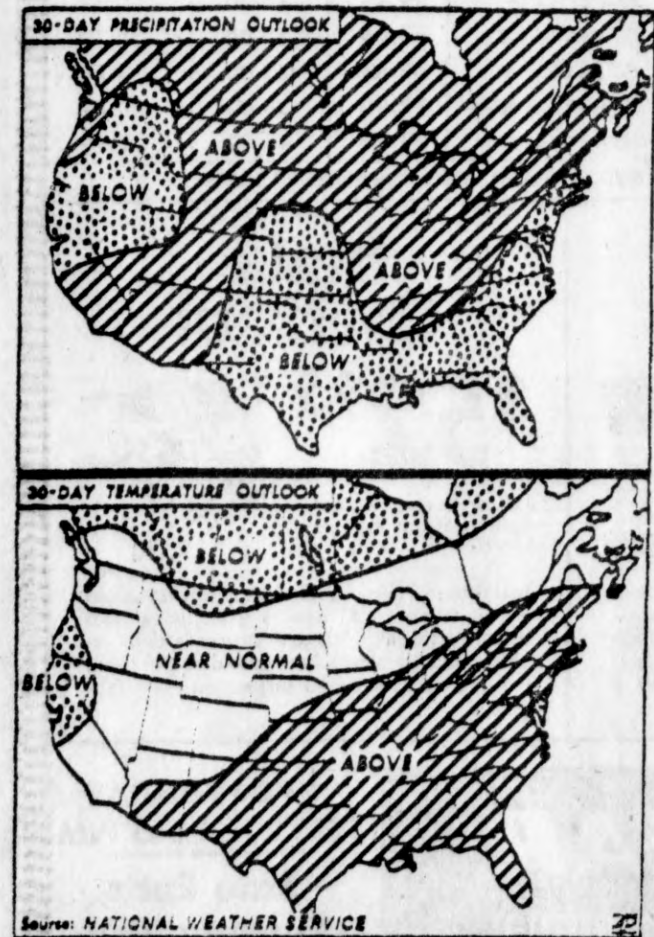

equivalent of 30 Soviet-sized units; ours are scattered around the world from Korea to Western Europe.

What precisely is the point of this Soviet exercise in immense conventional overkill? At this point we should slot in the tremendous growth over the past decade of Russian strategic nuclear armament, clearly designed to neutralize the United States in the event of a conventional war in Europe. Particularly if that war is not aimed at our NATO allies, but at another target: the Balkans.

Which leads us to the fact that Marshal Tito is 84, and the Albanian leadership is rapidly approaching old age. Albania is one of those Communist deep-freezes, like North Korea, but it is plain that the two men who have brutally run that small nation — Enver Hoxha and Mehmet Shehu — are worried: They have been running annual party purges for the last three years. (Both are allegedly ill, and you can sense the hermetic atmosphere from the fact that boss Hoxha has not been out of the country since 1961.) The Albanians have some reason for concern: back in 1947, when Yugoslavia was a militant Stalinist stronghold, Milovan Djilas asked Stalin what to do about those obstreperous Albanians — Stalin replied genially, "Invade!"

But Yugoslavia is the big prize, and there is no reason to believe that Chairman Brezhnev does not believe it the duty of the Soviet Union to liberate it from "right-wing revisionism" when the time is ripe. By the time somebody got an emergency session of the United Nations Security Council into session, there would be 4,000 tanks, half a million men, and full air-cover dominating Yugoslavia, and a couple of paratroop divisions would be sitting in Tirana.

This would, of course, be accompanied by the usual political warfare smokescreen: Pro-Soviet Yugoslav exiles would proclaim themselves the legitimate government and ask for Soviet support. Chinese support for Albania could be discounted. What can we do? Pray, perhaps.

'Red Squad' Files Ruling Due

LANSING, Mich. (AP) — Another chapter in the history of the "Red Squad" files could be written Feb. 20 in the court of Wayne County Circuit Judge James Montante. Montante last June issued an order prohibiting destruction of the 50,000 files, gathered by State Police in past decades, pending the outcome of a class action suit brought in his court by 14 plaintiffs. The suit was filed on behalf of anyone illegally investigated by the State Police unit. But this week, Atty. Gen. Frank Kelley asked Montante to amend his order to permit destruction of all the files March 16. Those belonging to the 14 plaintiffs would be excluded. Kelley made his motion because Montante's order conflicts with another issued in a separate suit last month before Ingham County Circuit Court Judge Thomas Brown. Brown ordered destruction of all the files

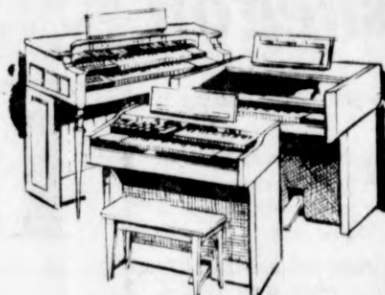

except those of the 14 named plaintiffs. But he gave anyone who wants his file preserved until March 16 to petition his court. Kelley asked for a Feb. 20 hearing on his motion.

Rate-Setters To Testify

LANSING, Mich. (AP) — The three men who set rates for Michigan's gas, electric and phone customers are expected to testify Tuesday before a special legislative committee probing utility rate-setting.

Public Service Commissioners Daniel Demlow, Lenton Sculthorp and William Ralls will appear before the committee, headed by Rep. Howard Wolpe.

Cloris Leachman: Success Came Late

Cloris Leachman has been in show business for almost 30 years, but success was late in coming. Unlike most actors, she claims she didn't mind waiting all those years because instinctively she knew success would come eventually and the financial rewards were not of overriding importance.

Her 23-year marriage to producer George England is unconventional to say the least. They live apart and together but Cloris feels their's is as solid a marriage as any.

She's simultaneously romantic and anti-establishment, easy-going and frantic — she's a dead-ringer for "Phyllis," the crazy, lovable character she

portrays on CBS-TV.

Find out more about this exciting, enigmatic personality in this week's Family Weekly.

Read it Saturday in The Herald-Palladium.

MORE PENALTY REDUCTIONS SOUGHT State House Will Renew 'Pot' Skirmish

LANSING, Mich. (AP) — The state House is slated for another skirmish this week over a controversial bill reducing penalties for possession of small amounts of marijuana.

While the bill is scheduled for a final vote, another attempt may be made to reduce the penalties even further. They were increased last week over the limits originally set by the bill.

The measure, sponsored by Rep. William Bryant, R-Grosse Pointe, would provide a maximum 90-day jail sentence and a \$100 fine for a person convicted of possessing or using any amount of marijuana.

Bryant said that before a final vote is taken he will reintroduce amendments, defeated by the House last week, that would eliminate jail sentences for first offenders using marijuana. That was the form in which the bill emerged from committee.

The Bryant bill also provides a maximum 90 days in jail and a \$100 fine for nonprofit transfer of up to 18 grams of marijuana. That would cover passing a

marijuana cigarette around a room, for example.

The current penalty for pos-

sessing any amount of marijuana is a maximum one year in jail or a \$1,000 fine.

Bryant said, however, that he believed Gov. William Milliken "will be more comfortable"

with the new version of the bill, which does not go quite so far toward decriminalization.

The Senate, meanwhile, is slated to discuss two bills to protect the rights of nonsmokers, as it tackles a calendar filled with secondary issues.

One bill would restrict smoking in food stores to designated areas, and the other would restrict smoking in public meetings. The latter may be touchy as the Senate tries to work out ways public bodies — including itself — can conduct business as usual and yet help the nonsmoker.

A third smoking bill has gone to a House-Senate conference committee, which is scheduled to meet to seek an agreement. It would provide for nonsmoking areas in restaurants.

The House version would require that all restaurants provide such sections, while the Senate version would not require them unless a patron asked for such a section. The House rejected the Senate's weaker version late last week.

Another bill in conference is

expected to see more work — a measure to define and outlaw deceptive trade practices. The major dispute is whether the legislature or a special commission would have the power to add extra deceptive practices to a list of those forbidden by law.

No resolution of that key bill is expected this week.

Going Back Today In History

By ASSOCIATED PRESS

Today is Monday, Feb. 16, the 47th day of 1976. There are 319 days left in the year. George Washington's birthday is observed today.

Today's highlight in history: On this date in 1959, Fidel Castro was sworn in as the Premier of Cuba.

On this date: In 1804, a force of American servicemen under Lt. Stephen Decatur slipped into the North African port of Tripoli and burned a U.S. Navy frigate which had been captured by pirates.

In 1846, the first Texas state legislature met in Austin.

In 1871, the Franco-Prussian War ended in a defeat for France.

In 1862, during the Civil War, some 15,000 Confederate troops surrendered at Fort Donelson in Tennessee.

In 1918, the English port of Dover was bombed by a German submarine during World War I.

In 1967, 13 American helicopters were shot down in fighting over South Vietnam.

Ten years ago: The World Council of Churches urged the U.S. to halt bombing in North Vietnam and the North Vietnamese to stop infiltrating South Vietnam.

Five years ago: U.S. Secretary of Defense Melvin Laird predicted difficult days ahead in the South Vietnamese drive to cut Communist supply lines in Laos.

One year ago: U.S. Secretary of State Henry Kissinger and Soviet Foreign Minister Andrei Gromyko opened diplomatic talks in Geneva.

Today's birthday: British director John Schlesinger is 50 years old.

Thought for today: Sin and dandelions are very much alike. To get rid of them is a lifetime fight, and you never quite win it. — William Allen White, American writer, 1868-1944.

Bicentennial footnote: Two hundred years ago today, an American military report to the Georgia listed the problem of defending a long seacoast full of harbors and inlets, and the difficulty of guarding the southern borders from incursions from Florida.

community action agency cites CHURCH SUPPORT MAJOR "75" SUCCESS

from the chairperson...
"It Was A Very Good Year"

by Nora Jefferson,
BCA Board Directors

"We thank God, our dedicated Board of Directors, a hard-working staff, and many supportive private and public agencies who helped BCA meet and exceed its goals of service for 1975."

It was a year of outstanding growth and achievement, and we acknowledge with appreciation the help and moral support from the churches and agencies who have helped us. Church support was especially significant for Berrien County Action this year because we had to resolve some differences that appeared to many as controversial, and the moral as well as financial support of the religious community helped us to work through these particular issues.

The most significant support was, of course, the generous donation of the Louise Beebe Memorial House by the Friendship Baptist Church of Benton Harbor, as our parenting center and family planning outreach and counseling center for Berrien County. The Louise Beebe House was the focal point of much of BCA's effort to fill a need in the community for reliable family planning outreach services, and for sensible counseling to meet the many problems that our young people face with growing up in today's fast moving society.

QUIET, CHRISTIAN SUPPORT

But what we appreciate most of all as a board of directors is the consistent, quiet, Christian support we have received by the many churches in Berrien County for our programs to help the poor lead lives of dignity, free from the pains of hunger, cold, of helplessness of old age. Our churches have been ready with food for our emergency food projects, cash for restocking the food bank, clothing and transportation for emergencies, furniture and shelter and advocacy when called upon.

The Coloma United Methodist Church has provided space for the north county outreach and community services center, and has added the participation of Rev. Carl Hausermann to the BCA Board of Directors.

The Berrien Springs Seventh Day Adventist Church, Spanish, has hosted BCA board meetings, and has encouraged other churches in Berrien County to share with BCA through the Generous Thanksgiving offering of the combined services. Rev. Orval Scully, pastor of the Spanish Seventh Day Adventist Church, is also a valued member of the BCA Board of Directors.

The Beebe House was the gesture of community concern that turned the corner for BCA in its quest for added services to school age parents, many of whom are in need of medical, social, and rehabilitation services. We are proud to report that since the dedication of Beebe House in October, Berrien County Action has received grants for family planning outreach from the United States Department of Health, Education and Welfare, and will soon begin its teen outreach and referral services designed to help young people avoid the pitfalls of childhood pregnancy.

BICENTENNIAL GRANT FOR FAMILY PLANNING

The success of BCA in family planning led to the award of a Bicentennial Commission for a volunteer staff person working with the family planning program in Berrien County. This grant will pay the salary of the volunteer, and will help implement a workable program to improve the life chances of young Americans — an idea that the Michigan Bicentennial Commission felt was worthy of their support as a "new horizons" project.

The youth members of Methodist Peace Temple, Benton Harbor, were concerned enough about the bare tables of the poor in Berrien County that they contacted several fund raising efforts, including working on Saturday to raise money to buy toys, gifts, and food for the families less fortunate than they would be at Christmas. These young people, led by Assistant Pastor Smith, were living their faith, and helping BCA do a better job of serving the needy at Christmas.

In Coloma the churches joined in a toy and gift giving effort of BCA that made the holidays much happier for many north county children this Christmas.

The United Ministers of Buchanan, responding to the crisis of unemployment in south county, presented BCA staff supervisor Louise Price with a generous check just a few days before Christmas. This money was added to the staff fund for food and gifts to the elderly on Christmas Eve, our busiest day of the year. Thanks to these men of God, the Christmas of many older people was more bountiful and happy this year.

Other churches throughout Berrien county have contributed to our work, and to each of them we express our deepest gratitude. We need your continued support in 1976.

WHAT BERRIEN COUNTY ACTION MEANS TO YOU

1. As a Christian, Berrien County Action means sharing, and caring, for those less fortunate than ourselves.

Help, in an emergency, for the aged, the poor, the confused, the hungry, the homeless, not in some far away land, but right here, right now, at home in Berrien County.

2. As a Businessman, Berrien County Action Means Business

Berrien County Action employees buy in your stores, and bring dollars into other businesses and services in your community. Berrien County encourages local initiative in support of local business. Winterization supplies or emergency food and clothing, it means dollars in the cash register of a local business.

Berrien County Action teaches habits that help dollars do double duty. Utility bills and rent payments are taught to be important priorities, and money management skills are developed by staff at BCA. BCA builds the stability of your business, and brings in new customers.

3. As a Citizen, Berrien County Action means economy.

Cash dollars go farther with the community action agency than with any other federal or state funded program. The emphasis at BCA is on volunteers, contributions, and coordination of services for greatest economy. We help people learn how to save time and steps, avoid red tape, and get the job done right the first time. We work harder to solve the problems of people, rather than sending them from one place to another. Our staff is trained to know where to go, who to see, and what to do to solve problems of unemployed head of household, no heat, no transportation, medical needs, hungry or neglected children, school problems, and family crisis.

HOME WINTERIZATION

Installing insulation, weather stripping, caulking, replacing storm doors and storm windows is a project that saves energy and helps keep poor people warm. BCA winterized 83 homes of low income people last year in Berrien, Cass and Van Buren Counties. The emphasis of the program is for aged, blind, and disabled.

COMMUNITY COORDINATION

Berrien County Action sponsored a Human Services Seminar last September to bring together all organization and agencies, who deal with services to people. Over 260 people attended the Seminar and 72 organizations were represented. The Seminar was designed to expand the knowledge of human resources in Berrien County and to help solve the problems of service gaps and duplications.

BCA FUNDS COME FROM MANY SOURCES To Serve The Poor in Many Ways

Income Source	Amount	Purpose
Community Services Administration	68,400	General administration, Central office staff
Community Services Administration	25,000	Home Winterization
Community Services Administration	8,482	Emergency Fuel
Michigan Department of Social Services	5,128	Home Winterization, SSI only
Department of Commerce Title X	64,000	Jobs for Unemployed - Home Winterization Project
Health Education and Welfare	51,000	Family Planning Services
Michigan Bureau of Community Services	47,000	Health Education and Referral to Services
Michigan Bicentennial Commission	3,900	Volunteer - Family Planning Program
Comprehensive Employment and Training Act-Berrien	89,000	Jobs for unemployed - winterization, outreach, bookkeeping services

In addition, Berrien County Action generates in-kind contributions as required for match to federal fund.

BCA HAS BICENTENNIAL PROJECT

A special Bicentennial Grant was given to BCA by the Michigan Bicentennial Commission. Our Bicentennial mobilization volunteer will help coordinate family planning efforts to teens in target areas. This Bicentennial effort is designed to have lasting effects into the next century.

"LOOKING AHEAD TO GROWTH AND SERVICE IN 1976"

Progress, Plans and New Programs, by Helen L. Ford, Executive Director — No man or woman wants to be poor, pitied, or powerless. Each person wants to be respected, and to lead a life of achievement, making his own way whenever possible. It is the mission of the community action program to reach out and help people learn how to help themselves—to break the chains of ignorance, poverty and powerlessness that keep them slaves to the systems of welfare and helplessness. We reach and teach so people can lift, rather than lean. To each client of BCA we offer the challenge, "Learn, Earn, Seek, Listen, and Emancipate Yourself from Poverty." In order to help our client, we promise to, "Educate, Negotiate, Advocate, Mediate" and to help him find out where to go, who to see, and what to do to solve the problems he can solve. BCA is a handle, not a crutch. Our programs for 1976 will continue to reach and teach the poor in the areas where there is a need for service, advocacy, or mobilization of resources. Some of the programs on the drawing board for 1976 are:

HEALTH CENTER—a feasibility study will be conducted to determine if a community health center providing outpatient care and minor surgical services would be feasible for the Benton Harbor/Benton Township community. A task force for this study is being organized, and will begin its work in February.

SENIOR SERVICES—increased services to senior citizens, especially those in isolated parts of the county is planned. Continuation of the home security and outreach program is assured. We will investigate added resources to serve more senior citizens.

CITIZEN PARTICIPATION—Training programs for new board members, and orientation in program guidelines for advisory boards will be scheduled for mid-winter, summer and fall of 1976. We support full citizen participation, and endorse the federal and state requirements for citizen input in all programs funded with tax dollars. A special board training allowance will be included in all program budgets of BCA.

WINTERIZATION—the greatly expanded winterization project will add funds for service to more homes. We will train homeowners and help them in simple home maintenance to save on fuel. A special project, "Operation Price" will focus on do-it-yourself projects for the low income person.

HEALTH—Our new Health Education and Referral To Services (HEARTS) project will concentrate on the need for school children to be more careful with personal and home hygiene, to wash before meals at home and away, and to know the symptoms of diseases before they get out of hand. This is a home-school project to attack the spread of dysentery, colds, flu, and other communicable diseases. Schools will be given a small scholarship to publish HEARTS Newsletters in their buildings. HEARTS Newsletters will be aired on radio, and HEARTS workers will visit homes to help homemakers practice good hygiene in the kitchen, bath, and washing of family laundry.

FAMILY PLANNING—We will begin the teen outreach family planning project with 6 teens on staff, and will build a volunteer corps of 40 young adults and other citizens to help reduce the epidemic of childhood pregnancies in our community.

COMMUNITY PICNIC—BCA will observe the Bicentennial with a Picnic and Exhibition in Niles this summer. All participants in the programs of BCA are invited to attend and help observe the 200th birthday of our nation and to plan for ways to wipe out poverty in our lifetime.

Camper Park Opposed In Coloma Township

COLOMA — A proposed zoning variance that would permit the construction of a resort campground in Coloma township has stirred opposition

from some township residents.

Among them is Mrs. Paul (Margaret) Boisen of 5949 Coloma North road who insists that the proposed campground

resort would endanger wildlife, open the area up for commercial development and add even more traffic congestion to Coloma North road.

She said she and other opponents of the campground will present petitions to the Coloma township zoning board of appeals which is scheduled to meet on the issue at 1 p.m., Tuesday at the township hall.

Mrs. Boisen said she believes about 15 to 20 adjacent and area property owners have signed petitions opposed to the zoning exemption.

The resort campground has been proposed by Mr. and Mrs. Larry Bittner, Carmody road, Benton Harbor.

The Bittners said the special exemption they seek would not alter the zoning of adjacent areas and would not destroy the agricultural surrounds.

They want to develop the resort on a 29-acre tract of land now owned by Mrs. John (Corrinne) King, 50, a widow, and her four stepchildren. The land, known now as Hidden Acres, is adjacent to Little Paw Paw lake, just off Coloma North road.

The land is presently zoned for agricultural use and must be exempted before the proposed resort construction can begin.

The Bittners say their five-year development plan calls for 25 sites now and an additional 25 later for travel trailers for weeklong or weekend stays during the summer only. Single over-night stays would not be permitted, they say.

Less than six acres of the 28 acres would be used for the campground area, according to the Bittners.

The Benton Harbor couple presented their resort plan to the township planning commission last November. The planning commission referred it, without taking action on it, to the zoning board of appeals.

Mrs. Boisen said area residents did not know of the proposed campground project until a petition asking for approval of the special exemption was circulated in the area.

Members of the zoning board of appeals are John McCrery, Robert Becht and John Steele.

PROPOSED CAMPGROUND: Hidden Acres is a Coloma township tract of land that has been proposed as a site for a trailer campground. Proposal will require zoning variance that some township residents

are fighting. The 29-acre parcel is now owned by Mrs. John (Corrinne) King. Land is on Little Paw Paw lake, just off Coloma North road. (Cliff Stevens photos)

OPPOSE CAMPGROUND: Mr. and Mrs. Paul Boisen of Coloma township have gathered some 15 to 20 signatures of other Coloma township property owners against proposed zoning variance that would permit construction of a campground in rural area northeast of city of Coloma. Zoning variance and campground have been proposed by Mr. and Mrs. Larry Bittner, Carmody road, Benton Harbor.

Bangor School Committee Selects Board Candidates

BANGOR — A Bangor citizens group instrumental in the recall of five school board members here announced today

it is endorsing five handpicked candidates for election to the school board, according to Roy Wiles, group chairman.

The group was formerly called the Bangor Recall committee but has now changed its name to the Bangor School Unity association, Wiles said.

Last week Gov. William Milliken named three interim board members to serve until the March 22 special election to fill the five vacancies. All three have said they will not be candidates in the March 22 election.

The five candidates being endorsed by the association are Dr. Frederick Durham, Mrs. Charles (Mildred) Royal, Mrs. Leland (Clara) Singer, Harold Wright and George Denny.

Wiles said nominating petitions for all five candidates were turned in last night to Mrs. Peggy Phillips, newly elected secretary of the school board. Wiles said the association "carefully screened" a list of 50 potential candidates "to eliminate any possible conflict of interest." He said after further screening, detailed questionnaires were supplied those remaining candidates indicating a desire to serve on the school board. Final selection was made, based on the candidates answers to the questionnaires, he said.

Dr. Durham, 46, is owner-operator of Schooner Hill Orchards, Columbia township, where he resides with his wife, Elizabeth, and three children. Dr. Durham did his graduate degrees studies in English literature and language at the University of Southern California, the University of Montreal and Sussex College of Technology. He holds teaching certificates in California and Canada. In addition to 11 years teaching experience at the college level, he has authored numerous articles and reviews and was a producer-director of several educational films. He is a candidate for the board term expiring in June, 1979.

Mrs. Royal, 55, candidate for the term expiring in June, 1978, is employed by the Bloomington school system as director of the federally funded program for low achiever students and as a reading specialist. She has had 17 years teaching experience, including 10 in the Bangor schools. She received her bachelor and master degrees from Western Michigan university. She and her husband, Charles, reside on M-43 East, in Arlington township. They are the parents of four children.

Mrs. Singer, 35, candidate for the term ending, June, 1977, is currently employed in the outpatient office of South Haven Community hospital. A member of the Bangor PTO, she has six years experience in the business field. She and her husband, Leland, reside at 3122 North

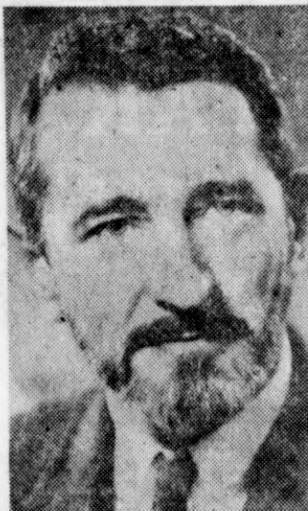

Warner road, Arlington township, with their seven children.

Wright, 51, candidate for one of the terms expiring in June, 1976, has been a local blueberry grower for the past 26 years. In addition, he manufactures and sells lithography and etching presses. Active in Bangor civic groups, he and his wife, Nancy, reside on CR-384, Grand Junction, and are the parents of two daughters. His wife was a member of the blue ribbon and recall committees.

Denny, 49, the other candidate for the term expiring in June, 1976, is foreman of New Products corporation, Benton Harbor, die repair department, where he has been employed for the past 26 years. He formerly served as secretary-treasurer of

the West Brick school board, before the school was annexed by the Bangor school system. A veteran of World War II, and past president of the Bangor Viking club, he and his wife, Rosemary, reside on 70th street, and have two children.

Wiles said the association "believes each of these candidates are committed to developing a school system that is responsive to the community, yet dedicated to providing a useful education for all the students."

South Haven Merchants Plan Sale

SOUTH HAVEN — Downtown South Haven merchants will sponsor their annual Washington's birthday sale Friday and Saturday.

The sale is sponsored by the retail division of the Greater South Haven Area Chamber of Commerce.

Stores will be open until 8:30 p.m. Friday and until 5:30 p.m. Saturday.

MOD Campaign Materials Ready On Wednesday

March of Dimes workers in St. Joseph may pick up their campaign materials Wednesday at 7 p.m. in Maud Preston Palenske Memorial library, according to Rod Goodchild, chairman of the city campaign which starts Feb. 21.

South Haven Police Probe 2 Woundings

SOUTH HAVEN — State police from the South Haven post investigated two assaults Saturday that apparently stemmed from domestic problems.

Willie Foster, 33, Briar Hills apartments, South Haven, was listed in satisfactory condition at South Haven Community hospital, suffering a gunshot wound to the right abdominal area.

Police said Foster reported being shot as he left his residence about 7:10 a.m. Sa-

turday. His wife, Eula Foster, 28, of the same address, was charged with felonious assault in connection with the incident.

In another case, Dorothy Hall, 58, 58th street, Pullman, was released after treatment at South Haven Community hospital for a stab wound to the back.

Police said Mrs. Hall reported being stabbed with a carving fork during an apparent argument at a relative's residence about 6:55 p.m. Saturday. The incident remains under investigation, police said.

Berrien Township Panel Will Award Cash For Best Mailboxes

BERRIEN CENTER — The Berrien township Bicentennial committee has announced it will award four cash prizes to the winners of a mailbox decorating contest it is sponsoring for all township residents. The four categories are, most original mailbox; most colorful; most in accord with the Bicentennial theme; and mailbox plus supporting decorations most in accord with the Bicentennial theme, according to Mrs. Lois Foster, secretary of the committee. Entry names and addresses must be submitted by June 1 for judging the week of July 4 to Mrs. William Miller, Long Lake road, Berrien Springs, or to Bruce Foster, 3701 M-140, Niles.

Coloma Gladiolus Festival Adds Beard-Growing Contest

COLOMA — The Coloma Gladiolus festival committee has announced it is sponsoring a contest for men only — a beard-growing contest. Male residents of the Coloma school district have been invited to nurture their beards for the next six months in preparation for a beard judging next Aug. 6, according to Mrs. Kenneth (Rita) Tibbs, a committee member. There will be five winners in five categories and each will receive a prize, she said. Contestants must enter the contest clean-shaven except for mustaches, Mrs. Tibbs said. Entrants may register at the Coloma township hall during normal business hours from now until Feb. 27, she said.

May Include 'Secrecy Law'

WASHINGTON (AP) — The plans for a streamlined intelligence community accountable to the president is expected to include a secrecy law which would make it a crime for high government officials to leak secrets, according to administration officials.

The plan is anticipated sometime this week and is expected to include, aside from more presidential authority over intelligence operations, beefed up inspectors general in each of the spy services to report improprieties.

New TV Faces

SEOUL, South Korea (AP) — New faces are appearing in South Korean theatrical and television shows as the result of a campaign against marijuana users. Three new arrests today brought to 57 the number of popular entertainment figures arrested or booked since the campaign began last November.

Rep. Gast Slated For 'Eye-Opener'

Rep. Harry Gast Jr. of St. Joseph will be featured speaker at a breakfast meeting of the Twin Cities Area Chamber of Commerce next Monday, Feb. 23. Gast, representative from the 43rd district, will discuss "The Present and Future as I See It in Lansing" at the February legislative "eye-opener" to be held at the Ramada Inn south of Benton Harbor.

A lifelong resident of St.

Joseph, Gast is chairman of the Republican caucus in the house and serves on committees for elections, towns and counties, conservation and taxation.

The meeting will begin with breakfast at 7:30 a.m. and the program will end at 9 a.m. Reservations at \$4 per person may be made by contacting the Chamber of Commerce, 777-B Riverview drive, Benton Harbor.

TOO MUCH ODOR FOR NEIGHBORS

'Cat Lady' Must Give Up Her Felines

BERKLEY, Mich. (AP) — Over the past 33 years, Virginia Daly has bred hundreds of cats at her home and built a national reputation as an authority on the animals.

But now, because of a neighbor's complaint of a heavy cat odor emanating from her home, Mrs. Daly apparently will be forced to give up all but three of the 40 cats currently in residence.

Mrs. Daly, a 66-year-old grandmother, was found guilty last October of violating a 1974 city ordinance that limits the number of cats and dogs in a

home to a total of three.

She also was found guilty of not having a license to harbor cats and was ordered to dispose of the cats by July 1.

Although her attorney has filed an appeal, Mrs. Daly already is laying plans to dismantle her "cattery" as such homes are called in the trade. She has located homes for 20 of the cats.

"I was guilty," she said. "It was obvious that I had more than three cats. I don't blame the judge. He was fair but my being guilty was not the point." Judge Roy Danniels

disallowed testimony about a 1955 permit to operate a cattery issued by the Berkley City Council sitting as a zoning board. The judge said the board had no authority to issue the permit.

"Basic fairness doesn't allow the city to, after 20 years of approving of her operation, come in and in three months say, 'Get rid of your cats,'" said Mrs. Daly's attorney John Leh.

City Atty. John H. Norton, who prosecuted the case, conceded that the intent of the 1974 law was to limit the number of animals running around loose.

A city code enforcer, Roy M. West, was the main prosecution witness. He said the action was taken because of complaints by neighbors about the smell of the house. One such neighbor testified at the trial.

Mrs. Daly said she has been raising the cats for 33 years in six-foot sanitized cages in her basement and part of her garage.

Current residents of the house, besides Mrs. Daly and her 73-year-old husband, Whitman, include her purebred Siamese, Abyssinian, Curly Rex, Burmese and her own

breed, Ocicat.

"My cats are my hobby, they are not a business," she said. "I have made a lot of friends but I have never made any money raising cats."

"Most people who have catteries kept it a secret from the general public for just this very reason," she said, complaining about the city ordinance.

"I guess I was just too honest. I've never concealed anything. For years I was listed in the Yellow Pages (under Dalai Cattery) and people call me constantly about their cats."

\$40 Million In Claims

LANSING, Mich. (AP) — Gov. William Milliken joined three other Midwest governors last week in seeking a speed-up in federal processing of more than \$40 million in Michigan claims for welfare, Medicaid and social services programs. Milliken asked David Mathews, Secretary of Health, Education and Welfare, to "work with us in establishing more appropriate procedures for handling future differences." Milliken signed a telegram to Mathews along with Govs. Otis Bowen of Indiana, Wendell Anderson of Minnesota and Patrick J. Lucey of Wisconsin. Claims of the three states total over \$175 million and have been deferred or "provisionally disallowed" by HEW.

White House Has Doubts

WASHINGTON (AP) — The Ford administration is shying away from a confrontation with Congress over military aid and is pessimistic about the chances that the lawmakers will support the President's veto of a public-works jobs bill. As the House and Senate return from their mid-February recess, the week opens with the traditional reading in the Senate and House chambers today of Washington's farewell address. The Senate also is scheduled to debate major changes in the copyright laws, but final action on that complex bill probably won't come until late in the week.

All markets, including the New York Stock Exchange, were closed today in observance of George Washington's birthday. Washington's birthday actually is Feb. 22 but it's celebrated today.

Steel Prices Going Up?

CLEVELAND (AP) — Industry Week magazine said today steel users who were worried about availability of steel in the heavy-demand period of 1973-74, are now concerned about price.

The industrial weekly said there was "good reason to believe there are steel price increases ahead this year, particularly in flat-rolled products."

Predictions of higher prices "are based on rising demand, continued insistence by steel-makers that their increasing costs are not being covered by current price levels and the lessened impact of imported steel products," Industry Week said.

The cost pressures were said to be most severe in flat-rolled products.

The magazine said at the last price hike on sheet products, which averaged 5.7 per cent last October, one flat-rolled producer noted that increases on sheet products during the preceding 18 months had been far below the merchant bars, plates and structurals, where price hikes ranged from 32 per cent to 48 per cent.

Armco Steel Corp., "which initiated last year's sheet price increases, said at the time it was losing \$2 million a month on sheetmaking operations," Industry Week noted.

IW said steel companies claim that "surging scrap prices have added to other intensifying cost pressures." Key grades of steelmaking scrap were reported to be up at least \$3 a ton in many areas, "with only Chicago holding relatively steady."

Top grade steelmaking scrap edged above \$75 a ton last week for the first time since last summer, the magazine said.

Tandy Posts 57% Gain In January

FORT WORTH, Texas — Tandy Corp., parent company of the worldwide Radio Shack store chain, has reported sales in excess of \$58.3 million for January — a gain of 57 percent over January, 1975.

Radio Shack's North American consumer sales were \$33.2 million, a gain of 63 percent over the same month last year.

"Apart from the obvious gains due to enhanced CB sales, all sections of Radio Shack's merchandise line showed significant improvement," according to President Lewis Kornfeld.

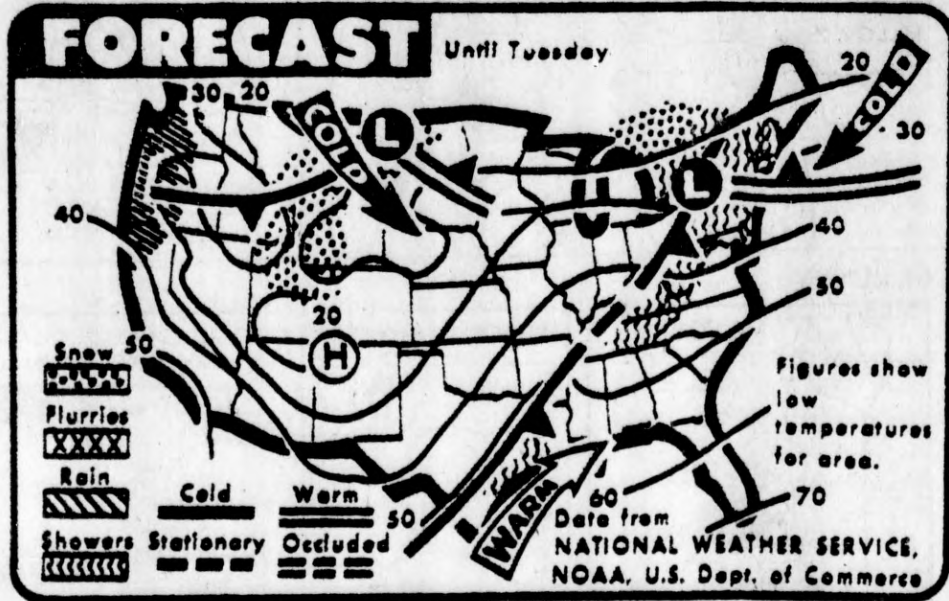

Kornfeld also revealed that in the latest 12 months, the worldwide store system has increased by a total of 1,194 outlets, of which all but 127 were in the U.S. and Canada.

"We are continuing a very aggressive new store opening program into our 1976-77 fiscal year," Kornfeld said.

Radio Shack presently has more than 4,200 stores and dealers in all 50 states and Canada, plus nearly 400 stores and dealers in all 50 states and Canada, plus 400 stores in seven countries operating under the name Tandy International Electronics.

A Radio Shack is located at 961 E. Napier avenue, Benton Harbor.

STEVENSVILLE

Mobile Home Park Gains Court Order

A temporary restraining order has been issued in Berrien Circuit court against the Village of Stevensville, prohibiting village employees from entering a private mobile home park to remove speed-control bumps in the roads.

Judge Julian E. Hughes issued the restraining order after the owner of Lakeshore Mobile Estates, at 3017 Johnson road, Stevensville, filed suit asking that the village be prohibited from entering the trailer park to make road alterations.

In connection with the suit, Hughes set Feb. 23 as the date for a show cause hearing when the village is to appear in court and show cause why the order should not be changed to a permanent injunction.

The suit filed by John J. Sekol contends the roads in the trailer park are private. It claims that village council members on Feb. 2 directed a village employee to enter the trailer park and remove or modify speed-control bumps in the roads, which Sekol claims were installed to discourage through traffic and provide more safety for children playing in the area. The suit contends it would be trespass for a village employee to enter and make the alterations and could result in damage to the trailer park.

Named defendants in the suit besides the village were Arthur Kasewurm, village president, and Kevin Green, a village employee.

New Buffalo Twp. Told Water Costs

NEW BUFFALO — Some 200 homes in the Marquette drive-Riviera road area of New Buffalo township would be the first to get water lines according to a master plan for water service development unveiled at the township hall Saturday.

But that project alone would cost \$462,000 for construction and the hook-up fee would be \$665. In addition there would be a monthly water use rate of 76 and a special assessment of \$11 per frontage foot for private property along the water line.

Those figures, and the costs to take water lines to other areas in the township, were among the statistics produced by Fred Timmer, a spokesman for the township's consulting engineers, Williams and Works of Grand Rapids.

He said that under the plan, water transmission lines would be added to other areas over a 20-year period, based on need and demand.

The most feasible source of water would be to buy it from New Buffalo city, the engineer said.

Township officials now are looking for response to the master plan proposal before proceeding with financing, according to New Buffalo township Supervisor Joseph Svehla.

About 12 people attended the public hearing on the master plan.

Timmer also said that the first additional construction project would include Gordon beach, with 146 homes, and an area from Union Pier to Red Arrow highway, an area with 230 customers.

Including those areas in the Marquette drive-Riviera road project would increase the construction cost to about \$647,000, a figure that could be reduced by about \$150,000 if Chikaming township joined in the master plan, the Grand Rapids engineer said.

Svehla said New Buffalo township officials are to meet with Chikaming township authorities on Feb. 23 to discuss in sharing the cost of the proposed water transmission line.

Timmer also outlined projected costs of taking the water lines to other areas in the township.

From the New Buffalo city limits south to the expressway, a trunk line of 8,000 feet would cost about \$285,000 to serve 30 customers.

From the New Buffalo city water plant along US-12 to the Indiana-Michigan state line, a trunk line of 15,000 feet to serve 45 customers would cost about \$372,000 for a 10-inch line.

Specialist Says No Profit In Farming

EAST LANSING, Mich. (AP) — Rising labor costs and restrictive state laws have made farming a nonprofit business in Michigan, says a Michigan State University labor specialist.

"Total cash receipts for farming have increased — in 1974 it was \$1.7 billion — but net farm income continues to decline," said Daniel Kruger. "It is not profitable being a farmer."

Part of the problem, he said, is pressure from Michigan's automobile industry, "where the highest wages in the country are paid."

"Their spillover effect influences agriculture wages," forcing them up to attract workers, he said.

Plus, workmen's compensation, minimum wages and the Michigan Occupational Safety and Health Act have added to the cost of farm operations, Kruger said.

Farm wage levels and workmen's compensation benefits are lower in other states, Kruger said, putting Michigan products in a poor competitive position.

"Michigan's farm industry is becoming more and more like a public utility which is poorly regulated by state agencies," he said.

"It seems to me that farmers and their friends have got to educate the legislators and the state regulatory agencies that farming is not like General Motors," he said.

Evidence of the increasing nonprofitability of farming is partly in the statistics, Kruger says.

In 1964 there were 93,000 farms in Michigan but that number had declined by 1970 to less than 78,000, he said.

Cultivated acres dropped as well from 14 million acres in 1964 to about 12 million in 1970, and the number of farm workers hired fell, too, he said.

Only 22,000 workers were hired in 1974, he said, compared to 93,000 a decade earlier.

The switch by farmers to mechanical muscle will continue, Kruger said, because of the strict labor regulations and higher labor costs.

Restitution Of \$800 Is Ordered

SOUTH HAVEN — Tommy Wade McCray, 31, 222 North Shore drive, South Haven, pleaded guilty to a reduced charge of obtaining money under false pretenses in Seventh District court here last week.

McCray had originally been charged with embezzlement by state police from the South Haven post in connection with the alleged theft of receipts from a local bowling tournament.

McCray was fined \$113, ordered to make restitution of \$800 to Melody Lanes bowling alley and placed on probation for one year.

In other cases, Josephine Walker, 57, route 1, South Haven, was sentenced to 45 days in the county jail after being found guilty of larceny. She had been arrested in January on a shoplifting complaint by South Haven police.

Howard Alan Daisy, 25, of Benton Harbor, pleaded guilty to a reduced charge of assault and battery. Daisy had originally been charged with assault less than murder in connection with an incident last Aug. 16 during a family dispute. He was sentenced to 60 days in the county jail.

Patrick Eugene Cochran, 34, route 1, South Haven, waived a preliminary examination and was bound over to Van Buren circuit court on a charge of breaking and entering. He was arrested Feb. 1 in connection with the alleged entry of a Geneva township home. Bond of \$25,000 was continued.

William Lawson, 22, and Franklin Reel, 22, both of Hammond, Ind., were bound over to Van Buren circuit court after both waived a preliminary examination on a charge of breaking and entering. They were arrested Feb. 5 when police officers interrupted an apparent burglary of a South Haven township residence. Bond of \$2,000 was continued for each.

South Haven Hospital

ADMISSIONS
SOUTH HAVEN — Patients admitted to South Haven Community hospital over the weekend included Willie Foster, Mrs. Nina Irey, Ronald Peterson, Mrs. Mary Sawyer, Mr. and Mrs. Charles Johnson, South Haven; Mrs. Earline Lacy, Mrs. Theresa Schilk, Bangor.

The area missed the all-time high for February by one degree Sunday and the National Weather Service in Grand Rapids predicted temperatures would hover in the mid-40's through Friday with little chance of snow.

Herb Teichman, Eau Claire fruit grower and weather observer, recorded a temperature of 64 degrees about 2 p.m. Sunday which was the warmest temperature this year. He noted the all-time high for February was 65 in 1954, and the all-time low was -15 degrees in 1951.

The thermometer outside radio station WHFB in Fairplain hit 59 about 2 p.m. and a recording device at The Herald-Palladium registered a high of 54 Sunday.

Youngsters broke out kites, bikes and roller skates, and many cars got their first good bath in weeks.

The unseasonably high temperatures were accompanied by stiff breezes that had a drying effect.

Teichman said the warm spell poses no serious problems to the fruit industry if the temperatures stays unseasonably warm for only a short time. But he predicted most stone fruits, especially peaches and sweet cherries, could sustain great damage if the temperatures remain warm for a prolonged time and then turn cold again.

The weather service predicted a mild week with chances for rain tonight, Wednesday, and Friday. Temperatures should range from the mid-40's for weekly highs to lows in the mid to low 30's. Winds should range from 5 to 15 miles-per-hour throughout the week.

Paw Paw Man Is Bound Over

PAW PAW — Loyal Edward Widger, 37, 605 North Kalamazoo street, Paw Paw, has been bound over to Van Buren circuit court on a charge of assault with a deadly weapon. Widger was ordered to appear in circuit court after waiving preliminary examination on the charge in Seventh District court here Friday.

The charge stemmed from a report filed with Paw Paw police by Jack Buck, Jr., 18, 424 Drew street, Paw Paw. According to police, Buck said he was threatened by a motorist with a shotgun outside the E and H Market.

Police said the incident occurred after the motorist had to drive his car over a snow pile to get to the store. Buck was picking the store at the time, police said. Former employees have been picketing the market since early January in a dispute over being laid off.

In other cases, Leon W. Kirby, 34, Portage, was bound over to circuit court after waiving preliminary examination on a charge of arson. Police said the charge stemmed from a Feb. 3 report that a pickup truck stolen in Kalamazoo was later found burned near Paw Paw.

Kenneth Medlin, 20, 117 East Exchange, Gobles, was bound over to circuit court following preliminary examination on a charge of receiving stolen property. The charge grew out of the theft of a television set from a Pine Grove township home last May.

Another unrelated case, charging him with feloniously assaulting Paul Sadakis, 19, Gobles, Jan. 31 was dismissed.

owners want to see, but for limited reason.

Laws such as these are a product of the "domino effect" and I for one want to know where it all ends. My case is this:

For years we have allowed crime rates to climb while protecting the criminals "rights." We cry for educational funds and ignore the prison system and its education needs. We demand firmer justice and yet give no place for the judge to put the criminals. We cry out at plea bargaining yet in some parts of this country, subsidies are given to courts not sending criminals to prison. Downtown

Benton Harbor is boarded up in many places, business leaving right and left. Only to see the meter maid out putting tickets for over two-hour parking. How did all this start? Where will it stop? We need dynamic leadership in our local, state and federal government not a bunch of sleepy heads. Let's get these answers and not have to pass laws to satisfy the domino effect of poor leadership.

Incidentally, I saw little in the newspaper to support Senator Zollar's no vote on the mandatory jail time issue. Being one of seven no votes should surely be supported with just cause. I wonder what it was?

Would it be possible to see a column devoted to the accomplishment of our state and federal representatives once a week? Just for us folks that care how we vote.

RESEARCH RATHER THAN ASSISTANCE

Editor.

In a recently published article, Dr. Kenneth Vaux, director of the Institute of Religion and Human Development at Texas Medical Center in Houston, stated that a continuing flood of new knowledge in medical science presents vast moral and ethical questions for prospective parents, doctors and clergy. He predicted that within ten years science will be able to determine the possibility of from two hundred to three hundred diseases a fetus may be prone to. "And we have to decide what we're going to do with this information."

A considerable part of this knowledge comes from a procedure called amniocentesis. It is used to determine the health of the fetus so the fetus can be treated prior to birth. Or aborted, depending on the opinion and advice of the attending physician.

With all due respect to the time-honored reputation of the March of Dimes, it should be made clear that 90% of March of Dimes contributions goes to research rather than direct patient assistance. A considerable amount of this research promotes amniocentesis resulting in abortion of the apparently defective child.

Michigan Citizens for Life made a strong plea to March of Dimes directors to cease funding genetic studies aimed at discovering defects in utero which often result in abortion. Although March of Dimes directors will take the matter under advisement, no promises were made. Part of March of Dimes Policy Statement states, "The entire issue of abortion is outside our sphere of interest."

I saw a film depicting a fantasy in which a mad scientist was, through a process of selection, building a society of perfect human beings. With this new medical knowledge a society of perfect human beings is not such a fantasy, is it? Look around you and determine how many persons you know would pass such standards of perfection. Would you pass?

Perhaps you would rather donate your time and money to Muscular Dystrophy, St. Jude Hospital or some other worthy cause dedicated to helping unfortunate instead of playing God.

LONG DRESSES ARE A SPECIALTY AT THE HANG UP... dresses you can really enjoy wearing. We have a super large selection of dresses for queen contests, proms, parties and weddings. Lori Hora shows us a full-skirted Gunne Sax dress in voile with dainty lace sleeves and a bib front. Visit THE HANG UP first for the answers to all of your long dress needs. HANG UP — Fairplain Plaza.

EVERYONE LIKES THE FOOD AT WYNDWICKE...even the ducks! It is such a pleasure to dine where the food is excellent and with such a relaxing atmosphere. The Senior Citizen Special for only \$2.95 (Mon.-Fri. 3-7 p.m.) is open to anyone wishing to dine during these special hours. Double-Bubble Hour is from 4:30-6:30 p.m. Try WYNDWICKE for lunch, dinner or anytime and you'll agree that it's one of the finest dining places in town, located on Niles Rd., St. Joseph.

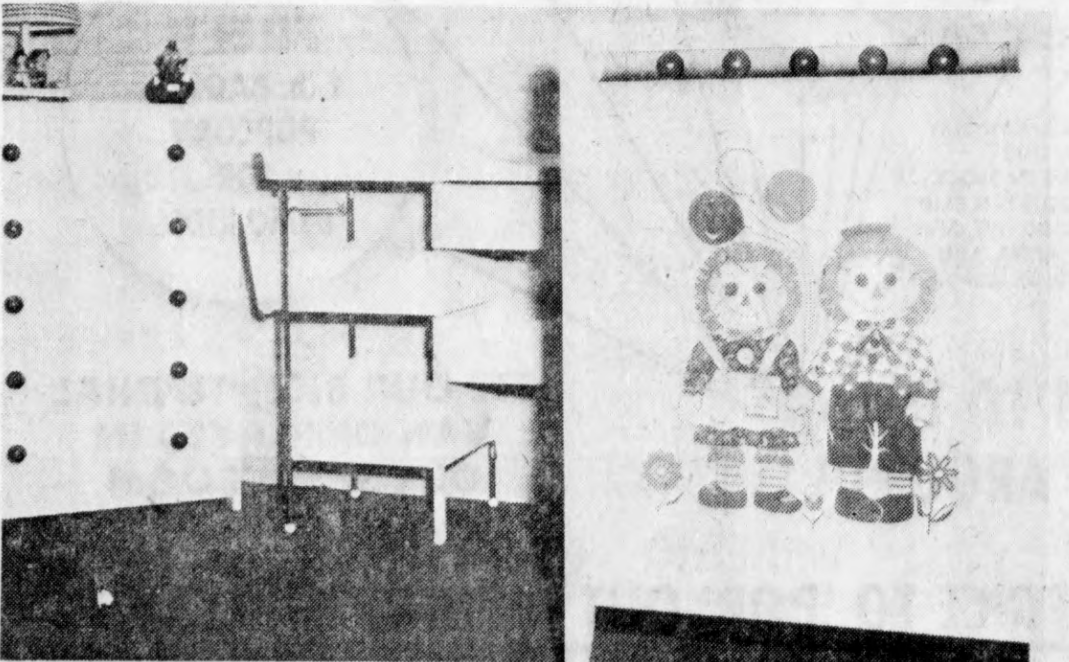

HAPPINESS IS...a new Spring outfit from THE CLOTHESLINE. Jo Pallas, assistant store manager is shown wearing a White Stag co-ordinate. The lovely 100% polyester casual blazer in soft blue with white polka dots is accentuated with its pull-over, short sleeved blouse and its patch-pocket shirt. Come in and see the newest Spring fashions. THE CLOTHESLINE is on Niles Avenue (next to Lambrecht's) in St. Joseph. Open daily 9:30-5:30; Mon. & Fri. 'til 8:30 p.m.

SITTING DOWN ON THE JOB???? Well, not exactly! Meet Mr. Richard Wenham of DOUBLEDAY BROS. Dick is the man to see for your office needs which might include a desk, chair, office lamps, pictures, or just about anything that you'd need to add highlights or glamour to your office. Ask anyone about DOUBLEDAY BROS. and not only will they tell you that the quality of the office furniture is tops, they will surely mention that they shop there time and time again because of their competitive prices and friendly sales staff. DOUBLEDAY BROS. is located across the street from The Herald Palladium on Colfax in Benton Harbor.

DIRECT FROM MEXICO...The finest Mexican pottery is now on display in the new Mexican Pottery Department at FARMER FRIDAY'S in Coloma. You'll be astonished to see the vast selection of colorfully designed pots for your fresh or artificial plants at FARMER FRIDAY'S. Speaking of fresh plants...don't forget to stop by the plant display at FARMER FRIDAY'S. You can decorate that favorite spot in or out of your home with a live plant from FARMER FRIDAY'S.

JUST A GLIMPSE of what's in store for you in the Baby and Juvenile Department at TROOST BROS. FURNITURE in downtown St. Joseph. Come in and look over the wide array of items for the baby which include: cribs, mattresses, chests, youth beds, playpens, strollers, high chairs and many other lovely items for the nursery. If a shower gift is needed...there are many great unique ideas at TROOST BROS. For a closer look at the Raggedy Ann & Andy crib and dresser set with matching lamps, stop in and visit the baby department in the lower level.

HOW DO YOU "CLEAN" A ROOM? In St. Joseph, WHITCOMB TOWER housekeepers have old fashioned ideas. Clean means CLEAN to them. They know nothing about "once over lightly". Change the sheets, vacuum, get into the corners, dust everyplace, SCRUB the bathroom. When you enter your room after our housekeepers have been there, you KNOW the room has been cleaned. They take PRIDE in their work, Phone Mr. Elvin Job today at 983-2513. Say Hello to WHITCOMB TOWER...goodbye to cleaning!

THE WHEELER DEALERS...Berrien County's fastest growing tire dealer, M & W TIRE, INC. is located in St. Joseph at 2525 Niles Avenue. Specializing in brakes, mufflers, shock absorbers, wheel balancing and tune-ups is just a part of their fast and thorough professional service. Front-end alignment of cars and light trucks is another specialty at M & W TIRE, INC. Shopping for tires??? M & W stocks Firestone and Michelin brands. M & W's Benton Harbor location is at 157 Hinkley Street. They are open daily 8 a.m. 'til 5:30 p.m. Saturdays 'til noon.

WHO NEEDS IT???? What?...Fast, friendly service...that's what! In this day and age, people are usually rushed and need fast, courteous service when shopping in their favorite stores. One of the best places to shop, where you'll find not only speedy service but extremely low prices too, is BUY LOW THRIFTMART located on Britain Avenue (just off of Fair Avenue) in Benton Harbor. So...next time you need it...you'll find it all at BUY LOW's. See for yourself!

NOW! ... AT KROGER!

Senior Citizens

Step up and save more at Kroger!

Kroger is pleased to be the first area food store to offer special savings and privileges to persons 65 years of age or older living on fixed incomes. Get your Club Card at Kroger, show proof of age, SIGN YOUR "CLUB" CARD, AND KEEP IT WHERE YOU'LL HAVE IT FOR SHOPPING.

☆ Here's How It Works:

Your Kroger "Club" card entitles you to exemption from making the extra purchase required for our coupon specials. (For example, Kroger Large Eggs may be priced 55¢ doz with coupon and *5 purchase. You do not have to make the *5 extra purchase). You will need only the coupon, and if you don't take a newspaper, you'll have extra coupons available at the store. You may use your "Club" card anytime you shop for coupon purchase exemptions.

Kroger makes it easier to get your meat money's worth

Here are three of the many ways Kroger simplifies saving on meat:

Tailless Steaks

Tails are completely removed from all Kroger Beef T-Bone and Porterhouse Steaks. You don't pay choice steak prices for tough, fatty tails.

Thin Sliced Steaks Or Chops

Steaks and chops are the same price per pound regardless of thickness. No higher prices for thin-sliced.

Any Size Package

Ground Meats are the same price per pound regardless of package size. For example, a pound of ground beef costs the same in a one-pound package as in a five-pound package.
